NA JACKSON MSANZU

Waziri wa Utalii na Wanyama Pori, Dkt. Alfred Mutua amewataka vijana kujiunga na Huduma ya Vijana kwa Taifa (NYS), akisisitiza kuwa, serikali itaajiri maafisa wa usalama kutoka idara hiyo. Akizungumza wakati wa kuzindua

zoezi la kuajiri NYS katika uwanja wa Karisa Maita katika Kaunti ya Kilifi, Waziri huyo aliongeza kuwa mpango wa NYS utahakikisha vijana wanapewa fursa sawa bila kujali hali zao za kiuchumi. "Tunapaswa kukumbuka kuwa kati ya wale ambao watasajiliwa

katika NYS, asilimia 95 hadi 98 watapewa kipaumbele wakati wa kujiandikisha katika Jeshi la Ulinzi la Kenya, Polisi wa Utawala, Huduma ya Wanyamapori ya Kenya, Idara ya Upelelezi wa Jinai, miongoni mwa zingine," Mutua alisema.

Matamshi ya Mutua yanajiri kufuatia idadi ndogo ya vijana katika kaunti ya Kilifi kuajiriwa katika NYS ambapo alibainisha kuwa baadhi ya vijana wamehitimu kujiunga na huduma hiyo lakini wamepuuza wito huo kwa sababu ya kudharau umuhimu wake.

Aliwahimiza vijana kujitokeza kuajiriwa, akisema kuwa NYS itakuwa chachu ya kujiunga na mashirika ya usalama ya serikali. "Vijana bado hawajaelewa hili, wanafikiri NYS si kazi nzuri la-

Mipango ya ustawi wa jamii yahamisha malipo ya msaada kwenda kwa M-Pesa

Katibu wa Idara ya Usalama wa Kijamii na Masuala ya Raia, Joseph Motari alisema kuwa kuhamia kwa jukwaa la MPESA ni hatua ya kuitikia agizo la Rais linalolenga kuongeza utumaji mzuri wa fedha kwa walengwa

NA DOUGLAS NAMUNANE(PCO)

Walengwa chini ya mpango wa Inua Jamii, pamoja na ule wa Ulipaji wa Niche, watapokea marupurupu yao ya kila mwezi kupitia MPESA kuanzia mwezi huu. Katibu katika Idara ya Usalama wa Jamii na Masu-

ala ya Raia, Joseph Motari, alitangaza kutolewa kwa zaidi ya Sh2 bilioni kwa malipo ya Januari kwa vikundi hivi viwili. Motari alisema kuwa, kuhama kwa jukwaa la MPESA ni kwa kuitikia agizo la Rais linalolenga kuboresha utoaji wa fedha kwa walengwa. Mpito huu wa utumaji pesa

kwa njia ya simu, Motari alibainisha, unalingana na agizo la Rais alilotoa wakati wa sherehe za Jamhuri mwaka jana, ambapo alisisitiza kuwa mabadiliko hayo yatawako kwa walengwa kutokana na kero ya umbali mrefu, gharama na usumbufu unaohusiana na kupata pesa. "Kufuatia agizo la Rais,

wanufaika wa Inua Jamii watapokea posho zao kupitia MPESA. Hii itanzia kwa yati, watoto wanaoishi katika mazingira magumu na walezi wa watu wenye ulemavu mkubwa," Katibu alisema. Motari aliwataka walezi kujiandikisha kwa malipo ya MPESA kwa kupiga *222# kwa kutumia namba za simu

za mtoa huduma waliosajiliwa.

Alitaja kuwa wanufaika 207,000 tayari wamejiandikisha kwa malipo ya MPESA na hata kupokea malipo yao ya Desemba 2023 kupitia jukwaa hilo. "Hata hivyo, tumebaini kuwa

kini subiri uone jinsi uandikishaji wa wanajeshi wetu utakavyokuwa. Wengi wa watakojiunga na vikosi vyetu ni wale walio-pitia NYS," waziri alisema. "Kwa hivyo wale ambao wamepumzika nyumbani wakinunua muda wak-isubiri kuajiriwa kwa jeshi au polisi, waje wajiunge na NYS kisha wapande ngazi. Ikiwa hutajiunga na NYS, sahu kujiunga na vikosi vyetu," akasisitiza. Waziri huyo pia aliwataka wasichana wadogo kujitokeza kwa ajili ya zoezi la kuajiri wakiwemo kina mama vijana, akisema kuwa kupata mimba katika umri mdogo haipaswi kuwa mwisho wa maendeleo ya msichana kufikia lengo lao katika maisha yao. Dkt Mutua alihakikishia umma kuwa zoezi hilo litandeshwa kwa njia ya uwazi huku akiahidi kukabiliana na visa vya upendeleo na ufisadi katika kujiunga na huduma ya vijana.

Waziri wa Utalii na Wanyamapori Alfred Mutua (katikati) akitangamana na maafisa wa NYS, Polisi na Utawala wakati wa zoezi la kuajiri NYS katika uwanja wa Karisa Maitha, Kilifi.

"Hapo awali, ilidokezwa kwamba ili mtu ajiunge na NYS au KDF, lazima ujue mtu fulani katika idara hiyo.

Zoezi hili halitakuwa juu ya viunganisho, lakini jasho la mtu binafsi.

Hakutakuwa na orodha iliyochaguliwa mapema ambayo itatoka kwa afisi za juu," alihakikishia. Jumla ya vijana 25 waki-jumuisha wanaume 15 na wanawake 10 kutoka Kaunti Ndogo ya Kilifi

Kaskazini walichaguliwa. Kinyume chake, idadi ndogo sana ya vijana waliojitokeza katika kaunti nyingine ndogo ilisababishwa kuhesabiwa kwa idadi ndogo wakati wa zoezi hilo.

Rais ashuhudia makubaliano ya kihistoria na Shirika la Toyota Tsusho nchini Japan

NA MUNIRA MANDANO
(OGS) NA PSC

Kenya na Toyota Tsusho Corporation ya Japan zime-tia saina makubaliano ya mfumo wa ushirikiano katika utengenezaji wa magari namaendeleoyanishatimbadala. Makubaliano hayo yat-awezesha Toyota kuanzisha kiwanda cha kutengeneza magari nchini. Kampuni hiyo imefanya uwekezaji wa awali wa Sh800 milioni katika Kampuni ya Kenya Thika Vehicle Manufacturers. Rais William Ruto alisema hatua hiyo itaimarisha sekta ya viwanda Kenya, kuimarisha uhusiano kati ya Kenya na Japan, na kupanua fursa kwa Wakenya. Lengo alisema ni kuhakikisha magari yanayotengenezwa hapa nchini yanauzwa kwa bei nafuu na hivyo kutatisha tamaa ya ununuzi wa magari yaliyotumika. "Lazima tuwe na uwiano kati ya idadi ya magari yanayoagizwa kutoka nje na mapya yanayotengenezwa," alisema. Mjini Tokyo, Japan, Rais Ruto alishuhudia utiaji

Mawaziri, Rebecca Miano wa Biashara (kushoto), Davis Chirchir (wa pili kulia), Kipchumba Murkomen wa Uchukuzi (kulia) na Ichiro Kashitani (wa pili kushoto) Rais na Mkurugenzi Mtendaji wa Toyota Tsusho Corporation wakitia saina makubaliano ya ushirikiano katika utengenezaji wa magari na nishati mbadala kwenye hafla iliyoshuhudiwa na Rais William Ruto Picha: PCS.

saina wa mkataba huo mbele ya Rais wa Toyota Tsusho Corporation ya Japan Ichiro Kashitani. Kuhusu maendeleo ya nishati mbadala, makubaliano hayo yalijumuisha Sh15 bilioni kwa Meru Wind Farm Energy, Sh8 bilioni kwa Isiolo Solar Energy, na Sh75 bilioni kwa Kiwanda cha

Jotoardhi cha Menengai. Pia inahusisha uendelezaji wa magari yanayotumia umeme, ikiwa ni pamoja na magari ya umeme ya hidrojeni na magari ya mseto. Wakati wa mkutano na waandishi wa habari jijini Nairobi, Isaac Mwaura, Msemaji wa Serikali, alisema, "Safari hizi ambazo

rais amekuwa akizifanya ni muhimu sana kwani zinavutia wawekezaji wa kimataifa ambao wataleta fursa za uwezesaji kama vile kuunda kazi kwa watu wetu na kuboresha maisha." "Ziara hii sio tu imeimarisha uhusiano baina ya Kenya na Japan, lakini pia imehitimisha miradi muhimu sana

ya uwekezaji na kusababisha enzi mpya ya ustawi kwa taifa," aliendelea. Mwaura pia alibainisha kuwa katika ziara hiyo, rais alihitimisha uwekezaji muhimu wa zaidi ya Sh45 bilioni katika miradi tofauti itakayoendeshwa nchini. "Mradi wa Nishati ya Sh15 bilioni wa Meru Wind Farm ni hatua kuelekea uendelevu wa mazingira na ufanisi wa kiuchumi katika mtazamo wa hali ya hewa na nishati ya kijani," Mwaura alisema. Alisema mradi huo utakuza na kubuni nafasi nyingi za kazi na unalenga kupunguza gharama ya umeme ili kufaidi mamilioni ya Wakenya na kuhimiza uwekezaji. Mradi wa nishati ya jua wa Isiolo utakaogharimu Sh8 bilioni utaingiza nguvu zaidi katika gridi ya taifa na ni msingi wa kubadilisha nishati ya jua. "Aidha, kufanya umeme kuwa nafuu kwa wateja, mradi wa jotoardhi ni kipengele kingine ambacho kimefadhiliwa kupitia ziara yake ya Japan," aliendelea. "Uwekezaji wa aina hiyo nchini una umuhimu

mkubwa hasa ikizingatiwa kupunguza nafasi ya fedha kutokana na madeni, kwa kuwa na magari yanayotengenezwa nchini tuta-pata masoko hata kutoka nchi nyingine za Afrika jambo ambalo litainua uchumi wetu," alisema. "Mipango hii katika sekta ya kilimo inawiana na mkakati mpana zaidi wa kuimarisha usalama wa chakula, kuongeza mapato ya wakulima, na kuiweka Kenya kama mzalishaji mkuu wa kilimo barani Afrika, kama ilivyoainishwa katika mpango wa BETA," alisema. "Chini ya Mradi wa 72 hadi 27, tunalenga kufikia lengo la uzalishaji wa mahindi la magunia milioni 72 ifikapo 2027," Mwaura alisema. Aidha alieleza kuwa kwa kuendelea, serikali itanunua magunia milioni moja ya mahindi kwa Sh 4,000 kwa magunia, kwa kuwa mpango huo umeundwa ili kutoa fidia ya haki kwa wakulima, kuwazawadia kufanya kazi kwa bidii na kujituma. "Jumla ya wakulima 6,436,078 wamesajiliwa katika Mfumo wa Taarifa za Kilimo Jumuishi Kenya (KIAMIS) ili kupata mbolea ya ruzuku kupitia mfumo wa vocha za kielektroniki," alisema.

Kaunti ya Kisumu, kampuni ya dawa ya Amerika kuanzisha kiwanda cha dawa

NA CHRIS MAHANDARA
(KNA)

SERIKALI ya Kaunti ya Kisumu imeshirikiana na kampuni ya dawa ya Marekani na Chuo Kikuu cha Maziwa Makuu cha Kisumu (GLUK) kuanzisha kiwanda cha kutengeneza dawa cha Sh1.6 bilioni katika eneo hilo. Kupitia mpango wa pande tatu, Med Aditus Pharmaceutical inatazamiwa kujenga kiwanda cha kisasa katika Chuo Kikuu cha Maziwa Makuu cha Kisumu (GLUK) ili kuzalisha dawa za ruzuku za ubora wa juu. Gavana wa Kaunti ya Kisumu Prof. Anyang Nyong'o alisema kuwa maendeleo hayo ni hitimisho la miaka mitatu ya mazungumzo na

Gavana wa Kisumu Prof. Anyang Nyong'o akimkabidhi Med Aditus na Afisa Mkuu Mtendaji Mkuu (CEO) Dhiren Thakker nakala ya makubaliano ya mkataba wa upunguzaji wa mradi huo katika hafla iliyofanyika Kisumu. Picha Na Chris Mahandara.

kampuni hiyo, akiongeza kuwa mpango huo unalenga kuimarisha upatikanaji wa dawa za ubora wa juu na kushughulikia mapengo katika ugavi. Akizungumza mjini Kisumu wakati wa kutia saina

mkataba wa makubaliano na kampuni hiyo, Nyong'o alisema mradi huo pia utaibua nafasi za ajira na kusaidia mfumo wa vifaa vya matibabu magharibi mwa Kenya na kitaifa. Kampuni hiyo, ambayo

ujenzi wake unatarajiwa kuanza hivi karibuni, alisema, itazalisha tablets bilioni mbili kila mwaka kwa gharama ya ruzuku ya juu, kuimarisha upatikanaji wa bidhaa kwa jamii ambazo hazijahudumiwa. Hili, aliongeza, litapunguza utegemezi wa uagizaji bidhaa kutoka nje, kuboresha usalama wa ugavi, na kuongeza ustahimilivu wa mishtuko na usumbufu katika kukabili-ana na magonjwa yanayoitoka na kuibuka tena. Kituo hicho, alisema, pia kitaimarisha utafiti na mafunzo kwa kushirikiana na GLUK ili kujenga rasilimali watu waliobeba katika sekta ya dawa. "Itakuza uvumbuzi, mafunzo, na utafiti ka-

tika sekta ya dawa, na kuchangia katika mafanikio ya Bima ya Afya kwa Wote na ajenda ya kitaifa ya utengenezaji," alisema. Serikali ya kaunti, aliongeza, imetoa ardhi, miundo msingi, na motisha kwa mwekezaji ili kuhakikisha kuwa mradi huo unaanza jinsi ilivyoratibiwa. "Uamuzi wa kuleta kampuni hii hapa ni uthibitisho mkubwa kwa Kisumu na kauli kali kwamba Kisumu inakuwa jiji la chaguo kwa uwekezaji wa ndani na wa kimataifa," alisema. Med Aditus Rais na Afisa Mtendaji Mkuu (CEO) Dhiren Thakker alisema mpango huo ulitokana na nia ya kampuni hiyo kuongeza upatikanaji wa dawa kwa wagonjwa ambao hawajapata hu-

duma katika Afrika Kusini mwa Jangwa la Sahara. Dawa ya kisasa, alisema, itainua teknolojia ili kuhakikisha uzalishaji thabiti na endelevu wa dawa. Aliongeza, hii iliwekwa ili kubadilisha mfumo wa ikolojia wa utengenezaji wa dawa nchini na kuhakikisha kuwa wagonjwa wanapata vifaa vya hali ya juu na vya bei nafuu. "Teknolojia ya kisasa ya utengenezaji tunayoleta Kisumu itakuwa ya kwanza ya aina yake barani Afrika. Afrika itakuwa kinara katika teknolojia hii na kuhakikisha kuwa watu wanapata dawa za bei nafuu ambazo wanaweza kuamini," alisema. Teknolojia hiyo, aliongeza, iliungwa mkono na usanifu wa data unaoendeshwa na blockchain na mfumo wa usimamizi wa ubora ambao utaboresha sana usambazaji wa bidhaa za dawa katika kaunti, kitaifa, kikanda na bara.

PCPB yatoa onyo kuhusu uagizaji wa viuatilifu ghushi

NA ANDREW HINGA(KNA)

Bodi ya Bidhaa za Kudidhibiti Wadudu (PCPB) imeelezea wasiwasi kuhusu utitiri na utumiaji wa viuatilifu visivyosajiliwa na ghushi katika soko kuu nchini. Akizungumza na KNA mjini Mombasa, Meneja wa PCPB kanda ya Pwani Stanley Nganga alisema Bodi hiyo ina ufahamu wa kuingia bila kibali na kudidhibisha kontena zenye viuatilifu ghushi kupitia Bandari ya Mombasa. Nganga alibainisha kuwa katika wiki chache zilizopita, Bodi iliripoti shehena kadhaa za viuatilifu visivyoidhinishwa ambavyo viliingia nchini na

kutangazwa kwa uongo wakati wa mchakato wa uondoaji katika maeneo mbalimbali ya kuingia. "Tumefanikiwa kunasa na kupokea taarifa kuhusu shehena kubwa katika maeneo mbalimbali ya kuingia, ikiwa ni pamoja na kontena lenye uzito wa kilo 23,700 katika kampuni ya Boss Freight CFS, ambalo lilisafirishwa hadi nchini kutoka Ningbo, China, na kutangazwa kwa uongo na kusafishwa kinyume cha sheria. utaratibu uliowekwa," alisema. Meneja huyo aliongeza kuwa matukio hayo yameifanya Bodi kuchukua hatua kali za kufuata na kudhibiti uingiaji wa viuatilifu vilivyoidhinishwa nchini.

Ukraine, Kenya zaanzisha uhusiano wa karibu zaidi kupambana na changamoto za pamoja za mazingira

NA JANE NGUGI(KNA)

Ukraine ina nia ya kumimarisha uhusiano wake na Kenya katika kukabili na changamoto za pamoja za kimazingira zinazokabili nchi hizo mbili ikiwa ni pamoja na athari za vita dhidi ya mabadiliko ya hali ya hewa.

Balozi wa Ukraine nchini, Oleksii Sierkov alionyesha kuwa mabadiliko ya hali ya hewa ni suala tata ambalo hakuna nchi moja inayoweza

kulitatuwa kwa urahisi, akiongeza mbinu ya ushirikiano inayohusisha ubia kati ya serikali za kitaifa, sekta ya kibinafsi, na jumuiya ya kimataifa inahitajika kwa mabadiliko ya haraka.

Mwakilishi huyo alifichua kuwa nchi yake imejitolea kuboresha uhusiano wake wa kidiplomasia na Kenya na kwamba ujumbe wa Ukraine utazuru nchini hivi karibuni. Ujumbe wa Ukraine ukiwa na wawakilishi kutoka ju-

muiya za kiraia, wasomi, kitamaduni na kisiasa ungeongozwa na Lesia Vasylenko na majadiliano yalikuwa juu ya juhudi zilizofanywa na ujumbe uliopita katika kujaribu kujijenga upya kufuatia vita vya muda mrefu na jirani yake, Urusi. Akizungumza katika Hifadhi ya Kitaifa ya Ziwa Nakuru na Hifadhi ya Ndege, baada ya ujumbe wa wanafunzi 45 kutoka taasisi

mbalimbali ndani ya Odesa Lyceum City nchini Ukraine kupanda zaidi ya miche 200 ya miti ya asili katika hifadhi hiyo, mjumbe huyo alibainisha zaidi kuwa idadi ya watalii kutoka nchi yake waliotembelea imekuwa ikiongezeka kwa kasi katika miaka minne iliyopita. Wanafunzi hao wenye umri wa miaka 12 hadi 15, ambao waliingia nchini wiki mbili zilizopita, pia walitembelea Ziwa Naivasha, Mbuga ya

Serikali Kaunti ya Nakuru yalenga kuhamisha data hadi Konza City

NA JANE NGUGI NA VERONICA NGINA(KNA)

Serikali ya Kaunti ya Nakuru inachunguza mbinu za kuhamishia data yake hadi katika Kituo cha Data cha Jiji la Konza ili kuhifadhiwa, ikilenga kupunguza mata-tizo katika rasilimali zake za kifedha na miundomsingi.

Utawala wa kaunti hiyo umeashiria kuwa hatua hiyo imechochewa na hitaji la kuhakikisha kiwango cha juu zaidi cha usalama kwa data na taarifa zote zinazokusanywa kutoka kwa wafanyakazi, wanachama wa umma, mashirika ya serikali, mashirika ya kibinafsi na mashirika.

Afisa Mkuu wa ICT, E-Government, na Mawasiliano ya Umma, Bi. Stella Mwaura, alisema kuwa ushirikiano huo utakuwa wa kubadilisha mchezo kwani utapunguza hitaji la kituo cha data cha ndani chenye miundombinu na wafanyakazi, na hivyo kupunguza matumizi ya usimamizi wa rasilimali

za data na wafanyakazi. "Kaunti inajitayarisha kufanya mabadiliko makubwa katika suluhu za ICT katika idara mbalimbali na kuleta mageuzi ya miundombinu yake ya kidijitali kwa kuchunguza ushirikiano wa kimkakati na Kituo cha Data cha Konza Technopolis. Mapinduzi ya kidijitali katika shughuli za kaunti ni nguzo muhimu katika man-ifesto ya Gavana Susan Kihika," Bi Mwaura aliongeza.

Kituo cha Data cha Tier III cha Jiji la Konza Technology ndicho kikubwa zaidi katika Afrika Mashariki, kiki-jivunia uwezo wa petabytes 1.6. Pia inasimama kama miundombinu ya kwanza ya wingu katika kanda. Bi. Mwaura aliona kuwa kwa kuhamia katika kituo hicho, kitengo kilichogatu-liwa kitarahisisha kazi kwa wafanyakazi wake, wateja na umma, kwa kuwa Kituo cha Data kinaweza kuwapa

uwezo wa juu wa kompyuta na huduma ya mtandao kwa kasi zaidi na utiririshaji, ikizingatiwa kuwa ni mwenyeji wa seva za nyuzi na watoa huduma za rununu. Alibainisha kuwa Kituo cha Data kina seva nyingi zilizolizo na kipimo data cha juu ambacho kitaweza kukidhi mahitaji ya kitengo kilichogatuliwa cha huduma za mtandao na kutoa ulinzi bora dhidi ya mashambulizi ya mtandao.

Mpango wa ushauri wa CEMASTEWA wasisitiza STEM kwa wanafunzi

NA WANGARI MWANGI NA WANJIRU NDERITU(KNA)

Kituo cha Elimu ya Hisabati, Sayansi na Teknolojia barani Afrika (CEMASTEWA) kimezindua awamu yake ya pili ya programu za uhamasishaji na ushauri kwa lengo la kuongeza utumiaji wa masomo yanayohusiana na Sayansi, Teknolojia, Uhandisi na Hisabati (STEM) katika Shule ya Sekondari ya Msingi (JSS). Kwa mujibu wa Bi. Beatrice Macharia, Mratibu wa Programu Maalum na Masomo ya Wanafunzi katika CEMASTEWA, uhamasishaji huo unalenga katika kufanya ujifunzaji wa masomo ya STEM kuwa ya wanafunzi zaidi, ikilenga kushughulikia baadhi ya dhana potofu zinazohusishwa na masomo ya hisabati na sayansi miongoni mwa wanafunzi wa mapema. hatua za maisha yao ya kitaaluma. "Jukumu la CEMASTEWA ni kushirikiana na walimu kuendeleza ubunifu wa shughuli za ufundishaji na ujifunzaji zinazokuza elimu ya STEM. Sam-

bamba na hilo CEMASTEWA inashirikiana na wanafunzi kupitia mpango wa STEM outreach ili kuonyesha shughuli zinazoozongeza ubunifu na uvumbuzi wa wanafunzi katika sayansi," alisema Bi. Macharia. Mratibu wa Programu Maalum na Mafunzo ya Wanafunzi alisisitiza kuwa programu hiyo itarahisisha utekelezaji mzuri wa Mtaala unaozingatia Umahiri (CBC). Bi Macharia alibainisha kuwa wakati nchi inajitandaa kwa mapinduzi ya nne ya viwanda, ambayo yatategemea sana sayansi na teknolojia, asilimia ya wanafunzi wanaoifua taaluma zinazohusiana na STEM bado ni ndogo sana. Ili kukabiliana na uhaba huo, mratibu huyo anasema, ushauri huo utawatia moyo wanafunzi wa sasa wa JSS kuchukua njia ya STEM mnamo 2026. "Lengo letu mwaka huu ni JSS kwa sababu ya mpito kwa njia ya STEM ambapo tunatarajia asilimia 60 ya wanafunzi kuchukua njia ya STEM katika Shule za Sekondari za Juu," alisema.

NA SALOME ALWANDA(KNA)

Waziri wa Maji, Usafi wa Mazingira na Umwagiliaji Zachariah Njeru amewahakikishia wakulima wa mpunga huko Bunyala kuwa Mradi wa Unyunyiziaji wa Lower Nzoia utakamilika mwishoni mwa mwezi huu. NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED TWO RIVERS DAM PROJECT LOCATED IN ELDORET TOWN UASIN GISHU COUNTY

Pursuant to Regulation 21 of the Environmental Management and Coordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent **Central Rift Valley & Lake Victoria North Works Development Agencies** intends to construct a dam which will involve gravity flow distribution of treated water. The design capacity of the proposed dam is 74167M³/day. The proposed dam will submerge the existing two rivers dam and therefore the current production (12000M³/day) of the existing two rivers dam will be lost. The selected dam type is Roller Compacted Concrete Dam(RCC)of structural height 39.3m high with an Overflow Ogee Spillway(126m) stepped spillway chute and a stilling basin. Other key features of the proposed dam include: Riverbed Elevation(2150masl), Storage Level(2173.55masl), Full Supply Level(NWL);2180.3Masl), maximum water level at floods (2182.80masl), Dam Crest Level (2184.3masl),Dead Storage 6.62Mm³, Live Storage 9.06Mm³,Total Dam Volume 15.686Mm³, Area Inundated at Full Supply Level 1.74Km². The raw water from the two rivers dam will be transmitted to the Sosiani Water Treatment Works for treatment before distribution to consumers. The project will be located in Eldoret town Uasin Gishu County

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Mitigation measures
Loss Of Biodiversity (Flora)	<ul style="list-style-type: none"> Where possible, clearing of vegetation more so the indigenous trees need to be avoided during construction as much as possible Where clearing of trees is inevitable, the land should be landscaped and planted with as much indigenous vegetation as possible so as to restore the lost biodiversity. The extent of clearing within the work stations should be clearly marked. Instruct all construction workers to restrict clearing to the marked areas and not to work outside defined areas. Avoid introduction of invasive alien species in the landscaping activities.
Increased soil erosion	<ul style="list-style-type: none"> Pile the top soil where it can be reused Soil erosion control measures should be undertaken to avoid erosion in sensitive areas and those prone to erosion Rehabilitation of degraded environment should be undertaken to stabilize the soil and therefore reduce rate of soil erosion and siltation. Soil conservation measures should be observed especially at stockpiled areas. Bare areas should be landscaped after completion. Operations will be timed to take place during the dry season when soils are dry to reduce soil compaction. Re-vegetation should be enhanced to reduce run off.
Disruption of movement during Construction	<ul style="list-style-type: none"> Where such excavations are wide, foot bridges should be erected at the livestock corridors to facilitate their movement. Since this is a short-lived occurrence, the contractor should engage local people to make them understand the importance of the exercise and encourage them to use other alternative routes.
Removal and disposal of asbestos pipes	<ul style="list-style-type: none"> Asbestos containing pipes be replaced with other pipe types. Before disposal commences, an environmental audit should be conducted. The disposal of asbestos should be guided by the "Asbestos management plan (AMP)". The asbestos material should be conveyed, handled and distributed in a safe manner so as not to cause any ill effects to any person or the immediate environment. The onsite and offsite disposal sites shall be marked clearly as asbestos hazard area in accordance with the National Guidelines on Safe Management and Disposal of Asbestos Removal including Onsite/offsite disposal of asbestos shall be subjected to environmental impact assessment in accordance with the Environmental (Impact Assessment and Audit) Regulations, 2003
Air pollution	<ul style="list-style-type: none"> Use of water sprays when dusts are being generated or at times of strong wind All materials stored or stockpiled on site should be adequately covered Maintain machineries at manufacturer's specifications of minimizing emissions. Where unavoidable, construction workers working in dusty areas should be provided and fitted with respirators or personal protective equipment Conduct air quality analysis regularly Cover all trucks hauling soil, sand and other loose materials to avoid spillage and dust emissions that may interfere with smooth motoring Site roads should be dampened every 4-6 hours or within reasonable interval to prevent dust nuisance and on hotter days, this frequency should be increased Cover or wet construction materials such as sand and unpaved areas with gunny bags to prevent dust nuisance.
Excess noise and vibrations	<ul style="list-style-type: none"> Use of equipment that is fitted with noise reduction devices such as mufflers. Construction workers operating equipment that generates noise should be equipped with noise protection equipment Machines should be maintained at manufacturers' specificationst
Solid and liquid waste generation and management.	<ul style="list-style-type: none"> A waste management plan should be adopted as part of the construction works. Hazardous substances should be handled safely and at designated and safe area. Identify areas where re-fueling and vehicle maintenance activities and storage of hazardous materials will be permitted. Skips and bins should be strategically placed within the campsite and construction site. Skips and bins should be adequately designed and covered to prevent access by vermin and minimize odour. They should also be emptied regularly Careful pumping of sewage from upstream manholes to downstream manholes Block off the main trunk line to minimize chances of exposing staff to raw sewage during work. Measures to ensure that waste materials from the Project are disposed at suitable sites should be taken. These will include engaging only reputable truckers and conducting appropriate spot checks to verify that disposal are done in accordance with the requirements of NEMA
Changes in hydrology/impended drainage/deep excavations	<ul style="list-style-type: none"> Release of adequate water for the downstream communities and aquatic organisms The amplitude of this impact will be sized during the continuation of the hydro sedimentology studies that will detect the need or not to take direct control actions, as the dredging of the sandy sediment. The bottom discharger may collaborate in reducing the sediment build-up in the reservoir area.

Impacts	Mitigation measures
Changes in hydrology/impended drainage/deep excavations	<ul style="list-style-type: none"> Application of rainfall and meteorological stations in the monitoring water supply for continuous follow-up of the climatic conditions. Earthworks should be restricted to construction sites Install warning signs and lightings at both deep and shallow trenches Backfilling trenches as soon as works are completed Provide temporary bridges and protection rails at deep trenches to facilitate people movement.
Traffic obstruction	<ul style="list-style-type: none"> Ensure all construction vehicles to and from the construction site use the designated Entry/Exit to the project site. Construct traffic diversions. Sensitize truck drivers to avoid unnecessary road obstruction. Contractor should stick to the provided timeline for completion of works of the Project
Occupational safety and health	<ul style="list-style-type: none"> There should be adequate Personal Protective Equipment (PPE) to all workers and they should be worn all the time. There should be adequate provision of the requisite sanitation facilities for human waste disposal. Workers should receive requisite training especially on the operation of the There should be adequate warning and directional signs. Provide clean drinking water for the employees. Develop a site safety action plan detailing safety equipment to be used, emergency procedures, restriction on site, frequency and personnel responsible for safety inspections and controls. A sign board warning on HIV/AIDS, drugs and alcohol abuse be displayed at the construction camp sites The campsites and their facilities need to be constructed at sites carefully selected away from the sensitive areas. Rehabilitate excavated sites soon as construction is complete. Train workers on the use of firefighting equipment. Provide First Aid kit within the construction site. Recording of all injuries that occur on site in the incident register, corrective actions for their prevention are instigated as appropriate. Provide prevention tools such as condoms at the health Centre and construction site to all. Contractor to ensure compliance with the Workmen's Compensation Act, ordinance regulations and union agreements. Guide all workers in Safety Health and Environment (SHE).
Fire risks and emergency preparedness	<ul style="list-style-type: none"> Put "No Smoking Signs" in areas where inflammables are stored. Guide all workers in Safety Health and Environment (SHE). Provide adequate firefighting equipment capable of fighting all classes of fire. Provide first Aid kit within the construction site. Label all inflammable materials and store them appropriately There should be adequate PPE to all workers and should be worn all the time. Conduct regular fire-fighting drills. Develop a fire fighting emergency plan. Train one member of staff on fire preparedness
Displacement of the affected people.	<ul style="list-style-type: none"> Sensitization of stakeholders and land owners in decision making at all levels. Compensate all the PAPs affected by the land take. Provide alternative land of similar value to the PAPs. Avoid areas with heavy residential buildings as much as possible. Issue advance notices to all affected individuals before commencement of property demolition exercise. A Resettlement Action Plan Report (RAP) and valuation of assets has been undertaken. It is advisable that compensation be done before project commencement
Increased insecurity	<ul style="list-style-type: none"> Provide day and night security guards. Provide adequate lighting within and around the construction site
Gender Based Violence / Child protection	<ul style="list-style-type: none"> Sensitization on Gender based violence through posters, tool talks for workers Develop a GBV mechanism to deal with grievances Develop a policy against GBV All workers and employees to sign a Code of Conduct that clearly explains the related policy All employed will be expected to submit their ID to establish their age
Influx of immigrants in search of employment opportunities	<ul style="list-style-type: none"> Priority (70%) should be given to employing staff from the local community Review the construction activities to integrate with the HIV/AIDS campaigns; Develop appropriate training and awareness materials for Information, Education and communication (IEC) on HIV/AIDS; Identify other players (local CBOs, NGOs, and government organizations) to assist in the dissemination of the awareness of HIV/AIDS for enhanced collaboration; Develop an intervention strategy compatible with the construction programme to address success of the HIV/AIDS prevention and provide peer educators for sustainability in collaboration with other stakeholders; and Integrate monitoring of HIV/AIDS preventive activities as part of the construction supervision. Wakazi wamshangaza Hakimu Mkuu kwa ukarimu wao mahakama Thika

NA MUOKI CHARLES(KNA)

Mahakama ya Thika ilishuhudia tamasha nadra wakati wakazi, wakiwemo wasanii, walipomshangaza Hakimu Mkuu Bi Stella Atambo na shada la maua kwa kujitolea kwake katika kutekeleza haki na ujuzi wake wa kisheria, jambo ambalo walisema limeathiri vyema jamii. Bi. Atambo, ambaye alishukia huku kukiwa na shangwe, wimbo na dansi alipokuwa akishuka kwenye gari lake kuhudhuria vikao vya mahakama, alishindwa kujizuia na machozi huku vijana wakicheza densi wakimsindikiza kwa ujasi hadi afisini mwake. Wenyeji walimtaja kama mfano wa afisa wa umma ambaye hafurahii hali ya kuchelewesha kesi kila walalamishi wanapofika mbele yake kortini. Zaidi ya watu 20, wakiongozwa na mwigizaji Sue Kimani, almaarufu 'Waitherero', walieleza kuwa walinufaika na maamuzi na mwongozo wa Bi. Atambo bila upendeleo, wakibainisha kuboreka kwa utoaji huduma za kisheria ka-

tika Mahakama ya Thika wakati wa uongozi wake. Ingawa walimweleza Hakimu kuwa mkali sana na afisa wa mahakama asi-yestahili mchezo ndani ya chumba cha mahakama, walikubali kuanzisha kwake programu katika mahakama ambazo zimeathiri vyema walalamikaji. "Kwenye chumba cha mahakama, yeye ni mkali. Kwa kweli tulikuwa kundi kubwa sana, lakini baada ya kujua kuwa ni Bi Atambo wangekutana naye, wengi wao walitoweka hewani. Hata hivyo, utoaji wake wa maamuzi kwa kuwaon-

goza walalamishi na kutaka mbinu mbadala za kutatua mizozo haziwezi kupuu-zwa," Waitherero alisema. Waliofuatana nao ni binti wa marehemu bilionea wa zamani wa Juja, Christopher Mbote, ambaye alikuwa na wake wawili wakigombana eneo la maziko yake. Bi Atambo alisaidia kuwakutanisha baada ya kutoa uamuzi wa kihistoria kama wa Solomon kwamba marehemu azikwe kwenye mpaka kati ya nyumba za wake hao wawili, na hivyo kumaliza mzozi wa kisheria wa mazishi ambao ungeweza

kuchukua miaka mingi. Walitaja kuwa katika kipindi cha Atambo kama Hakimu Mkuu, shughuli katika Mahakama ya Sheria ya Thika zimeimarika, haswa katika kesi zinazohusu watoto wadogo na kuanzishwa kwa mahakama ya Madai Ndogo. Zaidi ya hayo, alichukua jukumu muhimu katika kusimamia na kutekeleza mfumo mpya wa kiji-jitali wa kufungua jalada la kielektroniki, na pia kushawishi usajili wa Mahakama ya Juu kuanzishwa Thika, ambapo jaji mpya am-etumwa tangu wakati huo. "Tulihisi kwamba kwa vile huu ni mwezi wa upendo, tunapaswa kutambua juhudi za Hakimu Mkuu katika kurahisisha shughuli katika Mahakama za Sheria za Thika. Tena, amesaidia familia zinazogombana kuungana tena. Pia amesaidia sana watoto kupata haki," Waitherero alisisitiza. Bi. Atambo alikiri kwamba shukrani hizo zilikuja kwa mshangao na kuhusisha mafanikio hayo na kazi ya pamoja, ushirikiano na watumiaji wa mahakama, na washikadau wengine.

Serikali yahakikisha usalama wa fedha za NHIF wakati wa mpito kwa mfumo wa SHA

NA JANE NGUGI NA JEDIDAH GITAU (KNA)

Serikali imewahakikishia Wakenya usalama wa michango yao huku Hazina ya Kitaifa ya Bima ya Hospitali (NHIF) ikigeuzwa kuwa Mamlaka mpya ya Afya ya Kijamii (SHA). Ili kuondoa hofu miongoni mwa Wakenya kuhusu mabadiliko katika mpango wa afya, serikali imeweka zaidi kamati ya mpito kuhakikisha kuwa kuna utoaji wa huduma endelevu na kuanza miongozo na mbinu za utendakazi katika kipindi cha mpito cha ukaguzi. Afisa Mkuu Mtendaji wa Baraza la Kitaifa la Kudhibiti Ugonjwa wa Ugonjwa (NSDCC) Dkt. Ruth Masha, ambaye alimwakilisha Katibu wa Baraza la Mawaziri

Afisa Mkuu Mtendaji wa Baraza la Kitaifa la Kudhibiti Magonjwa yanayotoka kwa wakati mmoja (NSDCC) Dkt. Ruth Masha ambaye alimwakilisha Waziri wa Afya Dkt. Susan Nakhumicha wakati wa uhamasishaji wa umma uliofanyika Nakuru.

la Afya Bi. Susan Nakhumicha wakati wa uhamasishaji wa umma kuhusu mabadiliko ya NHIF katika Maonyesho ya Biashara ya Kilimo Nakuru, alisema Hazina ya Bima ya Afya ya Jamii inawakilisha mpango wa mageuzi unaolenga katika kushughulikia mahitaji ya afya ya wananchi. NHIF ina jumla ya wanachama milioni 15.4. Kati ya hayo, ni milioni 6.7 tu ndio wanaofanya kazi. Katika mwaka wa fedha wa 2021/2022, NHIF ilikusanya jumla ya Sh61.53 bilioni kutoka kwa wanachama wake, alisema. NHIF yenye umri wa miaka 57 inatazamiwa kuvunjwa na nafasi yake kuchukuliwa na Mamlaka ya Afya ya Jamii kuto-

kana na Mswada wa Bima ya Afya ya Jamii wa 2023. Mahakama ya Rufaa mwezi uliopita iliondoa amri ya kuzuia utekezaji wa Mfuko wa Bima ya Afya ya Jamii (SHIF) kuandaa njia kwa serikali kuzindua sheria mpya za Huduma ya Afya kwa Wote (UHC). Jopo la majaji watatu liliondoa agizo la kuzuia kutekezwa kufuatia ombi katika mahakama hiyo la kusimamisha kwa muda agizo la Mahakama Kuu kusubiri uamuzi wa kesi iliyowasilishwa na Joseph Enock Aura. Uamuzi wa mahakama ya Rufaa sasa unaruhusu serikali kuanza utekezaji wa Sheria ya Bima ya Afya ya Jamii, 2023, Sheria ya Huduma ya Afya ya

Msingi, 2023 na Sheria ya Afya ya Kidijitali, 2023. Serikali ilikuwa imechapisha rasimu ya Kanuni za Bima ya Afya ya Jamii (Jumla) za 2023 mwishoni mwa mwaka jana na kuwaalika wananchi kutoa maoni yao. Dkt Masha alieleza kuwa SHIF inatambuliza mfumo wa huduma ya afya kwa wote ambao utahakikishwa upatikanaji wa huduma muhimu za matibabu kwa raia wote wa Kenya na kuongeza kuwa kipegele cha ushirikishwaji wa hazina hiyo ilikuwa hatua muhimu katika kupunguza tofauti za afya na kukuza usawa wa afya. "Kiungo kikubwa cha Hazina ni kwamba inakuja na unafuu mkubwa wa kifedha kwa familia. Gharama za matibabu hutoa shinikizo kubwa la kifedha, na kuziingiza familia nyingi kwenye umaskini.

Mpango huo unalenga kupunguza hili kwa kutawanya gharama ya hu-

duma ya afya kwa watu wote," Mkurugenzi Mtendaji wa NSDCC alisema. Dkt. Masha aliwahakikishia Wakenya kwamba usimamizi wa sasa wa NHIF unarekodi mali, madeni na mali za shirika hilo, ambazo zitakabidhiwa kwa mamlaka hiyo mpya. Afisa Mkuu wa Kaunti ya Nakuru anayesimamia Afya ya Umma Alice Abuki alidokeza kuwa Hazina hiyo imeundwa ili kumarisha hatua za kinga. Alibainisha kuwa uchunguzi wa mara kwa mara na utambuzi wa mapema wa magonjwa ni muhimu katika kudumisha afya ya jamii na kuongeza kuwa kwa kutoa huduma za kinga, mpango huo unahimiza wananchi kuweka kipaumbele kwa ustawi wao, na hivyo kusababisha idadi ya watu wenye afya bora na kupunguza mzigo kwa ujumla. mfumo wa huduma ya afya. "Mpango huu pia unalenga kuboresha ubora wa huduma za afya.

Ag. MANAGER, SUPPLY CHAIN

EACC yataka Wakenya kuchagua viongozi waadilifu kwa huduma bora

NA MABEL KEYA-SHIKUKU NA ERASTUS GICHOHI (KNA)

Afisa Mkuu Mtendaji wa EACC, Bw Twalib Mbarak ametoa wito kwa Wakenya kuwachagua viongozi waadilifu ili kupokea huduma wanazostahili na kulinda rasilimali zao. Afisa huyo wa Kupambana na Ufisadi alisema Tume ya Maadili na Kupambana na Ufisadi (EACC) kwa sasa inakabiliwa na ufadhili duni, kuingiliwa, kupuuzwa, na siasa za kesi za ufisadi. Akizungumza wakati wa kikao na wajumbe wa Kamati ya Bunge ya Haki na Masuala ya Sheria kujadili changamoto zinazokabili mapambano dhidi ya rushwa nchini na namna ya kuzitatua, Mbarak alisema ni wakati muafaka kwa viongozi kuchukulia vita dhidi ya rushwa kwa uzito mkubwa kwa kuwa kuwajibika. Alitaja Kaunti ya Kisumu, ambayo uongozi wake wa sasa, alisema, uliwajibika pakubwa katika matumizi yake ya fedha za umma, akibainisha kuwa kaunti nyingi zinakabiliwa na uongozi mbaya, michakato ya utoaji zabuni na ununuzi usiofuata utaratibu, na kuingiliwa kwa ujiriji

wa wafanyikazi wa kaunti. "Hatujalalamika kuhusu kuandamwa kwa kesi za ufisadi. Vyovyote vile, tuna uhusiano mzuri sana na mashirika mengine ya serikali ambayo yana mamlaka ya kushtaki, ikiwa ni pamoja na Ofisi ya Mkurugenzi wa Mashtaka (ODPP) na Ofisi ya Mkurugenzi wa Upelelezi wa Makosa ya Jinai (DCI), na tunaamini sisi wanaliua joka la ufisadi, kipande kwa kipande," alisema. Bw Mbarak alijitia kisa cha moto kilichotokea Nairobi, Embakasi, ambapo maisha ya watu walipoteza na wengine wengi kujeruhiwa, na alilaumu kwa kutokujali. "Ikiwa ni Wakenya tu wangezingatia sheria na kuacha kuadhibiwa ambayo ni sehemu ya ufisadi, matukio kama hayo yasingetokea nchini," Mkurugenzi Mtendaji huyo alilalamika huku akiwapa pole wahasiriwa wa kile alichokitaja kuwa "tukio la bahati mbaya lakini linaloweza kuepukika." Twalib aliona kuwa nchi ina sheria za kutosha, lakini kwa bahati mbaya ukosefu wa nia ya kuzitekeleza unaendelea kuzorotesha utoaji wa huduma

kwa serikali kwa ufanisi. Mwenyekiti wa Kamati ya Haki na Masuala ya Kishe-ria, George Murugara Gitonga, kwa upande wake

alisema Kamati hiyo ambayo ina mamlaka ya kusimamia na kutunga sheria kuhusu masuala ya ufisadi, inakutana na mashirika mbalimbali ya serikali, ikiwa ni pamoja na Tume ya Maadili na Kupambana na Ufisadi (EACC). Mahakama, na Ofisi ya Mkurugenzi wa Tume ya Umma (ODPP), kuimari- sha vita dhidi ya ufisadi. Mwenyekiti wa Kamati ya Bunge alisema ushirikiano wao na EACC utachunguza uingiliaji kati wa sheria,

na ugawaji wa bajeti, ili kuwezesha Tume kuha- rakisha majukumu yake ya kupambana na ufisadi. Akijibu suala la EACC ku- pewa mamlaka ya kuen- desha mashtaka, Gitonga, ambaye pia ni Mbunge wa Tharaka (Mbunge), alisema jinsi sheria ilivyo, ni Ofisi ya Mkurugenzi wa Tume ya Umma (ODPP) na Ofisi ya Mkurugenzi wa Uhalifu pekee (DCI), zina mamlaka yakuendesha mashtaka. Hata hivyo alisema baadhi

ya waendesha mashtaka wanaweza kuungwa mkono na EACC ili kuharakisha kushtakiwa kwa masuala ya ufisadi, akiongeza kuwa mpelelezi hawezi kuwa mwendesha mashtaka kwani inaweza kusababi- sha mgongano wa maslahi. Mwenyekiti wa EACC, Askofu David Oginde, alisema kuna haja ya kuun- ganisha nguvu na mashirika husika ya serikali ili kupi- gana na kushinda vita dhidi ya ufisadi.

Kampuni yazindua Mpango Mkakati kabambe wa huduma bora za maji

NA ROLEX OMONDI(KNA)

Kampuni ya Maji na Usafi wa Maz- ingira ya Kisumu (KIWASCO) imezindua Mpango Mkakati wa kina (2023-2028) ili kuende- lea kutoa maji ya kutosha, safi ya kunywa na kuku- sanya, kutibu, na ku- tupa maji taka katika eneo lake la mamlaka. Gavana Prof Anyang Nyong'o alisema kuwa kuna haja ya kuongeza wigo wa idadi ya watu wal- ionganishwa kwa maji safi na kupunguza upotevu wa maji kwa kurekebisha uvujaji mara moja. "Ninge- penda kuwakumbusha KIWASCO kwamba kama chombo cha Serikali ya Kaunti, lazima watekeleze wajibu wao ipasavyo. Utoaji wa maji safi na usi- mamizi ufaao wa maji taka unaangaziwa katika il- ani yangu ya 2023-2027. Ninaweka matumaini yangu kwako kutimiza ahadi hii kwa wananchi," Nyong'o akahimiza. Aliipongeza kampuni ya maji kwa uzinduzi wa

Mpango Mkakati wao wa 4, ambao alisisitiza kuwa unaendana na nia ya Kaunti katika utoaji wa huduma za maji na usafi wa maz- ingira kama ilivyoain- ishwa katika Mpango wake wa Maendeleo wa Kaunti (CIDP) wa 2023-2027. Nyong'o alifahamisha wakazi kuwa utawala wake una mipango thabiti ya kubadilisha Kisumu kuwa mojawapo ya miji mikubwa zaidi duniani. Ili kufanikisha hilo, alishauri kuwa kuna haja ya kuwa na mtandao bora wa usambazaji maji. Kwa njia hii, mkuu wa Kaunti alidokeza kuwa kutakuwa na umbali mdogo ambao watu wata- hitaji kutembea ili kufikia kituo cha maji cha karibu. Akirejelea Mradi wa Pili wa Makazi yasiyo Rasmi nchini Kenya (KISIP II) uli- ozinduliwa hivi majuzi am- bao utadumu kwa miaka mitatu, alisisitiza kuwa kaunti inanuia kutoa bara- bara nzuri, mifumo ya maji, maji taka, mifereji ya maji na umeme kwa wakaazi.

Magavana wapendekeza marekebisho ya rasimu ya Mswada wa Vyama vya Ushirika

NA DOUGLAS MUDAMBO (KNA)

Baraza la Magavana (COG) limepende-keza marekebisho ya Rasimu ya Mswada wa Sheria ya Ushirika, 2023, uliopo Bungeni hivi sasa, kuhusu usimamizi wa vyama vya ushirika nchini.

Kupitia kwa Kamati ya Kilimo na Ushirika inayooongozwa na Gavana wa Bungoma Kenneth Lusaka,

COG inatafuta ufafanuzi kuhusu majukumu na uhusiano kati ya serikali ya kitaifa na kaunti kuhusu masuala kama vile vyeti vya usajili wa vyama vya ushirika, utoaji wa mahitaji na notisi za wakala, ukaguzi wa vyama vya ushirika na uchunguzi katika masuala ya vyama vya ushirika vya msingi na sekondari, miongoni mwa mengine.

Hivi majuzi Baraza lilieleza wasiwasi wake kuhusu rasimu ya Mswada wa Sheria ya Ushirika, 2023, likisisitiza umuhimu wa kuanzishwa kwa mfumo thabiti wa kishe-ria wa usimamizi wa vyama vya ushirika nchini, kazi iliyogatuliwa ya serikali za kaunti kama ilivy-oinishwa katika Katiba. Baraza hilo pia lilieleza udharura wa kutatua mk-

wamo uliokuwepo ili kuweka mazingira bora ya ukuaji na mafanikio ya vyama vya ushirika nchini. "Ni muhimu kutambua na kuzingatia majukumu ya kikatiba ya serikali za ug-atuzi hasa katika kilimo," alisema na kusisitiza kuwa kukosekana kwa mifumo ya kujiendesha ya usimam-izi wa vyama vya ushirika kunaathiri ukuaji na ma-fanikio yao nchini.

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED TWO RIVERS DAM PROJECT LOCATED IN ELDORET TOWN UASIN GISHU COUNTY

Pursuant to Regulation 21 of the Environmental Management and Coordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent **Central Rift Valley & Lake Victoria North Works Development Agencies** intends to construct a dam which will involve gravity flow distribution of treated water. The design capacity of the proposed dam is 74167M³/day. The proposed dam will submerge the existing two rivers dam and therefore the current production (12000M³/day) of the existing two rivers dam will be lost. The selected dam type is Roller Compacted Concrete Dam(RCC)of structural height 39.3m high with an Overflow Ogee Spillway(126m) stepped spillway chute and a stilling basin. Other key features of the proposed dam include: Riverbed Elevation(2150masl), Storage Level(2173.55masl), Full Supply Level(NWL);2180.3Masl), maximum water level at floods (2182.80masl), Dam Crest Level (2184.3masl),Dead Storage 6.62Mm³, Live Storage 9.06Mm³,Total Dam Volume 15.686Mm³, Area Inundated at Full Supply Level 1.74Km². The raw water from the two rivers dam will be transmitted to the Sosiani Water Treatment Works for treatment before distribution to consumers. The project will be located in Eldoret town Uasin Gishu County

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Mitigation measures
Loss Of Biodiversity (Flora)	<ul style="list-style-type: none"> Where possible, clearing of vegetation more so the indigenous trees need to be avoided during construction as much as possible Where clearing of trees is inevitable, the land should be landscaped and planted with as much indigenous vegetation as possible so as to restore the lost biodiversity. The extent of clearing within the work stations should be clearly marked. Instruct all construction workers to restrict clearing to the marked areas and not to work outside defined areas. Avoid introduction of invasive alien species in the landscaping activities.
Increased soil erosion	<ul style="list-style-type: none"> Pile the top soil where it can be reused Soil erosion control measures should be undertaken to avoid erosion in sensitive areas and those prone to erosion Rehabilitation of degraded environment should be undertaken to stabilize the soil and therefore reduce rate of soil erosion and siltation. Soil conservation measures should be observed especially at stockpiled areas. Bare areas should be landscaped after completion. Operations will be timed to take place during the dry season when soils are dry to reduce soil compaction. Re-vegetation should be enhanced to reduce run off.
Disruption of movement during Construction	<ul style="list-style-type: none"> Where such excavations are wide, foot bridges should be erected at the livestock corridors to facilitate their movement. Since this is a short-lived occurrence, the contractor should engage local people to make them understand the importance of the exercise and encourage them to use other alternative routes.
Removal and disposal of asbestos pipes	<ul style="list-style-type: none"> Asbestos containing pipes be replaced with other pipe types. Before disposal commences, an environmental audit should be conducted. The disposal of asbestos should be guided by the "Asbestos management plan (AMP)". The asbestos material should be conveyed, handled and distributed in a safe manner so as not to cause any ill effects to any person or the immediate environment. The onsite and offsite disposal sites shall be marked clearly as asbestos hazard area in accordance with the National Guidelines on Safe Management and Disposal of Asbestos Removal including Onsite/offsite disposal of asbestos shall be subjected to environmental impact assessment in accordance with the Environmental (Impact Assessment and Audit) Regulations, 2003
Air pollution	<ul style="list-style-type: none"> Use of water sprays when dusts are being generated or at times of strong wind All materials stored or stockpiled on site should be adequately covered Maintain machineries at manufacturer's specifications of minimizing emissions. Where unavoidable, construction workers working in dusty areas should be provided and fitted with respirators or personal protective equipment Conduct air quality analysis regularly Cover all trucks hauling soil, sand and other loose materials to avoid spillage and dust emissions that may interfere with smooth motoring Site roads should be dampened every 4-6 hours or within reasonable interval to prevent dust nuisance and on hotter days, this frequency should be increased Cover or wet construction materials such as sand and unpaved areas with gunny bags to prevent dust nuisance.
Excess noise and vibrations	<ul style="list-style-type: none"> Use of equipment that is fitted with noise reduction devices such as mufflers. Construction workers operating equipment that generates noise should be equipped with noise protection equipment Machines should be maintained at manufacturers' specificationst
Solid and liquid waste generation and management.	<ul style="list-style-type: none"> A waste management plan should be adopted as part of the construction works. Hazardous substances should be handled safely and at designated and safe area. Identify areas where re-fueling and vehicle maintenance activities and storage of hazardous materials will be permitted. Skips and bins should be strategically placed within the campsite and construction site. Skips and bins should be adequately designed and covered to prevent access by vermin and minimize odour. They should also be emptied regularly Careful pumping of sewage from upstream manholes to downstream manholes Block off the main trunk line to minimize chances of exposing staff to raw sewage during work. Measures to ensure that waste materials from the Project are disposed at suitable sites should be taken. These will include engaging only reputable truckers and conducting appropriate spot checks to verify that disposal are done in accordance with the requirements of NEMA
Changes in hydrology/ impended drainage/deep excavations	<ul style="list-style-type: none"> Release of adequate water for the downstream communities and aquatic organisms The amplitude of this impact will be sized during the continuation of the hydro sedimentology studies that will detect the need or not to take direct control actions, as the dredging of the sandy sediment. The bottom discharger may collaborate in reducing the sediment build-up in the reservoir area.

Impacts	Mitigation measures
Changes in hydrology/ impended drainage/deep excavations	<ul style="list-style-type: none"> Application of rainfall and meteorological stations in the monitoring water supply for continuous follow-up of the climatic conditions. Earthworks should be restricted to construction sites Install warning signs and lightings at both deep and shallow trenches Backfilling trenches as soon as works are completed Provide temporary bridges and protection rails at deep trenches to facilitate people movement.
Traffic obstruction	<ul style="list-style-type: none"> Ensure all construction vehicles to and from the construction site use the designated Entry/Exit to the project site. Construct traffic diversions. Sensitize truck drivers to avoid unnecessary road obstruction. Contractor should stick to the provided timeline for completion of works of the Project
Occupational safety and health	<ul style="list-style-type: none"> There should be adequate Personal Protective Equipment (PPE) to all workers and they should be worn all the time. There should be adequate provision of the requisite sanitation facilities for human waste disposal. Workers should receive requisite training especially on the operation of the There should be adequate warning and directional signs. Provide clean drinking water for the employees. Develop a site safety action plan detailing safety equipment to be used, emergency procedures, restriction on site, frequency and personnel responsible for safety inspections and controls. A sign board warning on HIV/AIDS, drugs and alcohol abuse be displayed at the construction camp sites The campsites and their facilities need to be constructed at sites carefully selected away from the sensitive areas. Rehabilitate excavated sites soon as construction is complete. Train workers on the use of firefighting equipment. Provide First Aid kit within the construction site. Recording of all injuries that occur on site in the incident register, corrective actions for their prevention are instigated as appropriate. Provide prevention tools such as condoms at the health Centre and construction site to all. Contractor to ensure compliance with the Workmen's Compensation Act, ordinance regulations and union agreements. Guide all workers in Safety Health and Environment (SHE).
Fire risks and emergency preparedness	<ul style="list-style-type: none"> Put "No Smoking Signs" in areas where inflammables are stored. Guide all workers in Safety Health and Environment (SHE). Provide adequate firefighting equipment capable of fighting all classes of fire. Provide first Aid kit within the construction site. Label all inflammable materials and store them appropriately There should be adequate PPE to all workers and should be worn all the time. Conduct regular fire-fighting drills. Develop a fire fighting emergency plan. Train one member of staff on fire preparedness
Displacement of the affected people.	<ul style="list-style-type: none"> Sensitization of stakeholders and land owners in decision making at all levels. Compensate all the PAPs affected by the land take. Provide alternative land of similar value to the PAPs. Avoid areas with heavy residential buildings as much as possible. Issue advance notices to all affected individuals before commencement of property demolition exercise. A Resettlement Action Plan Report (RAP) and valuation of assets has been undertaken. It is advisable that compensation be done before project commencement
Increased insecurity	<ul style="list-style-type: none"> Provide day and night security guards. Provide adequate lighting within and around the construction site
Gender Based Violence / Child protection	<ul style="list-style-type: none"> Sensitization on Gender based violence through posters, tool talks for workers Develop a GBV mechanism to deal with grievances Develop a policy against GBV All workers and employees to sign a Code of Conduct that clearly explains the related policy All employed will be expected to submit their ID to establish their age
Influx of immigrants in search of employment opportunities	<ul style="list-style-type: none"> Priority (70%) should be given to employing staff from the local community Review the construction activities to integrate with the HIV/AIDS campaigns; Develop appropriate training and awareness materials for Information, Education and communication (IEC) on HIV/AIDS; Identify other players (local CBOs, NGOs, and government organizations) to assist in the dissemination of the awareness of HIV/AIDS for enhanced collaboration; Develop an intervention strategy compatible with the construction programme to address success of the HIV/AIDS prevention and provide peer educators for sustainability in collaboration with other stakeholders; and Integrate monitoring of HIV/AIDS preventive activities as part of the construction supervision. Basic knowledge, attitude and practices are among the parameters to be monitored, and particularly on provision of condoms, status testing and use of ARVs.

Wakulima Murang'a kufurahia mavuno ya mtama kwenye makubaliano na EABL

NA BERNARD MUNYAO(KNA)

Huku msimu wa kuvuna mtama ukikaribia, wakulima kutoka sehemu za chini za Kaunti ya Murang'a wana matumaini ya kupata mavuno mazuri, kutokana na makubaliano yaliyotiwa saina mwaka jana na East African Breweries Limited (EABL). Mamia ya wakulima wanatarajiwa kuvuna mazao mengi ya mtama, ambayo walipanda Oktoba mwaka jana, baada ya kupokea mbegu zilizo dhinishwa kutoka kwa EABL. Mpango huu uliimarishwa na mvua nyingi zilizonyesha katika eneo hili katika msimu uliopita. Serikali ya Kaunti ya Murang'a, chini ya uongozi wa Gavana Irungu Kang'ata, iliwezesha kutiwa sahihi kwa Mkataba wa Maelewano (MoU) kati ya wakulima na kampuni hiyo. Shirika lililogatuliwa liliahidi kusaidia wakulima wa ndani katika kilimo cha mtama, huku EABL ikijitolea kutoa soko tayari kwa mavuno. Kupitia Makubaliano haya, EABL ilisambaza zaidi ya kilo 6,000 za mbegu za mtama zilizo dhinishwa kwa takriban

Shamba la mtama maeneo ya Kakuzi/Wadi ya Mutubiri, Murang'a.

wakulima 2,000 kutoka Kaunti Ndogo za Maragua, Ithanga, na Gatanga. Mpangilio huu wa kilimo cha kimkataba unalenga kuimarisha maisha ya wakazi katika eneo ambalo kwa kawaida hupokea mvua chache. Kimani Mugo, Mtendaji wa Kaunti ya Biashara na Ushirikia, alipokuwa akikagua mashamba ya mtama, alithibitisha kuwa wakulima walikuwa wakitarajia mavuno mengi. Zaidi ya hayo, EABL ilihakikisha kwamba

ingenunua mavuno yote ya mtama kutoka kwao. Alitaja kuwa EABL iliahidi kununua kila kilo ya mtama kwa Sh48 katika lango la shamba, jambo linaloashiria kuwa wakulima wanasubiri mavuno yao yakauke kabla ya kuanza kuvuna. Mugo alidokeza kuwa ekari moja inakadiriwa kuzalisha zaidi ya gunia saba za kilo 90 za mtama, na hivyo kuruhusu mkulima kupata zaidi ya Sh30,000 kwa kuuza kila kilo ya mtama kwa Sh48. Mtendaji wa Kaunti alisema

kuwa mradi huo unalenga kuwanufaisha wakulima katika eneo la chini na wafugaji wa ng'ombe wa maziwa katika maeneo ya juu ya Murang'a, ambao wanaweza kutumia mabua ya mtama kulisha mifugo yao. Mjumlishaji aliyetumwa na EABL kukusanya mtama kutoka kwa wakulima, Eva Muthoni, alithibitisha kuwa wakulima hao watalipwa mara baada ya mtama wao kukusanywa. "Tuko hapa Murang'a kununua mtama kutoka kwa wakulima, na tutakuwa tukiwalipa mara baada ya bidhaa hiyo kupimwa na kupakiwa kwa usafiri," alibainisha. Mmoja wa wakulima wa eneo hilo, Cheryl Mbatha, na mwakilishi wa ushirika wa chini wa Murang'a, alibainisha kwa kuridhika kuwa wakulima wa eneo hilo watafaidika pakubwa na kilimo cha mtama ikizingatiwa kuwa eneo hilo ni la ukame na mazao mengi ya kawaida. mara nyingi hushindwa kutokana na mvua zisizo za uhakika. "Zao hili litasaidia wakazi wengi wa eneo hilo kujipatia kipato," alisema.

KWA UFUPI

Serikali yalenga mbegu bora ili kuongeza uzalishaji wa viazi

Serikali kupitia ushirikiano kati ya sekta ya umma na kibinafsi itaongeza uzalishaji mbegu za viazi zilizo dhinishwa kwa asilimia 25 kupitia ongezeko la mbegu shambani, pamoja na kuwajengea uwezo wakulima wa mbegu za kibashara nchini. Katibu wa Kilimo Dkt. Kiprono Rono alifichua kwamba wakulima wanahusishwa na taasisi za utafiti zikiwemo Shirika la Utafiti wa Kilimo na Mifugo (KALRO), Shirika la Maendeleo ya Kilimo (ADC), na Kenya Plant Health Inspectorate Services (KEPHIS) ili kuhakikisha kuwa wananunua bidhaa safi na safi. nyenzo za upandaji zilizo dhinishwa. Utafiti uliofanywa na Kituo cha Kimataifa cha Kilimo na Bioscience International (CABI) ulionyesha kuwa nyenzo duni za upanzi ndizo zinazochangia kupungua kwa uzalishaji wa viazi nchini Kenya. Dkt. Rono alisema mavuno kidogo ya viazi, ambayo ni wastani wa tani 8.6 kwa ekari, yalichangiwa kwa kiasi fulani na usimamizi mbaya. Alisema Serikali inaweka benki katika uzalishaji wa mbegu bora za viazi na KALRO, ADC, Chuo Kikuu

cha Egerton, miongoni mwa taasisi nyingine za utafiti, ili kuongeza uzalishaji wa kusambaza mbegu kwa zaidi ya tani milioni 12 kila mwaka. Akizungumza katika bohari ya Kitaifa ya Nafaka na Mazao (NCPB) mjini Nakuru Katibu Mkuu alitaja ukosefu wa mbegu zilizo dhinishwa kuwa changamoto kuu inayokabili uzalishaji wa viazi nchini. Alisikitika kuwa wakulima wengi walikuwa wakichakachua mbegu zao na kusababisha kushuka kwa ubora na wingi wa uzalishaji wa viazi katika mashamba yao. Alifichua kuwa Kenya itaandaa Kongamano la Kimataifa la Viazi 2026 na Kaunti ya Nakuru inapendekezwa kuwa eneo hilo. Katibu alisema kwa sasa, wakulima wanavuna karibu tani 10 za viazi kwa hekta, akibainisha kuwa inaweza kupanda hadi tani 25 kwa hekta ikiwa kutakuwa na mzunguko wa mazao, matumizi ya mbegu zilizo dhinishwa na kunyunyizia dawa sahihi. Nakuru ni mzalishaji wa pili kwa ukubwa wa zao hilo kitaifa.

Serikali yawataka Wakenya kukumbatia mpango wa nyumba za gharama nafuu

Naibu Msemaji wa Serikali, Bi Mwanaisha Chidzuga, anawataka Wakenya kukumbatia mradi wa ujenzi wa nyumba za bei nafuu kwani utaboresha maisha katika siku zijazo. Akizungumza wakati wa mahojiano na wanahabari, Chidzuga alisema mradi huo umetoa nafasi za kazi na kuwezesha Wakenya kujikimu kimaisha kutokana na miradi ya ujenzi katika kaunti tofauti. "Vijana na wanawake wengi wanafanya kazi katika maeneo ya ujenzi, wakijipatia kipato kukidhi mahitaji yao ya kila siku. Baadhi ya wanawake wanaendesha biashara kwa kusambaza chakula kwa wafanyakazi wa ujenzi na wanakandarasi, ambayo ni sehemu ya uwezesaji," Chidzuga alisema. Alibainisha kuwa mafundi umeme, wasimamizi, mafundi bomba, na wasanifu majengo wote wamepewa nafasi za kazi katika maeneo ya mradi wa nyumba za bei nafuu. "Kuna zaidi ya ajira 100,000 zilizoundwa na miradi ya nyumba za bei nafuu, kwani Wakenya kutoka taaluma mbalimbali huajiriwa kufanya kazi kwenye tovuti hizi na kujipatia riziki," aliendelea. Chidzuga alitaja kuwa baada ya Mahakama ya Rufaa kutangaza ushuru wa nyumba kuwa kiny-

ume na katiba, Wakenya wengi wanaofanya kazi katika maeneo ya ujenzi wa nyumba za bei nafuu walikuwa na wasiwasi kuhusu maisha yao. Kwa hivyo, Rais William Ruto aliamuru wanakandarasi kuendelea na kazi katika maeneo yote ya ujenzi. "Hii inadhahirisha kuwa serikali inawapa kipaumbele 'mwananchi' wa ndani, haswa katika suala la ajira," Chidzuga aliendelea. Aliongeza kuwa mradi wa ujenzi wa nyumba za bei nafuu utakopamilika katika kaunti zote 47, Wakenya wengi wanaofanya kazi katika maeneo ya ujenzi watakuwa wamefaidika. "Nyumba hizi zikamilika na Wakenya kuzinunua, bado kutakuwa na nafasi za ajira, kwani watunzaji, watunza bustani, na walenzi watahitajika katika majengo haya," alisema. Chidzuga alionya Wakenya dhidi ya kuingiza siasa kwenye mradi huo. "Nyumba ni hitaji la kimsingi, na kila Mkenya anapaswa kumiliki nyumba yake. Msikubali wanasiasa wanaoeneza propaganda kuhusu mradi huo. Wana maslahi ya ubinafsi kwa vile wote wanamiliki majumba katika sehemu mbalimbali za nchi na wanapinga watu wa kipato cha chini kumiliki nyumba," Chidzuga alisema. Na Munira Mandano (OGS)
