EDUCATION

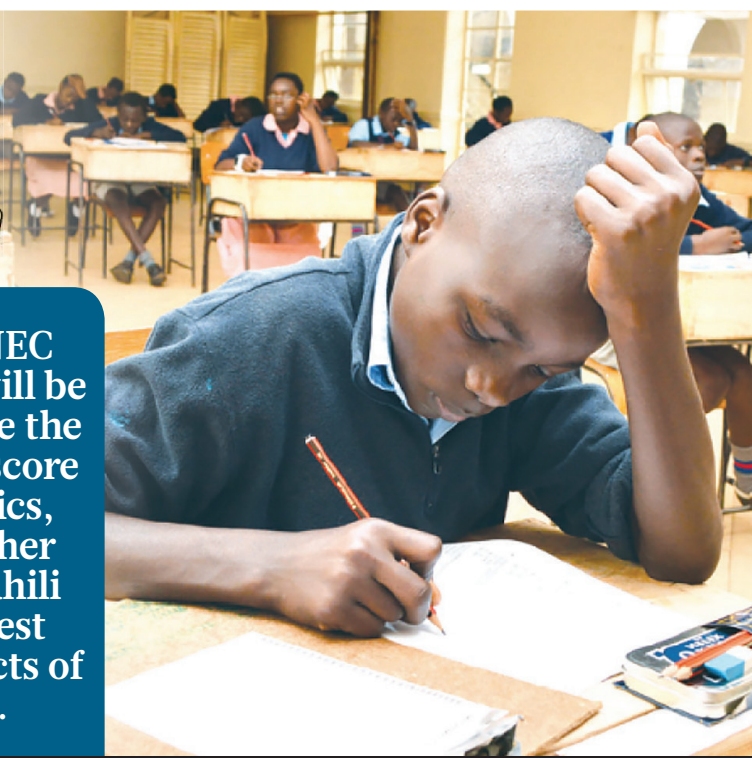

KNEC to develop a new grading structure for KCSE examination

KNEC Chief Executive Officer Mr. David Njegerere

According to KNEC boss, guidelines will be developed to grade the final candidate's score using Mathematics, one language either English or Kiswahili and five other best performing subjects of the candidate.

BY SANDRA OMONDI (MYGOV)

The Kenya National Examinational Council (KNEC) will soon come up with a new grading structure for the 8-4-4 education system which will provide form four candidates with better chances of improving their final scores.

KNEC Chief Executive Officer Mr. David Njeng'ere said the cur-

rent system does not favor some learners whose best subjects are not considered if they are not within the cluster needed for one to choose a degree.

Mr. Njeng'ere stated that the new proposal to review the Kenya Certificate of Secondary Education (KCSE) grading system is part of recommendations made by Presidential Working Party on Educa-

tion Reforms (PWPER) which have been approved by the President.

The CEO explained that currently, KNEC grades a candidate's final score based on five compulsory subjects which include Mathematics, English, Kiswahili and two sciences derived from Biology, Chemistry and Physics and two other best performing subjects from humanities or art subjects

such as Religious Education, Business Studies and other technical subjects.

In its recommendations, the reform team, according to Njegerere, proposed that guidelines should be developed to grade the final candidate's score using Mathematics, one language either English

Mr Ben Kai Chilumo

Huduma Kenya unveils digital booking system for state services

BY MUTISO MBITHI (MYGOV)

The Huduma Kenya Secretariat has launched an online system dubbed "Service By Appointment and Track My Service" which will enable

clients to book services digitally and be served on the day and time of their choice.

Huduma Kenya Secretariat CEO, Mr Ben Kai Chilumo (pictured) says the innovative Service By

Appointment (SBA) and Track My Service (TMS) conforms with the Kenya Kwanza Bottom Up Economic Transformation Agenda (BETA) which prioritizes the digitization of all government services.

Mr. Chilumo who was speaking to MyGov in an exclusive interview said, the SBA and TMS system queues up clients and allocates them time of their choice to be served at any of its 52 centers country-

wide and prompts them to do an exit survey which rates the quality of services offered to them.

Through the system, Chiluo added, clients track

CONTINUED FROM PAGE 1

or Kiswahili and five other best performing subjects of the candidate.

According to PWPER, if the changes are implemented within one year, the 2023 candidates will be the first batch to benefit from the new proposal that will see candidates attaining higher scores for their clusters.

In a bid to support the recommendation, Mr. Njegere noted that many candidates have been barred from going to their dream schools and taking

their desired courses due to the current grading system.

Speaking during the 39th Association for Educational Assessment in Africa (AEAA) conference which was presided by Prime Cabinet Secretary Musalia Mudavadi, the CEO noted that the proposal will restructure the grading system and make it responsive to the career interests that each student wants to pursue.

Mr. Njegere added that the new system will also ensure that KCSE fulfills its dual role which are to rate learners' achievement

over the four year period in secondary school and also act as a determinant as to where a student proceeds, either college or university.

"We are punishing students through the curriculum in many ways by inhibiting them from transitioning because of failure to pass in a certain subject or subjects whereas they may have performed in other subjects so well," said the CEO.

According to Njegere, these major changes might increase the chances of success for millions of 8-4-4 students.

Huduma Kenya introduces digital booking system for state services

documents and receive short text messages (sms) requesting them to go and collect the processed documents.

"Please note that exit surveys conducted after the introduction of this unique system revealed that customer satisfaction for this service is at 95 per cent," said the CEO.

The CEO further said, "our innovation spirit has also come up with a model called Business Process Outsourcing through which one Huduma Kenya Agent called BETA Agent has been trained and empowered to serve Ministries, Departments Agencies (MDAs) which are unable to deploy their staff to our Secretariat centres due to employment embargoes, staff shortages and other exigencies," said Chilumo.

The BETA Agent, Chilumo said, is a universal agent manning a desk at our centres who has been trained on various services

Clients queue for services at a Huduma centre

offered by different MDAs and he or she can offer as many services as possible which has enabled us to minimize congestion at our centres, besides cutting the cost of employment for the concerned agencies.

"The BETA Agent concept is being piloted at our centres to offer services for the Unclaimed Financial Assets Authority (UFAA) and the Boma Yangu Housing Scheme which have not yet deployed staff at our Huduma Kenya Secretariat to serve their clients," said the CEO.

Huduma Kenya, the CEO said, is also discussing with

other MDAs who don't have staff at the Secretariat to onboard their services on its portals in order to cut on salary expenses, renting or constructing offices and administrative costs.

"We have also developed a concept note to introduce the "Huduma on Wheels" and we are sourcing funding to buy a highly mechanised digitised truck which will be deployed to the remotest Arid and Semi-Arid (ASAL) parts of the country to issue crucial documents to Kenyans such as birth certificates, Identity cards and NHIF cards," said Chilumo.

KENYA PIPELINE COMPANY LIMITED

Africa's Premier Oil & Gas Company

3.0 The closing date for submission is on 7th September, 2023 at 10.00am. Application is open to all interested bidders. Late bids will be rejected.

CHIEF EXECUTIVE OFFICER

Water regulator designates critical water catchments in Kenya as protected areas

BY YOBESH ONWONG'A (MYGOV)

The Water Resources Authority (WRA) has gazetted critical water catchments and ground-water conservation areas as protected areas.

This is meant to limit human activities and encroachment which pose adverse impact on these critical water resources.

Mr. Mohamed Shurie, the WRA CEO, said the agency as the National Government Agency responsible for the regulation of the management and use of water resources in the country, is working towards ensuring that water catchments are properly protected and conserved through the requisite legislative measures.

Speaking to MyGov in Nairobi, Shurie said the Authority is carrying out a multi-pronged public awareness campaign to

raise awareness on water resources in the country with a view to changing community perception.

“WRA is promoting the concept ‘water comes from the catchment, not the tap’ to ensure people appreciate the importance of catchment areas and riparian reserves in terms of sustainable water resources availability,” said the CEO.

Shurie observed that the importance of healthy water catchment areas cannot be over-emphasized in light of the adverse impact of climate change and increasing population.

“WRA is promoting the concept that water comes from the catchment not the tap” - Shurie

“Without availability of water of adequate quality and quantity, the government’s economic development agenda, as outlined in the Bottom-Up Economic Transformative Agenda (BETA) will not be realized,” said the CEO.

Shurie disclosed that the agency is implementing various interventions among them demarcation, marking and pegging of riparian reserves for protection and conservation.

In addition, the CEO said that sensitization on the adverse impacts of planting exotic tree species, especially eucalyptus - blue gum in water catchments and riparian reserves, tree planting in the water catchments and riparian reserves will be up scaled.

“WRA is working with stakeholders for the sustainable management of water resources through the

Isaac Kuntai Kool (left), Chairperson, Water Resources Authority (WRA) flanked by John Kinyanjui, Manager in-charge of Water Resources Assessment plant a tree at Bosto, Bomet County. PHOTO: YOBESH ONWONG'A.

protection and conservation of water catchments,” said the CEO.

John Kinyanjui, the manager in-charge of Water Resources Assessment said, a healthy water catchment, capable of performing its natural function requires a proper vegetation cover or canopy that will break the force and speed of the falling rain and provide conducive environment for percolation to take place.

“A catchment is an area from which rainfall water either run-off as surface water flow to a river, lake or ocean, or into the ground-water system,” said Kinyanjui.

He said that water catchments are widely recognized as the most effective management unit for the protection of water resources, both water quality and quantity.

Following the enactment of the Water Act 2002 (repealed by Water Act 2016), Kenya adopted the Integrated Water Resources Management (IWRM) principle of river basin-based water resources management, the Manager said that this requires that rivers are managed as single unit for their full length.

KNQA KENYA NATIONAL QUALIFICATIONS AUTHORITY

Shaping the Future of Kenya

PUBLIC NOTICE

RE-ADVERTISEMENT ON CALL FOR COMMENTS AND INVITATION FOR PUBLIC PARTICIPATION ON THE DRAFT KENYA NATIONAL QUALIFICATIONS FRAMEWORK REGULATIONS, 2023 AND ITS REGULATORY IMPACT STATEMENT

The Kenya National Qualifications Authority (KNQA) is a State Corporation established under Section 6 of the Kenya National Qualifications Framework Act. No. 22 of 2014.

The Authority was established with an aim of creating a harmonized and well-coordinated national accreditation system, quality assurance, assessment and examination system to ensure that Kenyan qualifications are of high quality and meet national and global standards. The Authority is also responsible for strengthening quality assurance of the qualifications awarding system in Kenya.

In view of the above and compliance with Article 10 of the Kenyan Constitution, Kenya National Qualifications Authority invites members of the public, stakeholders and organizations to submit any comments, views or make presentations regarding the proposed KNQF draft Regulations, 2023 and its Regulatory Impact Statement thereon.

The draft Kenya National Qualifications Framework Regulations, 2023 and its Regulatory Impact Statement is available on www.knqa.go.ke

The comments, views, representation and any written memoranda may be forwarded to the acting Director General, using the provided template below not later than 11th September 2023 through info@knqa.go.ke or to the address-

PYRETHRUM PROCESSING COMPANY OF KENYA LIMITED

TENDER NOTICE

Pyrethrum Processing Company of Kenya Limited invites Sealed bids from eligible and qualified bidders for the following tender;

S/ NO	Tender reference	Tender Descriptions	Eligibility	Deadline
001	PPCK/PROC/OT/1220/2023-2024	TENDER FOR PROVISION OF INTERNET SERVICES (RE-ADVERTISEMENT)	OPEN	18/07/2023 At 11:00 a.m.
002	PPCK/PROC/OT/1225/2023-2024	TENDER FOR SUPPLY AND DELIVERY OF ASSORTED PLASTIC CONTAINERS (RE-ADVERTISEMENT)	OPEN	12/09/2023 At 11:00 a.m.
003	PPCK/PROC/OT/1209/2023-2024	TENDER FOR SUPPLY & DELIVERY OF HEXANE, METHANOL, SHELL SOLT, B.H.T(FOOD GRADE), ISOPROPYL ALCOHOL AND OTHER INDUSTRIAL SOLVENTS (RE-ADVERTISEMENT)	OPEN	12/09/2023 At 11:00 a.m.
004	PPCK/PROC/OT/1214/2023-2024	TENDER FOR SUPPLY, DELIVERY & INSTALLATION OF AEROSOL FILLING MACHINE (RE-ADVERTISEMENT)	OPEN	12/09/2023 At 11:00 a.m.
005	PPCK/PROC/OT/1227/2023-2024	TENDER FOR PROVISION OF AUCTIONEERING SERVICES	OPEN	12/09/2023 At 11:00 a.m.

Interested bidders can obtain copies of tender documents at the Procurement Office upon payment of a non-refundable fee of **Kshs.1,000.00** or download from PPCK website www.ppck.co.ke for free. Interested bidders are required to submit hard copies of their completed tender document plus all the attachments in a plain sealed envelope with the tender reference number and description clearly marked in the envelope and addressed to:

Ag. Chief Executive Officer
Pyrethrum Processing Company of Kenya Limited
P.O BOX 420 - 20100, Nakuru
Email: procurement@pyrethrum.co.ke

And be placed in the tender box located at the PPCK Main Office reception, ground floor, along General Mathenge Road, Industrial Area-Nakuru. Submitted tender documents shall be opened soon after the deadline in the PPCK Board room in the presence of tenderers or their representatives who choose to attend. Late bids shall not be accepted.

KPA's success in revamping operations at Likoni Ferry earns community salute

BY SADIK HASSAN (KNA)

Mombasa residents have hailed the Kenya Ports Authority (KPA) for streamlining operations at the Likoni Ferry Crossing channel, since the Kenya Ferry Service was amalgamated with KPA.

According to KPA Managing Director, Captain William Ruto, the 24-hour ferry service complements road transport.

"The ferry service facilitates viable transportation for an estimated 126,000,000 million pedestrians and 2,560,000 motorists annually in the Likoni channel," he said.

"The efficient provision of ferry services continues to be a crucial component in moving people and

Passengers disembark from MV Safari at the Likoni Crossing channel in Mombasa during peak hours.

commodities between the Mombasa Islands and the southern mainland, fostering social-economic growth in the agricultural, tourism, manufacturing, and service sectors," said Capt. William Ruto. The crossing channel is used by more than 300,000 passengers and 6,000 vehicles daily, leading

to heavy congestion, particularly during peak hours in the morning and evening.

The Dongo Kundu bypass under construction is poised to be a game changer, it will not only connect three main transport corridors: the Mombasa-Nairobi highway, Mombasa-Malindi Highway, and the Mombasa-

Lunga Lunga Highway, but also reduce congestion at Likoni Ferry.

Due to the indefinite closure of the Liwatoni Floating Bridge for routine service and the halt of service at Mtongwe Ferry, the Likoni channel has recorded an unprecedented surge in passengers during peak hours. However, passengers have been crossing seamlessly.

Since KPA took over, it has put in place a raft of measures to reduce congestion and seal revenue loopholes. Some of the noticeable changes introduced are an automated payment system, automatic barrier gates, and well-marked roads. During peak hours, five ferries are in operation. The management has moved routine maintenance procedures to off-peak and

ABOVE: Fuel trucks disembark from MV Harambee at the Likoni crossing channel.

Less than 3.5 tonnes weight cars, vans, and buses pay between Sh120 and Sh600 per way to cross the Waterway," divulged KPA MD.

"We are grateful to the management of KPA, it has brought tremendous improvement," said Evans Momanyi, a Mombasa resident.

even overnight, to minimize the inconvenience it might cause to ferry users.

"Monthly income collection has increased dramatically, from Sh30 million to Sh56 million after the cashless system was put in-place. Every day, about 7,000 fleets of cars cross.

MINISTRY OF WATER, SANITATION AND IRRIGATION

STATE DEPARTMENT FOR IRRIGATION

TENDER NOTICE

State Department for Irrigation which is mandated among other activities, Water harvesting and Storage, Dams, Flood control and irrigation development as outlined in the Executive Order 01/2023 invites interested and qualified bidders to tender for **Tender No. MWSI/SDI/ONT/001/2023-23024 for Drilling, Equipping of Boreholes, construction of Elevated Water Tanks and Green Houses under the Micro Irrigation for Schools Programme**

Request for Bids

Design, Supply, Installation and Commissioning of Solar Photovoltaic Generation Plants with Associated Power Distribution Network (Mini-Grids) in Mandera, Wajir, Garissa, Tana River, Lamu, Narok, Kilifi and Kwale Counties in Kenya with 7 years O&M Services

Employer :	The Kenya Power and Lighting Company PLC
Project :	Kenya Off-Grid Solar Access Project for Underserved Counties (KOSAP)
Contract title:	Design, Supply, Installation and Commissioning of Solar Photovoltaic Generation Plants with Associated Power Distribution Network (Mini-Grids) in Mandera, Wajir, Garissa, Tana River, Lamu, Narok, Kilifi and Kwale Counties in Kenya with 7 years O&M Services
Country:	Kenya
Loan No. /Credit No. / Grant No.:	IDA-61350
RFB No:	KE-KPLC-371792-CW-RFB
Issued on:	Tuesday 29th August, 2023

- The Government of the Republic of Kenya has received financing from the World Bank toward the cost of the Kenya Off-Grid Solar Access Project for Underserved Counties, and intends to apply part of the proceeds toward payments under the Contract for the Design, Supply, Installation and Commissioning of Solar Photovoltaic Generation Plants with Associated Power Distribution Network (Mini-Grids) in Mandera, Wajir, Garissa, Tana River, Lamu, Narok, Kilifi and Kwale Counties in Kenya with 7 years O&M Services. For this contract, the Borrower shall process the payments using the Direct Payment disbursement method, as defined in the World Bank's Disbursement Guidelines for Investment Project Financing, except for those payments, which the contract provides to be made through letter of credit.
- The Kenya Power and Lighting Company PLC now invites sealed bids from eligible bidders for: KE-KPLC-371792-CW-RFB: Design, Supply, Installation and Commissioning of Solar Photovoltaic Generation Plants with Associated Power Distribution Network (Mini-Grids) in Mandera, Wajir, Garissa, Tana River, Lamu, Narok, Kilifi and Kwale Counties in Kenya with 7 years O&M Services
- Bidding will be conducted through the International Competitive Procurement using a request for Bids (RFB) as specified in the World Bank's "Procurement Regulations for IPF Borrowers" dated July 2016 and revised in November 2017, August 2018, and November 2020 ("Procurement Regulations") and is open to all eligible bidders as defined in the Procurement Regulations
- Interested eligible Bidders may obtain further information, at the address below during office hours between 0900 to 1200 and 1400 to 1630 hours (East Africa time).

The Kenya Power and Lighting Company PLC
Stima Plaza, 2nd Floor, Kolobot Road
Tel: +254 711031761, E-mail: JOgechi@kplc.co.ke
Copy: SMucheke@kplc.co.ke and Aomar@kplc.co.ke

- The complete set of bidding document in English shall be downloaded without any fee by interested bidders at www.kplc.co.ke
- Bids must be delivered to the address below (As detailed in item number 9), and be clearly marked "Tender for KE-KPLC-371792-CW-RFB: Design, Supply, Installation and Commissioning of Solar Photovoltaic Generation Plants with Associated Power Distribution Network (Mini-Grids) in Mandera, Wajir, Garissa, Tana River, Lamu, Narok, Kilifi and Kwale Counties in Kenya with 7 years O&M Services on or before **17th October, 2023 at 10.00 a.m.** Electronic bidding will not be permitted late bids will be rejected.

Bids will be publicly opened in the presence of the Bidders' designated representatives and anyone who chooses to attend at the address below:

Street Address: KPLC Offices, Stima Plaza, Kolobot Road, Parklands
Floor/Room number: Ground Floor - Auditorium
City: Nairobi
Country: Kenya
Date: 17th October, 2023
Time: 10.30 a.m.

- All bids **MUST** be accompanied by a bid security in the form of a Bank Guarantee Only for the amount specified below:

Lot No	Bid Security Amount in KES or equivalent in a freely convertible currency
KE-KPLC-371792-CW-RFB LOT 1	20,000,000

Kenya aims to double avocado export earnings with Israeli partnership

BY ERASTUS GICHOHI (KNA)

The government's plan to double its avocado export earnings in the next five years have received a major boost after an Israeli firm established a 1,000-acre (400ha) plantation in Naivasha to grow avocado fruits for the export market.

The vast plantation by Granot International under the Evergreen project, targets to plant 300,000 avocado trees in the Ndabibi area of Naivasha where they will create a value-addition chain for the growing global export market.

The farm established through an initial in-

vestment of over one billion shillings will position Kenya on the world map in avocado production, and boost the country's export inflows while creating over 1,000 jobs for locals.

The move comes following a tour to Israel by the Agriculture Ministry officials for benchmarking early this year on best farming practices and the use of cutting-edge technology geared towards enhancing local avocado production for export.

Granot International which produces a third of Israel's total avocado yield brings along its 70 years of expertise and modern technology in farming avocado fruit at a time the country is seeking to double its earnings from the current Sh15 billion to Sh.30 billion annually in the next five years.

According to the farm CEO Giyora Merom, they have invested millions of dollars to harness local capacity while benefiting from the country's lower cost of production as compared with other growing regions of the world such as Chile, Peru, and Spain.

"The cost of production in Kenya is low as compared to other countries who have mostly been affected by

growing threats climate change and the high global fuel prices", said Merom.

Merom said the farm with suitable agricultural conditions has employed the latest technology in farming and the over 300,000 seedlings are expected to boost yield for the fruit demand in the global market.

The CEO called on the government to facilitate access road networks in the region which are mostly affected during the rainy season.

On his part, Israel's Ambassador to Kenya Michael Lotem said the partnership with the Nakuru County government has facilitated the million-dollar investment which is expected to turn around the fortunes of the local community and other sector players. "This initiative has created 1,000 jobs for locals and will employ 3,000 more others in the coming years when the farm is expected to hit optimal operations", said the ambassador.

The Nakuru CEC for Agriculture Leonard Bor said the County will continue to seek more partnerships and investors to establish farming in the county which is well known for its arable land.

MINISTRY OF INTERIOR AND NATIONAL ADMINISTRATION

STATE DEPARTMENT FOR INTERNAL SECURITY & NATIONAL ADMINISTRATION

CALL FOR PUBLIC COMMENTS

ON THE COMPUTER MISUSE AND CYBERCRIMES (CRITICAL INFORMATION INFRASTRUCTURE AND CYBERCRIME MANAGEMENT) DRAFT REGULATIONS, 2023 AND REGULATORY IMPACT STATEMENT

This is to bring to the attention of all stakeholders and the general public that the Cabinet Secretary for Interior and National Administration pursuant to section 70 of the Computer Misuse and Cybercrimes Act, 2018 and Statutory Instruments Act, 2013 has developed:

- Draft Computer Misuse and Cybercrimes (Critical Information Infrastructure and Cybercrime Management) Regulations, 2023; and
- Draft Regulatory Impact Statement.

The objectives of the draft regulations include to:

- provide a framework to monitor, detect and respond to cybersecurity threats in the cyberspace belonging to Kenya;
- provide a framework for establishment and management of Cybersecurity Operations Centres;
- provide for protection, preservation and management of Critical Information Infrastructure;
- provide for audit and inspection of National Critical Information Infrastructure;
- provide for recovery plans in the event of a disaster, breach or loss of national critical information infrastructure or any part of it;
- provide a framework for capacity building on prevention, detection and mitigation of computer and cybercrimes and matters connected thereto;
- promote coordination, collaboration, cooperation and shared responsibility amongst stakeholders in the cybersecurity sector including critical infrastructure protection; and
- provide for mechanisms for cybercrime management among others.

In line with the constitutional imperative of ensuring wide consultations and public participation, the Ministry invites institutions, organizations and individuals to submit their comments on the following: the Computer Misuse and Cybercrimes (**Critical Information Infrastructure and Cybercrime Management**) (Draft) Regulations, 2023 and Regulatory Impact Statement.

Comments and submissions can be hand delivered or sent via registered courier/post to the Ministry Of Interior and National Administration physical/postal address within working hours, or sent to the email address (regulations@nc4.go.ke).

The call for submissions will run from **29th August - 22nd September 2023**.

The Draft Regulations, Comment Matrix and the Draft Regulatory Impact Statement can be downloaded from the NC4 Website: <https://nc4.go.ke/cmca-2018-draft-regulations/>

Physical public engagement meetings will be conducted in 8 regions across the country and all stakeholders and members of the public are encouraged to attend as per the schedule tabulated below.

Region (Clustered Counties)	Venue	Date	Time
Nyanza (Siaya, Kisumu, Homabay, Migori, Kisii & Nyamira)	Kisumu City Hall	12.09.23	8:30 am -12:30 pm

STATE DEPARTMENT FOR LABOUR AND SKILLS DEVELOPMENT

ADDENDUM NO. 1

INDIVIDUAL CONSULTANTS' SELECTION

Reference is made to the State Department's advertisement notice published on Tuesday 22nd August 2023 in the **My Gov** insert of the Star newspaper inviting sealed bids from eligible bidders for the following consultancy services:

S/NO	Reference Number	Reference Name	Eligibility
1.	ML&SP/SDL/NHRPD/002/2023-2024	Consultancy Services for an Individual Consultant to Develop a Web-based KeSCO Interactive System	Individual Consultant

The advertisement notice indicated that the Technical Proposals would be publicly opened on Thursday 24th August, 2023 at 11:00 a.m. at the conference room located at NSSF Building, Block B, 15th Floor in the presence of interested bidders who may choose to attend.

The State Department wishes to clarify that the closing and opening date is scheduled for **Monday 4th September 2023 at 11:00 a.m. East African Time AND NOT** on Thursday 24th August 2023 at 11:00a.m. as previously advertised. All other details remain the same.

Head/ Supply Chain Management Services
FOR: PRINCIPAL SECRETARY

**MINISTRY OF TRANSPORT, INFRASTRUCTURE,
HOUSING, URBAN DEVELOPMENT AND PUBLIC
WORKS**
STATE DEPARTMENT OF ROADS

PUBLIC NOTICE

**CALL FOR COMMENTS FOR THE DEVELOPMENT OF
THE NATIONAL ELECTRIC MOBILITY POLICY**

The Cabinet Secretary, Ministry of Roads and Transport on 4th August 2023, through Gazette Notice Number 10132 of 2023 established the Taskforce on the Development of National Electric Mobility Policy, Strategy, Legislations and Regulations (the e-Mobility Taskforce).

Increasing levels of pollutant emissions are of global concern. Promotion of e-mobility is one of the strategies being adopted worldwide to combat Green House Gas (GHG) emissions and resultant climate change. At present, Kenya's Transport Sector is heavily reliant on fossil fuel and following the Paris Climate Agreement of 2015, Kenya made a commitment to reduce emissions by 32% by 2030. This target can be achieved if Kenya transitions to zero emission vehicles (electric vehicles, motor cycles, and vessels) in Kenya.

The overall objective of the e-Mobility Taskforce is to develop a National Electric Mobility Policy (the e-Mobility Policy) covering all modes of transport (road, air, rail, and maritime) to create an enabling environment for the development, growth and adoption of electric vehicles in Kenya. The following are the key objectives of the e-Mobility Policy to:

- Steer Kenya's economy to a desired low carbon climate resilient development pathway and guide the development of e-Mobility in the country;
- Provide strategic direction in order to create an enabling environment that will enhance uptake of electric vehicles and related e-Mobility infrastructure in the country;
- Provide policy guidance to the county governments on how to promote e-Mobility in their devolved functions;
- Recommend transitional measures for the adoption of electric vehicles;
- Recommend fiscal and non-fiscal incentives for the e-Mobility sector including importation, local manufacture, assembly and e-mobility infrastructure;
- Provide a framework for the end of life and disposal of electric vehicles and accessories in line with Sustainable Waste Management Act, 2022;
- Provide a framework for the development of carbon credits emanating from the e-mobility sector;
- Provide a framework for initiation, development and implementation of standards and best practice in respect of the e-mobility value chain; and
- Provide a framework for monitoring the impact of this policy implementation economically and environmentally.

Guided by Article 10 of the Constitution of Kenya that enshrines public participation as a national value, including in the development and formulation of national policies, the e-Mobility Taskforce hereby invites stakeholders, members of the public and all interested parties to provide:

i) suggestion(s)/issues to be addressed; ii) views and inputs; and iii) recommendation with justification on the policy that the e-Mobility Taskforce should take into consideration when developing the e-Mobility Policy.

Written submissions should be clearly marked "Submission of Memoranda for the Development of the National e-Mobility Policy" and submitted no later than **29th September 2023** through the email address emobilitytaskforce@transport.go.ke or hand-delivered to the following address:

CAREER OPPORTUNITIES

Kasneb is a state corporation under the National Treasury and Economic Planning and established under Section 14 of the Accountants Act, No. 15 of 2008 which repealed and replaced the Accountants Act, Cap 531 of 1977. The establishment and operations of kasneb are also recognized under the Certified Public Secretaries of Kenya Act, Cap 534 of 1988 and the Investment and Financial Analysts Act, No. 13 of 2015.

The mandate of kasneb is to develop syllabuses and conduct vocational, certificate, diploma, professional and post-professional examinations. It also offers certification to candidates in accountancy, finance, credit, governance and management, information technology and related disciplines. The mandate includes promotion of its qualifications nationally and internationally as well as the accreditation of relevant training institutions in liaison with the Ministry in charge of Education.

In furtherance of the above mandate, the Board of kasneb hereby invites applications from suitably qualified serving Officers to fill the following vacant positions

S.NO	DESIGNATION	GRADE KASNEB	DIRECTORATE	NO. OF POSTS	JOB REF. NO.
1.	Senior Security Assistant	7	Corporate Services	1	HRM/CS/2/2023
2.	Senior Driver	8	Corporate Services	1	HRM/CS/3/2023

Please note:

- Only shortlisted and successful candidates will be contacted.
- Canvassing in any form will lead to automatic disqualification.
- Shortlisted candidates shall be required to produce originals of their National Identity Card, academic and professional certificates during the interviews.
- The Job descriptions and specifications are available on the kasneb website (www.kasneb.or.ke).
- Successful candidates (that is, those who have been appointed to the advertised positions) will be required to provide the following documents before the award of offer in compliance to Chapter 6 of the Constitution of Kenya, 2010:

- Valid Certificate of Good Conduct from the Directorate of Criminal Investigations (DCI).
- Clearance from the Ethics and Anti-Corruption Commission (EACC).
- Tax Compliance Certificate from Kenya Revenue Authority (KRA).
- Clearance Certificate from the Higher Education Loans Board (HELB).
- Clearance Certificate from an approved Credit Reference Bureau (CRB).

Application Procedure

Please submit your application through the link <https://forms.gle/j2WtiDwRMMbWRVJ99> and attach your application letter, curriculum vitae, certified copies of transcripts, academic and professional certificates, national identity card, testimonials, names and addresses of three referees by **Wednesday, 13th September 2023**, the application letter should indicate the **"JOB TITLE AND REFERENCE NUMBER"** of the position applied for. Please note that all candidates will be expected to fill in the online application form. Physical applications will not be considered.

Secretary/Chief Executive Officer

Kasneb is an equal opportunity employer. Persons with disabilities are encouraged to apply and are required to submit a copy of a valid NCPWD Membership Card.

CAREER OPPORTUNITIES

The KASNEB Foundation is registered under the Trustee Perpetual Act Cap. 164 Laws of Kenya. The Foundation was launched on 24 July 2020 to implement the Kenya Accountants and Secretaries National Examinations Board's (kasneb) Corporate Social Investment (CSI) programs and as a sign of kasneb's commitment to providing financial assistance in the form of bursaries and loans to needy students who wish to pursue the kasneb qualifications.

The aim of the Foundation is to target eligible applicants in the entire country as a way of giving back to the society. The Foundation will also serve as one of the vessels that will drive kasneb's commitment to enabling the achievement of the National Development Agenda, Agenda 2063 of the African Union on Inclusive growth and sustainable development for African States and the Sustainable Development Goals (SDGs): Number 4 and 17 on providing access to quality education and Collaboration and Partnerships for the successful implementation of the SDGs respectively.

The Foundation will enhance the image of kasneb as a responsible corporate citizen and further publicise the qualifications offered by kasneb across the country.

In furtherance of the above mandate, the Board of kasneb hereby invites applications from suitably qualified persons to fill the following vacant positions:

S/NO	DESIGNATION	GRADE KASNEB	FOUNDATION	NO. OF POSTS	JOB REF. NO.
1.	Head, KASNEB Foundation	4	KASNEB Foundation	1	HRM/KF/HFK/8/2023
2.	Senior Accountant	5	KASNEB Foundation	1	HRM/KF/SA/8/2023

Please note:

- Only shortlisted and successful candidates will be contacted.
- Canvassing in any form will lead to automatic disqualification.
- Shortlisted candidates shall be required to produce originals of their National Identity Card, academic and professional certificates during the interviews.
- The Job descriptions and specifications are available on the kasneb website (www.kasneb.or.ke).
- Successful candidates (that is, those who have been appointed to the advertised positions) will be required to provide the following documents before the award of offer in compliance to Chapter 6 of the Constitution of Kenya, 2010:

MoH to undertake polio vaccination campaign in ten high risk counties

BY JOSEPH NG'ANG'A (KNA)

The Ministry of Health will launch a polio vaccination campaign in ten counties with the highest risk of polio transmission in the country.

Public Health and Professional Standards Principal Secretary Ms. Mary Muthoni Muriuki said, the move comes after six poliovirus cases were detected among

children in the Hagadera Refugee Camp in Garissa County.

Ms. Muriuki who was speaking during the national stakeholder meeting for the emergency polio vaccination campaign said through diligent routine surveillance activities, healthcare workers identified these cases by analysing stool samples taken from the affected children and sub-

sequently sent them to the Kenya Medical Research Institute (KEMRI).

"The samples tested positive for the presence of poliovirus. Further examinations conducted in Atlanta, USA, confirmed the virus's similarity to the strain responsible for an outbreak in a neighbouring country," Ms. Muriuki said.

The PS said, in response to these new challenges,

the Ministry of Health has taken swift action and identified ten counties with the highest risk of polio transmission namely Nairobi, Kiambu, Kajiado, Garissa, Kitui, Machakos, Tana River, Lamu, Wajir, and Mandera as the focal points of the emergency polio vaccination campaign.

"The three round campaign which aims to reach 7.4 million children under

Public Health and Professional Standards Principal Secretary (PS) Ms. Mary Muthoni Muriuki speaking in Nairobi during the national stakeholder meeting for the emergency polio vaccination campaign.
PHOTO: JOSEPH NG'ANG'A/KNA.

five in three rounds will be launched at Ruiru Level 4

Hospital, Kiambu County," she said.

Ms. Muriuki added that the first round of the campaign was scheduled from August 24th to end on August 28th 2023, with initial focus on Kiambu, Nairobi, Kajiado, and Garissa counties, "where we aim to vaccinate approximately 1.8 million children."

"Subsequently, the second and third rounds will target 2.8 million children each. They will be conducted between September and October 2023 in 10 counties.

KIMAWASCO

KILIFI MARIAKANI WATER AND SEWERAGE COMPANY LIMITED

Call: 0727-110 711 / 0737-442 525

GENERAL MANAGER, SUPPLY CHAIN.

EAC Ministry, KVDA to plant trees in ASALs

BY EKWAM SILVESTER
(KNA)

The Ministry of East Africa Community (EAC), the ASALs and Regional Development and the Kerio Valley Development Authority, have joined hands to grow trees across various parts of the 23 arid and semi-arid lands (ASALS) counties, in order to support the presiden-

tial tree growing initiative which seeks to plant 15 billion trees by 2032.

Speaking when she presided over tree planting campaign at Oasis Primary School, Race Course Ward, Kesses Sub-County in Uasin Gishu, the EAC Cabinet Secretary Rebecca Miano pointed out that environmental conservation is key and that people

must protect and conserve the environment to ensure a peaceful and conducive place to live as well as mitigate effects of climate change. Miano noted that through the KVDA Environmental Conservation Department, the ministry has a tree planting initiative which targets to plant six million trees from July 2023 to 30th June 2024.

NOTICE TO THE PUBLIC TO SUBMIT COMMENTS ON AN ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CONSTRUCTION OF UMAA DAM, ACROSS NZEEU RIVER, PART OF KABONGE VILLAGE, NORTHEAST OF KITUI TOWN, KITUI COUNTY

Pursuant to Regulation 21 of the Environmental Management and Coordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent, **National Water Harvesting & Storage Authority**, proposes to construct a zoned earth fill embankment dam of 30 m height and 182m crest length. The dam will incorporate a horizontal drainage blanket and inclined chimney drain. The spillway has capacity of 159m³/s which represents the probable maximum flood flow. The River diversion capacity is 24.64m³/s based on 5 years ARI with conduits to locate flows, treatment works and reticulation system with a capacity 3975m³/day. The daily release capacity of the reservoir is 2650m³/s. the project will be located across Nzeeu River, Part of Kabonge Village, Northeast of Kitui Town, Kitui County.

The following are the anticipated impacts and proposed mitigation measures:

Impacts	Mitigation measures
Loss of Aquatic organisms	<ul style="list-style-type: none"> Ensure recommended water quality standards in the tail water are adhered to as per the provisions of NEMA Water Quality Regulations. Ensure no observable aquatic organism is destroyed during construction. Key stakeholders to enhance public awareness and participation in conservation activities. Enforcement of Wildlife Act 2013 and EMCW (Wetlands, Riverbanks, Lake Shores, and Sea Shores Management) Regulations, 2009.
Loss of vegetation	<ul style="list-style-type: none"> Introduce vegetation strips to unproductive land to compensate for what will be cleared. Identify endangered species of trees to be planted in other places where they will not be affected. Consider re-vegetation around the upstream points and along the rivers. Plant more trees in the dam reserve areas to increase vegetation. Encourage local people in catchment areas to plant more vegetation. Reinstate the site after construction and rehabilitation activities.
Water pollution	<ul style="list-style-type: none"> The contractor to prepare an Integrated Waste Management plan during construction and operation period of the schemes, Ensure all repairs and maintenance works are done at the contractors' yard to avoid spillages, Compact loose material/soil and Ensure recommended water quality standards in the tail water are adhered to as per the provisions of NEMA Water Quality Regulations. Prevention of non-point source of pollution to the water for irrigation. Regular water sampling of boreholes and water downstream to detect water pollution that will be handled immediately.
Excessive Noise and Vibrations	<ul style="list-style-type: none"> Workers using drilling equipment to be provided with specialized anti-vibrating gloves, Switching off vehicles and machines when not in use, Machines and equipment to be fitted with silencer in the site for construction should be hoarded off An improvised rock breaking system should be adopted by use of Ammonium Nitrate Avoiding unnecessary hooting, Workers to be provided with Personal Protection Equipment, Machines to be serviced to reduce generation of noise and vibrations, Warnings to be issued to the locals in case of any unusual noise, the noisy activities should be restricted to day time, Ensure that Noise and Vibration Standards are observed.
Dust emission	<ul style="list-style-type: none"> The access roads to be watered during the construction period, Plant more vegetation for Carbon sequestration, Limit the speed on dusty roads, Workers to use masks when working in dusty conditions
Water borne Diseases	<ul style="list-style-type: none"> Public awareness and campaigns on hygiene behaviour change, Promotion of household water treatment methods Provision of safe water for domestic use to the local people Provision of alternative water sources to those who use water from wells being affected by the project Building of hospitals in the project area and equipping them to treat the illnesses when they occur
Changes in Hydraulics of the river	<ul style="list-style-type: none"> Provision of water harvesting and storage facilities during wet seasons to supplement abstract water. Plant more water-loving trees in the project area to increase flows in the river Diverting the river to ensure continued flow downstream during construction.
Exhaust fumes	<ul style="list-style-type: none"> Construction vehicles to have catalytic devices to ensure complete burning of waste gases, Use of clean petroleum that is low in Sulphur, lead or other pollutants, Proper servicing of vehicles and Construction machines according to manufacturer's specifications Plant more vegetation for carbon sequestration

Impacts	Mitigation measures
Soil erosion	<ul style="list-style-type: none"> Planting of trees in the project catchment areas to minimize soil erosion Where there is intense soil erosion, gabions should be built as a measure to reduce soil erosion There should be intensive re-vegetation on bare grounds after construction. Compaction of loose soils after excavation and reuse of materials for refill. The canal design to adopt sub critical flow velocity to avoid erosion.
Siltation, eutrophication and sedimentation	<ul style="list-style-type: none"> Re-using of excavated materials as fill or for other works, Compacting of loose soil and planting of grass to hold the soil
Occurrence of invasive species	<ul style="list-style-type: none"> Use of seeds coated with pesticides. Practice crop rotation, inter cropping and Strip cropping. Before planning any new plant or crops in the area, it should be approved by relevant institutions Equipment required for the construction works should be clean and free from any alien plants and mud which may contain seeds of alien species. Raw materials to be used for construction such as sand and rocks should be sourced in areas where there are no alien/invasive species
Occupational Health and Safety (OHS)	<ul style="list-style-type: none"> Ensure safety of the construction workers by putting first aid area and injury reporting mechanism The contractor to have his workable health and safety rules to apply always at work places Securing of sites to prevent any accident at sites Ensure safety of residents by providing safety signs at strategic places around the access roads. Ensure compliance of Occupational Safety and Health Act Cap. 514 and its Subsidiary Legislations. Provide adequate crossings where canals will pass Provide personal protective equipment to workers. There should be adequate provision of the requisite sanitation facilities for human waste proposal The workers should receive the requisite training especially on the operation of the machinery and equipment. Preparation of a working dam safety plan Develop a site safety action plan detailing safety equipment to be used, emergency procedures, restriction on site, frequency and personnel responsible for safety inspections
Waste water and effluents	<ul style="list-style-type: none"> The grey water runoff from the working areas should be contained and properly treated before being released to the river Where possible wastewater need to be treated to meet the effluent standards before releasing it the receiving water. Water containing pollutants such as cement, concrete, lime, chemicals and fuels should be discharged into a conservancy tank for removal from the site. Potential pollutants should be stored, kept and used in such a manner that any escape can be contained to avoid degrading the water table. Any pollution incidents on site should be resolved speedily. The construction should have sanitation facilities that will not pollute water.
Increase in waste	<ul style="list-style-type: none"> Promote the reuse, recycling and reduction of wastes generated, Provision of adequate litter collection facilities, Approvals of waste disposal sites by NEMA in accordance with the Waste Management Regulations, The chemical and hazardous wastes should not be burnt or dumped in open pit Debris should be utilized in filling up of quarries within the project area

The full report of the proposed project is available for inspection during working hours at:

- Principal Secretary, Ministry of Environment and Forestry, NHIF Building, 12th Floor, Ragati Road, Upper Hill, P.O.BOX: 30126-00100, NAIROBI**
- Director General, NEMA Popo Road, off Mombasa Road, P.O. BOX 67839-00200, NAIROBI**
- County Director of Environment, KITUI COUNTY.**

A copy of the EIA report can be downloaded at www.nema.go.ke

NEMA invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director General, NEMA to assist the Authority in the decision making process for this project. Kindly quote ref. No. **NEMA/EIA/5/2/2119**.

Comments can also be e-mailed to dgnema@nema.go.ke

TENDER NOTICE - REGISTRATION OF SUPPLIERS/CONTRACTORS/SERVICE PROVIDERS

- Kenya Meat Commission invites eligible candidates to apply for registration of suppliers/contractors/ service providers for a period of 2023/2024 and 2024/2025.
- Prospective candidates may view and download tender document from Kenya Meat Commission website: www.kenyameat.co.ke and Public Procurement Information Portal: <https://tenders.go.ke> free of charges
- Successful bidders must meet all preliminary / mandatory requirements as stipulated in the bid document and attach copies of relevant documents
- The categories for registration are as indicated below:

CATEGORY A: RESERVED FOR AGPO	
KMC/AGPO/001/2023-2025	Supply of livestock.
KMC/AGPO/002/2023-2025	Supply of Minerals, feeds and assorted livestock drugs
KMC/AGPO/003/2023-2025	Small Works (Must have Relevant NCA & Practicing license)
KMC/AGPO/004/2023-2025	Supply of personal protective equipment (PPE)-dust coats, overalls & gumboots.
KMC/AGPO/005/2023-2025	Supply of Boning,skinning and butchers knives,steel files and sharpening stones
KMC/AGPO/006/2023-2025	Supply of labels.
KMC/AGPO/007/2023-2025	Supply metal barrels
KMC/AGPO/008/2023-2025	Supply of cleaning & sanitation items
KMC/AGPO/009/2023-2025	Supply of tonners and cartridges
KMC/AGPO/010/2023-2025	Supply of ICT Equipment, Computers and Accessories
KMC/AGPO/011/2023-2025	Supply of general stationary
KMC/AGPO/012/2023-2025	Provision of Print media, Digital Advertising and Marketing services
KMC/AGPO/013/2023-2025	Supply of general hardware materials
KMC/AGPO/014/2023-2025	Supply of facial masks, food grade gloves and disposable hairnets
KMC/AGPO/015/2023-2025	Supply of cold room personal protective equipment's: flying suit, rain coats, umbrellas cold-room jackets, and sweaters, socks and generics, stainless steel metal wire & butcher gloves and water proof Aprons
KMC/AGPO/016/2023-2025	Supply of wooden pallets
KMC/AGPO/017/2023-2025	Supply of photocopying papers/ computer papers

CATEGORY B: OPEN	
KMC/SR/001/2023-2025	Supply of livestock.
KMC/SR/002/2023-2024	Supply of Agricultural works for establishment of pastures field,seeds and fertilizer
KMC/SR/003/2023-2025	Provision of Insurance services.
KMC/SR/004/2023-2025	Supply of proposed rehabilitation works for existing canning line, supply of canning machines
KMC/SR/005/2023-2025	Supply of proposed rehabilitation works for existing killing floor.
KMC/SR/006/2023-2025	Supply of proposed works for borehole drilling, equipping and service.
KMC/SR/007/2023-2025	Supply of stockinette/Mutton cloth
KMC/SR/008/2023-2025	Supply of proposed works for water recycling plant.
KMC/SR/009/2023-2025	Supply of proposed works of energy renewable projects
KMC/SR/010/2023-2025	Supply of proposed works for rehabilitation of fire detection and suppression system
KMC/SR/011/2023-2025	Supply of maize flour & soya ingredients (isolate & textured soya)
KMC/SR/012/2023-2025	Supply of sausage spices & casing
KMC/SR/013/2023-2025	Supply of salt and sodium nitrate
KMC/SR/014/2023-2025	Supply of vegetable fats
KMC/SR/015/2023-2025	Supply of primary packaging for meat and meat products (Laminated polythene)
KMC/SR/016/2023-2025	Supply of KMC branded non-woven carrier bags and branded sacks

KMC/SR/017/2023-2025	Supply of waxed cartons for frozen beef/family pack/value pack, corned beef cartons,
KMC/SR/018/2023-2025	Supply of poly racks trappings / cotton twine, stitching strings.
KMC/SR/019/2023-2025	Supply of burger trays PP 1080, PP 1006, PP 1028
KMC/SR/020/2023-2025	Supply of Odina oil.
KMC/SR/021/2023-2025	Supply of assorted plastic materials
KMC/SR/022/2023-2025	Supply furnace oil
KMC/SR/023/2023-2025	Supply of labeling glue.
KMC/SR/024/2023-2025	Supply of microbial analysis chemicals and reagents
KMC/SR/025/2023-2025	Supply of ISO standard training, audits and certification service
KMC/SR/026/2023-2025	Supply of equipment's and calibration services
KMC/SR/027/2023-2025	Supply of open-air burners repair and service maintenance
KMC/SR/028/2023-2025	Supply of proposed works for installation of incinerator.
KMC/SR/029/2023-2025	Supply of boiler, maintenance spare and parts
KMC/SR/030/2023-2025	Supply of electrical materials
KMC/SR/031/2023-2025	Supply of reverse osmosis water treatment chemicals,parts and service
KMC/SR/032/2023-2025	Supply of refrigeration spares parts and, services
KMC/SR/033/2023-2025	Supply of ammonia gas/refrigerant gases/LPG gas
KMC/SR/034/2023-2025	Supply of Air, Sabroe, Mycom, Gea, compressors, spare parts and services
KMC/SR/035/2023-2025	Supply of oil and lubricants
KMC/SR/036/2023-2025	Supply of machining and fabrication of parts
KMC/SR/037/2023-2025	Supply of general machine repair service
KMC/SR/038/2023-2025	Supply of fresh water (bowser)
KMC/SR/039/2023-2025	Supply of seals and bearings
KMC/SR/040/2023-2025	Supply of communication services (airtime)
KMC/SR/041/2023-2025	Supply of internet services
KMC/SR/042/2023-2025	Supply of ICT infrastructure upgrade and maintenance
KMC/SR/043/2023-2025	Supply of antivirus software
KMC/SR/044/2023-2025	Supply of application software subscriptions and licenses
KMC/SR/043/2023-2025	Supply of office furniture and fittings
KMC/SR/044/2023-2025	Supply of data recovery backup
KMC/SR/045/2023-2025	Provision of catering services and conference facility
KMC/SR/046/2023-2025	Provision of travel agency and Air ticketing
KMC/SR/047/2023-2025	Production of corporate documentary services/media launches and organizational publicity.
KMC/SR/048/2023-2025	Provision of signage & branding services
KMC/SR/049/2023-2025	Supply of tree seedlings
KMC/SR/050/2023-2025	Supply of team building workshops and services
KMC/SR/051/2023-2025	Supply of vehicle fleet fuel services
KMC/SR/052/2023-2025	Supply of garage workshop and service

KMC/SR/053/2023-2025	Supply of motor vehicle parts and spares
KMC/SR/054/2023-2025	Supply of motor vehicle tyres
KMC/SR/055/2023-2025	Supply of rectangular metal cans 300grams
KMC/SR/056/2023-2025	Supply of clearing and forwarding services
KMC/SR/057/2023-2025	Supply of generators spares, parts and service
KMC/SR/058/2023-2025	Supply of pumps for ammonia,water and spare parts
KMC/SR/059/2023-2025	Supply of date coder machine ink and accessories
KMC/SR/060/2023-2025	Supply of spare parts and service of the following machines-injector, meat mincer, blender, emulsifier, filler, smoker, drencher, slicer and dicer and deboning machine.
KMC/SR/061/2023-2025	Supply of plumbing materials
KMC/SR/062/2023-2025	Supply of steam materials,service and parts
KMC/SR/063/2023-2025	Supply of folk lifts parts and spares
KMC/SR/064/2023-2025	Provision of consultancy services (architect quantity surveyor, civil/structural, mechanical and electrical engineers)
KMC/SR/065/2023-2025	Contractors for building, roads, mechanical and electrical contractors
KMC/SR/066/2023-2025	Supply of pharmaceutical products
KMC/SR/067/2023-2025	Supply of medical equipment.
KMC/SR/068/2023-2025	Provision of legal services
KMC/SR/069/2023-2025	Provision of cleaning & garbage collection services
KMC/SR/070/2023-2025	Supply of printed accountable tamper proof documents
KMC/SR/071/2023-2025	Supply of vacuum packaging machines for meat and meat products
KMC/SR/072/2023-2025	Supply of public health chemicals and Equipment
KMC/SR/073/2023-2025	Supply of production laboratory testing services
KMC/SR/074/2023-2025	Supply of environmental audit service
KMC/SR/075/ 2023-2025	Supply of effluent water,stack emission, ambient air quality, and noise level analysis services

1.5. Registration under the preference and reservation Scheme (**CATEGORY A**) shall be continuous. Candidates shall be required to present valid original and copies of the following: Certificate of registration/incorporation, Tax compliance certificate, AGPO certificate, CR12 and/or identification documents for directors, in addition Registration under **SMALL WORKS** must have relevant NCA certificate and practicing license. The documents should be accompanied with a letter indicating specific categories that they request in. Previously registered candidates are required to resubmit their documents for inclusion in the new register.

1.6. Candidates under the open (**CATEGORY B**) shall fill and submit complete set of bid document(S) with relevant attachments. The same shall be enclosed in a plain sealed envelope (**Original and one copy only**) clearly indicating the tender name, number and category, addressed to:

**THE MANAGING COMMISSIONER,
KENYA MEAT COMMISSION,
P. O. BOX 2 – 00204,
ATHI RIVER.**

AND MUST be deposited in the tender box located at the Commissions' Headquarters, Corporate Communication Office Athi River to reach us on or before **Friday September 15 2023 at 11:00am.**

1.7. The names of successful candidates shall be posted in the Commissions website www.kenyameat.co.ke and Public Procurement Information Portal: <https://tenders.go.ke>. Candidates who miss out on registration shall be required to reapply in the next financial year.

**J N GITHAGA
BRIGADIER
MANAGING COMMISSIONER
KENYA MEAT COMMISSION**

The Nuclear Power and Energy Agency is a State Corporation established under the Energy Act 2019. It is charged with the responsibility of promoting and implementing Kenya's Nuclear Power Programme, carrying out research and development for the energy sector.

Towards attainment of its mandate, the Nuclear Power and Energy Agency shall develop policies and legislation, undertake public education and awareness, identify suitable sites for the construction of Nuclear Power Plants; carry out research, development and innovation on energy technologies as well as capacity building for the energy sector.

To support this primary mandate, the Agency is seeking to recruit an open-minded, self-driven, results-oriented individual of high integrity to fill the following position.

CHIEF EXECUTIVE OFFICER - REF. NO. NuPEA/REC/01/08/2023

The position is responsible for general leadership and strategic direction of the Agency in the implementation of its mandate that includes; promoting and implementing Kenya's Nuclear Power Programme, carrying out research and development, and capacity building in the energy and petroleum sectors, in compliance with the Energy Act No.1 of 2019 in order to realize and attain goals in line with the Agency's mission and vision.

Key Responsibilities

- Providing strategic leadership in the development, promotion, execution/ implementation of Kenya's nuclear power programme;
- Providing overall leadership in the coordination of strategic research and development, knowledge management and capacity building programmes in the energy and petroleum sectors to enhance uptake of new technologies and innovations for safe, efficient and sustainable energy solutions;
- Overseeing stakeholder engagements, creation of awareness and dissemination of information to ensure support for the nuclear power programme and the research and development in the energy sector;
- Overseeing the formulation, implementation and review of corporate strategy, and alignment of the mandate, resources and vision of the Agency while coordinating corporate performance management, risk management and quality assurance;
- Overseeing the development of legislation, regulations and policies required for Kenya's Nuclear Power Programme;
- Providing overall leadership in the management of financial resources and human capacity development within the Agency.

Key Qualifications

Applicants must possess the following minimum qualifications: -

- Hold a degree from a university recognized in Kenya or its equivalent in the fields of Engineering, Nuclear Science, Law, Finance, Economics or Energy and related fields;
- Masters degree in relevant field as above;
- Has 15 year experience of service, 7 years must be in a Senior Position;
- At least 3 years' experience in Nuclear Energy or relevant field;
- Is a member in good standing of the relevant professional association;
- Meets the requirements of leadership and integrity set out in Chapter Six of the Constitution; and
- Demonstrate Knowledge of Corporate Governance/ Leadership/ Strategic Management.

Terms of Service and Remuneration.

The appointment is for a period of three (3) years renewable once subject to satisfactory performance and delivery of set performance targets. NuPEA offers salary and benefits consistent with scales approved by the Salaries and Remuneration Commission.

Other Requirements

Shortlisted candidates will be expected to present the following clearance Certificates to fulfill the requirements of Chapter 6 of the Constitution of Kenya 2010 and the Leadership and Integrity Act:

- Tax Compliance Certificate from Kenya Revenue Authority.
- Clearance Certificate from Higher Education Loans Board.
- Clearance from the Ethics and Anti-Corruption Commission.
- Certificate of Good Conduct from the Directorate of Criminal Investigations.
- Clearance from an approved Credit Reference Bureau.

Interested persons who meet the above minimum criteria are requested to submit applications enclosing a curriculum vitae (CV), bio-data form and copies of relevant academic and professional certificates.

The CV must at the minimum provide details of current employer, current remuneration and names and contacts of three (3) referees familiar with the applicant's professional and work record.

Applications to be sent through post or delivered to the following address: -

**The Board Chairman
Nuclear Power and Energy Agency
KAWI COMPLEX, 4th Floor
Popo Road, South C, along Red Cross Road
P.O. Box 26374-00100
NAIROBI**

OR

emailed to ceorecruitment@nuclear.co.ke

Applications must be received by **5.00 pm** on **20th September, 2023**. Canvassing in any manner shall lead to automatic disqualification. Only shortlisted candidates will be contacted.

The detailed **Job Description** and **Bio-Data Form** can be accessed in the Agency's website; www.nuclear.co.ke.

NuPEA is an Equal Opportunity Employer committed to diversity and gender equality.

Multi sectoral Working Group on Two Thirds Gender Rule Gazetted

BY IRINE GALGALO(PCO)

The realization of the "Not more than Two-thirds Gender Principle" has received a shot in arm following the gazetting of the Multi-sectoral Working Group on the Two-thirds Gender principle by the Public Service Cabinet Secretary Aisha Jumwa.

The aim of the Working Group is to draft a Legislative Proposal for the implementation of the Not more than two thirds gender principle for consideration for implementation by the 13th Parliament.

The composition of the Working Group has been amended to reflect the Two-thirds Gender principle through an addendum through Gazzete Notice No. 11090.

Speaking during a consultative meeting for the

realization of the Principle, Gender Principal Secretary Ms Veronica Nduva acknowledged the great progress of the Working Group in realizing its mandate and called for continued commitment to the cause for the advancement of gender equality in the country.

"The President committed that women empowerment and women leadership is a priority of the administration and this begins with the realization of the two-thirds gender principle.

Let our stakeholder engagement be as inclusive as possible leaving no one behind," said the Principal Secretary.

The Principal Secretary called upon stakeholders to come up with recommendations that uphold the Constitution and promote gender equality and women

empowerment.

"Please remember that we represent broad collective and representative interests so let us all hold ourselves to account and ensure full consultation and collaborative commitment to the process," said the PS.

PS Nduva reminded the stakeholders present that their engagement with the process will not end with the submission of the final report but urged the team to use their individual, institutional and professional influence to lobby key institutions that will be instrumental Parliamentary process.

The Working Group's Co-chair Ms. Daisy Amdany, Executive Director Crown Trust called for the actualization of the Constitution through the Two-thirds Gender Principle to ensure governance is inclusive.

Kenya Bureau of Standards
Standards for Quality Life

APPLICATION FOR ENGAGEMENT AS EXAMINERS FOR CERTIFIED QUALITY PROFESSIONAL QUALIFICATION

1.0 INTRODUCTION

The Kenya Bureau of Standards (KEBS) and the Kenya Accountants and Secretaries National Examinations Board (KASNEB), both of which are statutory organizations of the Government of Kenya, have jointly developed the Certified Quality Professional (CQP) qualification to promote, propagate and entrench a culture of quality.

In this regard, KEBS and KASNEB are inviting applications from qualified professionals in industry or academia for **short-term engagements** as examiners in various subject areas. The examiner roles include setters, moderators, reviewers, markers and research project supervisors for the Certified Quality Professional (CQP) qualification. Applicants may apply for consideration for up to two examiner roles and three subject areas (in not more than two clusters). The subject areas have been grouped into generic clusters as follows:

CLUSTER	SUBJECT(S)
1. Quality Management Systems	Quality Management and Standardization
	Communication Skills and Customer Relations
	Documentation and Records Management
2. Governance, Leadership and Ethics	Governance and Management
3. Quality Planning, Risk and Opportunities Management	Quality Planning, Risk and Opportunities Management
4. Quality Assurance and Control	Quality Assurance and Control
	Quality Performance Management
5. Quality Performance Management	Quantitative Skills and Data Analytics
	Project Management
6. Quality Improvement and Innovation	Innovation, Knowledge Management and Quality Improvement
	Research Project/ Workshop Presentation

2.0 REQUIREMENTS

- Bachelor's degree in relevant field
- Master's degree in applicable disciplines
- Professional qualification in quality management
- Membership in relevant professional body
- Minimum 5 years of industrial/teaching experience post qualification
- 3+ years of similar tertiary institution assignments
- Strong moral values, integrity and professional fidelity.

3.0 APPLICATION PROCESS

Interested individuals who meet the requirements should complete the online application form accessible via <https://bit.ly/CQPEXaminer> or by scanning the QR Code provided. Applications must be received before **12 September, 2023**.

NOTE:

- Upon successful upload and submission of the application, the applicant will receive a system-generated email notification that the application details have been successfully submitted.
- Only shortlisted candidates will be contacted. Canvassing will lead to automatic disqualification.
- This engagement is on a temporary basis and specific to the assignment.

KENYA VISION 2030

PPB to ensure medical, diagnostic devices are of high standards

BY JUDY SHERI (PCO)

The Pharmacy and Poisons Board (PPB) has expressed its commitment to ensure that medical devices and in-vitro diagnostics used in medical facilities country-wide adhere to utmost standards of safety, performance and high standards during their lifecycle.

To achieve this, the Board CEO Dr. Fred Siyoi says the Board will deploy a robust regulatory framework which encompasses pre-market

clinical data review and meticulous medical device registration.

Dr Siyoi said other measures will entail launching a vigilant post-market surveillance and prompt field safety corrective action notifications by the Regulator.

“We will compel all medical facilities to automate their systems to enhance accountability in order to ensure that our regulatory responses align seamlessly with the specific needs of applicants,” said Dr.

Siyoi.

To demonstrate its commitment to the global regulatory alignment, Dr. Siyoi said, PPB is benchmarking with professionals from regulatory bodies worldwide like the experts from the US Food and Drug Administration (USFDA) and the Health Sciences Authority of Singapore.

The CEO was speaking during a three-day Capacity Building Workshop designed to fortify regulatory systems for Medical Devices and In-

Vitro Diagnostics in the health care sector.

Others the Board is comparing notes with ANVISA of Brazil, Therapeutic Goods Administration of Australia, and the World Health Organization to share insights to elevate medical device regulation standards in the country.

Dr. Siyoi says the campaign by the Board is informed by the need to advance Public Health and drive economic growth by fortifying Universal Health Coverage (UHC) in the coun-

try.

To achieve total adherence to the safety standards set by the regulator, Dr. Siyoi said PPB is currently spearheading initiatives to ensure the stringent adherence of medical devices and in-vitro diagnostics to rigorous safety, performance, and quality standards throughout their lifecycle in order to fortify the health of their beneficiaries.

The CEO said the move to strengthen regulatory systems not only ensures the mainte-

nance of safety and quality but also seamlessly aligns with the overarching goal of achieving Universal Health Coverage (UHC) in the country.

“By ensuring that medical devices and diagnostics consistently meet the highest safety and quality standards, the Board’s campaign will in the final analysis contribute significantly to paving the way for a healthier future for all besides promoting accessible and effective healthcare services to Kenyans,” Siyoi noted.

MINISTRY OF WATER, SANITATION AND IRRIGATION STATE DEPARTMENT FOR WATER AND SANITATION

CONSULTING SERVICES – INDIVIDUAL CONSULTANT SELECTION (ICS)

REQUEST FOR EXPRESSION OF INTEREST (REOI) FOR SENIOR GROUNDWATER TRAINING AND CAPACITY BUILDING ADVISOR

HORN OF AFRICA GROUNDWATER FOR RESILIENCE PROGRAM (HoAGW4RP)

Project No.:	P174867
Credit No.:	IDA7082-KE
CONTRACT NO.:	MOWSI/SDWS/HoAGW4RP/005/2023-2024 (KE-MOWI-348622-CS-INDV)

Somalia meets threshold for admission into the EAC

BY MYGOV REPORTER

A report by the East African Community (EAC) Verification Team has confirmed that the Federal Republic of Somalia meets the basic requirements of the Treaty for admission into the Community, Dr. Peter Mathuki, EAC Secretary General has said.

Dr Mathuki said that the report also confirmed that the Federal Republic of Somalia already has social, economic, cultural and geographical ties with the Partner States of the East African Community and enjoys good working relations with them.

Speaking during the opening ceremony of the negotiations at Kenya School of Government, the Secretary General pointed out that the intended admission will bring immense benefits

EAC Secretary General Dr. Peter Mathuki (L) hands over a symbolic flag to Somalia Minister of Planning, Mohamud Farah (C) flanked by Dr. Abdusalam Omer, Special Envoy of Somalia at Kenya School of Government.
Photo: By Boniface Malinda.

for the EAC through the exploitation of Somalia's blue economy resources such as fish.

"Joining the community would enable Somalia to benefit from the EAC's regional infrastructure projects, such as roads, railways, and energy networks," he said.

Dr Mathuki noted that these projects aim to improve connectivity, enhance transportation links, and boost regional trade, ultimately supporting

Somalia's economic development and integration.

"Somalia has the longest national coastline of over 3000km in Africa, linking Africa to the Arabian Peninsula, which the region can tap into to increase intra-regional trade and improve the lives of East Africans," he said.

Dr Mathuki pointed out that by 2063, Africa would have emerged as a sovereign, independent and self-reliant continent

- a united and strong Africa that realizes full economic and political integration.

Rebecca Miano, Cabinet Secretary for East African Community (EAC), Arid and Semi-Arid Lands (ASALs) and Regional Development said that the negotiations between EAC and Somalia are in line with the EAC's mission of widening and deepening the integration process.

Ms Miano confirmed that the negotiations are also in line with the African Union's goal of putting in place an African Economic Community by the year 2063.

"The EAC looks forward to an expanded and vibrant bloc, with high volumes of trade within itself as well as with other blocs. This, primarily, is because we intend to create wealth and prosperity for our people," she said.

MINISTRY OF COOPERATIVES AND MICRO, SMALL AND MEDIUM ENTERPRISES (MSMEs) DEVELOPMENT

STATE DEPARTMENT FOR COOPERATIVES

TENDER NOTICE

The State Department for Cooperatives invites sealed bids from eligible candidates for the following tender.

S/ Tender No.	Description	Eligibility
MOC&MSME/SDC/SCM/001/2023-2024 WP ITEM NO. D116 CO/KWL 2001 JOB NO. 10826A	Proposed Construction of Pavi Kwale Farmers' Cooperative Ginnery at Kinondo, Kwale County	Open

The Tender documents may be obtained from the Supply Chain Management Office, NSSF Building, 16th Floor, Eastern Wing, during working hours (8.00 a.m. – 5.00 p.m.), upon payment of a non-refundable fee of Kenya Shillings One Thousand (KShs.1000/=) per set of the Tender document, payable at the Cash Office, NSSF Building Block B, 10th floor or a banker's cheque.

1	Director Human Resource & Administration	2	1
TOTAL			1

DIRECTORATE OF FINANCE AND CORPORATE PLANNING

S/NO	POST	NLC GRADE	NO. OF POST(S)
1	Deputy Director Finance and Accounts	3	1
TOTAL			1

DIRECTORATE OF LAND USE PLANNING AND RESEARCH

S/NO	POST	NLC GRADE	NO. OF POST(S)
1.	Senior Land Use Planning Officer	6	3
TOTAL			3

DIRECTORATE OF LEGAL AFFAIRS AND DISPUTE RESOLUTION

S/NO	POST	NLC GRADE	NO. OF POST(S)
1	Principal Legal Officer	5	1
2	Senior Legal Officer	6	1
TOTAL			2

Applicants are advised to visit our website www.landcommission.go.ke for detailed job specifications and instructions on how to apply.
Applicants **MUST** apply both online and also submit hard copies of their applications.

MODE OF APPLICATION

- Candidates should attach all documents to the application form (download from the website).
- Details of academic and professional certificates not obtained by closure of the advert should not be included,
- Shortlisted candidates shall be required to produce originals of their National Identity card, academic and professional certificates, transcripts and testimonials during interviews.
- Please note that it is a criminal offence to present fake certificates.

If you possess or meet the qualifications, please send;

Your application letter together with detailed Curriculum Vitae including names of three referees and their full contact (Name, post office box number, email address, and telephone/mobile phone contact), copies of academic certificates and testimonials.

In case you do not hear from us, please consider your application as unsuccessful.

Please note that canvassing for appointment to any of the position will lead to automatic disqualification.

All applicants must meet the requirements of Chapter Six (6) of the Constitution of Kenya.

The National Land Commission is an equal opportunity employer. Women, people from marginalized areas and Persons living with disabilities are encouraged to apply.

All hardcopy applications should be submitted to:

**THE SECRETARY/CEO
NATIONAL LAND COMMISSION
316 UPPERHILL CHAMBERS, 20TH FLOOR
P.O BOX 44417-00100, NAIROBI.**

The applications should reach the Office of the Secretary/CEO, National Land Commission on or before **18th September, 2023 by 5.00pm.**

State to deploy blasting experts to train artisanal miners on explosives

BY WAGEMA MWANGI(KNA)

To be an artisanal miner in the gemstone fields of Taita-Taveta County is to live on the edge. Over the years, the promise of great riches hidden beneath these rugged fields has ignited an eternal flame that burns fiercely in every miner's heart.

At dawn, armies of raggedly dressed gemstone-hunters wake up to delve deep into the earth's bowels in a relentless search for a massive fortune lying in the earth's crust. Sometimes, when the earth relents, a lucky few miners become instant millionaires. However, the risks involved in this quest for gemstones are overwhelming.

Toiling under grueling conditions in a hostile environment, the miners must also contend with the wrath of blistering heat from the unforgiving sun and the bite of strong winds. The bush around the mines teems with wild elephants, while the ground is alive with venomous snakes and deadly scorpions. While underground, miners risk tunnel collapses and suffer from extreme claustrophobia due to long hours of working in lightless narrow holes hundreds of feet under the earth's surface.

However, the use of explosives remains arguably the greatest danger of all. Explosives are a controversial topic in the mines, with grim and tragic tales of miners blown to bits by malfunctioning explosives. Others have been permanently maimed by powerful blasts, while lucky ones barely escape with life-threatening injuries.

"There have been accidents and injuries. Lives have been lost," admits Mr. David Zowe, the County Chairperson for Taita-Taveta Artisanal Miners Association. Reliable data on fatalities caused by careless handling of explosives is hard to come by. The miners are reluctant to talk about deceased colleagues, and deaths from such tragedies are quietly documented as normal mining accidents. This concealment avoids scrutiny and uncomfortable questions from the authorities.

Being a highly controlled substance, the use of explosives in the mines is ille-

Two miners going down a deep subterranean tunnel in one of the mining zones in Mwatate Sub-county.

A section of artisanal miners at Chawia in Mwatate use a jackhammer, to rip through a rock in search of precious stones.

gal. Mining officials cite the grave dangers associated with untrained personnel handling these deadly products. Currently, there are no registered explosives experts or licensed blasters in the region. Nonetheless, the use of explosives by desperate miners continues unabated.

The blasting is overseen by a few self-trained miners who, though unlicensed, have acquired some mastery of the art of using explosives. Their experience comes from time spent watching others use explosives, making them highly sought after, and they charge exorbitant rates.

Despite the enormity of such dangers, artisanal miners risk life and limb by using explosives. Because they lack modern equipment to break massive rocks, they view explosives as the only savior that can help them navigate past unyielding obstacles that are impervious to attacks by puny mallets and rock chisels.

"The rocks are impenetrable. They have no heavy equipment to break through such barriers. They are faced with the impossible choice of either risking the use of explosives or giving up and

going home empty-handed. If you spend years digging and then encounter a huge rock blocking your tunnel, you realize giving up is never an option," says Mr. Zowe, capturing the miners' desperation.

Miners privy to the practice say that the commonly used explosive is ammonium nitrate, often illegally acquired from Tanzania. Though crudely assembled, the contraption is effective and often works for miners. When blasting, miners retreat to a safe zone outside the blast radius to avoid injuries from flying shrapnel and falling debris. Tragedies occur if a miner uses a short cord that burns too fast before they can reach safety.

In other cases, a reckless miner leaves their hideout to descend to the bottom of a rigged tunnel to check why there has not been an explosion. The blast can be delayed due to an improperly fixed cord or a slow-burning fuse. Such miners discover their tragic mistake too late.

"It's extremely risky. A single misstep means death. A colleague went to check on the explosives and found themselves within a blast radius," explains an anonymous miner.

FINANCIAL REPORTING CENTRE

OLD MUTUAL TOWER
PRIVATE BAG 00200, NAIROBI TEL: +254 709858000

PUBLIC SURVEY ON THE NATIONAL TERRORISM FINANCING RISK

The Financial Reporting Centre is established under Section 21 of the Proceeds of Crime and Anti-Money Laundering Act, (POCAMLA) 2009 with the principal objective being to assist in the identification of proceeds of crime and the combating of money laundering and terrorism financing.

The Financial Reporting Centre together with other government institutions and the private sector invites the public to take an anonymous survey on terrorism financing risks in Kenya. Kenya is required to assess and understand its terrorism financing (TF) risks and apply a risk-based approach to the design and implementation of measures for countering the financing of terrorism (CFT) at the national as well as sectoral levels.

As part of the mission to protect the integrity of our financial system and contribute to the safety of our citizens, the Financial Reporting Centre is inviting the public to share their thoughts through a short survey, to help understand the terrorism financing risks that Kenya is exposed to.

Your feedback will play a vital role in informing counter financing of terrorism policies to address the identified terrorism financing threats and vulnerabilities. The FRC appreciates your participation and looks forward to receiving your input by **8th September 2023**. Please visit the FRC's website: www.frc.go.ke to participate.

For more information, kindly send an email to nrakenya@frc.go.ke.

All bidders whose applications will have been received by the closing date and time will be advised in due course, of the results of their applications.

**Head, Supply Chain Management Services
For: PRINCIPAL SECRETARY**

Maragoli Hills Forest restoration starts

BY ROBERT OJWANG(KNA)

The reforestation of Maragoli Hills Forest by the Ministry of Energy is playing a critical role in transforming the livelihoods of the residents besides boosting tree cover on the once degraded, bare and rocky hills.

The Secretary for Renewable Energy at the Ministry of Energy Isaac Kiva during a tour of the forest lauded the program's progress.

He noted that the Ministry of Energy, through the Kenya Energy Sector Environment and Social Responsibility Program (KEEP) Fund is undertaking rehabilitation projects in various water towers across the country towards attaining the government's target of at least 30 per cent forest cover by 2032.

He said the State Department for Energy in collaboration with other development partners adopted 150 hectares of the vast Maragoli Hills Forest in Vihiga County to plant and nurture trees and conserve the water tower.

The exercise, he noted, has offered direct employment opportunities to over 800 people, with women and men serving as casual

The Secretary for Renewable Energy at the Ministry of Energy, Eng. Isaac Kiva planting a tree at Maragoli Hills forest. PHOTO: OJWANG'R

laborers and youth as scouts. They all work in the 14 conservation areas surrounding Maragoli hills.

This, he added, has greatly contributed to alleviating poverty and improving the quality of life among low-income community members.

Kiva added that they were impressed by the willingness of communities to be involved in the initiative meant to reclaim the once huge water catchment area.

"The residents living around the catchment area have become an integral part of the forest restoration program. We resolved to work with the Community Forest Association (CFA) to aid in guarding the forest against further destruction and en-

croachment for the sustainability of the program," Kiva stated.

To date, he added, the CFA has planted 222,800 indigenous tree seedlings on 138 hectares out of the 150 hectares which was adopted at the initial phase of the project.

Esther Kadi, a resident of a village neighbouring Maragoli Hill Forest is one of the casual laborers contracted to plant tree seedlings at the conservation site.

The resilient mother of six appreciates the restoration program terming it a life-saver to her and other residents for the opportunity to earn a living in the wake of hard economic times.

"I commend the government for bringing the initiative that directly supports mwananchi at the grassroots. I have immensely benefited working at the site, earning money which has helped in buying food for my family and paying school fees for my children," Kadi remarked joyfully. On his part, George Aimo, the Maragoli Hills Forest Station Manager, explained the impact of the transformative interventions by the Ministry of Energy.

PUBLIC NOTICE

CALL FOR PUBLIC VIEWS FOR ENVIRONMENTAL AUDITS OF FOREST PLANTATION MANAGEMENT PROJECT IN NINE FOREST ECOSYSTEMS

Kenya Forest Service (KFS) is a State corporate established under Forest Conservation and Management Act, 2016. The mandate of the Service is, "To provide for the development and sustainable management, including conservation and rational and utilization of all forest resources for the socio-economic development of the Country and for connected purposes."

KFS conducted Environmental and Social Impact Assessments (ESIAs) for **State Forest Plantation Management Project** in nine forest ecosystems namely Mt. Kenya, Aberdares, Mau, Cherangany, Kakamega, Mt. Elgon, Machakos, Makueni and Kitui between 2014 and 2016.

The reports from ESIAs were submitted to NEMA for review and licenses granted. All the plantation management activities in each ecosystem commenced within the stipulated timeframe for the EIA licenses. As part of the EIA license conditions, KFS commissioned Environmental Audits (EAs) of the forest plantation Management in the said ecosystems.

KFS is therefore inviting members of the public to give their views on the said **Forest Plantation Management Project** for an on-going audit to their nearest KFS Forest Station for Auditors' action. Views should be received before **Friday 15th September, 2023**.

For further enquiries on the subject matter call Telephone No. **+254 0202502508** / or email director@kenyaforestservice.org

PUBLIC SECTOR ACCOUNTING STANDARDS BOARD

CAREER OPPORTUNITIES

The Public Sector Accounting Standards Board (PSASB) is a Semi-Autonomous Government Agency established by the Public Finance Management (PFM) Act No.18 of 2012. The Board is mandated to provide frameworks and set standards for the development and management of accounting, financial and internal audit systems for all state organs and public entities.

In order to enhance institutional capacity to deliver on its mandate, the Board is seeking to recruit qualified and competent individuals to fill the following vacant positions:

S/No.	Job Ref. No.	Designation	Job Grade	No. of Posts
1.	PSASB/3/2023	Principal Internal Auditor	ASB 4	1
2.	PSASB/4/2023	Senior Internal Audit Standards Officer	ASB 5	1
3.	PSASB/5/2023	Senior Accounting Standards Officer	ASB 5	1
4.	PSASB/6/2023	Driver	ASB 9	1

HOW TO APPLY

Detailed job descriptions and specifications for the above positions are available at www.pasb.go.ke

If you can clearly demonstrate your ability to meet the specified criteria, please make your application through the **link provided** on the PSASB Website and email your C.V, copies of academic and professional certificates and any other supporting documents to the address recruitment@pasb.go.ke. Kindly indicate the reference number on the subject of the email. Shortlisted candidates will be required to submit clearance/compliance certificates from **CID, HELB, EACC, CRB & KRA** in their applications which should be received not later than **28th August, 2023 at 5.00pm**.

The PSASB is an equal opportunity employer. Canvassing of any kind will lead to automatic disqualification. PSASB does not charge to process any application. Women, Youth and Persons with Disabilities are encouraged to apply.

Kenya's ambitious plans to encourage cruise tourism

BY CHARI SUCHE(KNA)

The Government is working on modalities of refining the cruise experience for international visitors by diversifying the excursions available to cruise ship passengers.

Speaking during the MV Logos Hope courtesy call at the Port of Mombasa, Tourism, Wildlife and Heritage Cabinet Secretary Peninah Malonza said that the arrangements form part of plans for a larger infrastructure push that includes upgraded airports and road connectivity, all designed to amplify the Magical Kenya experience.

Ms Malonza said the increasing arrival of cruise ships like MV Logos Hope showcases Kenya's magnetic appeal, hence the need to expand the cruise tourism experience with Mombasa playing a pivotal role.

"Our land boasts a diverse tableau of experiences-wildlife safaris, water sports, cultural richness and tranquil beaches. These unique offerings have already led to return visits, like last year's encore

CS for Tourism, Wildlife and Heritage Peninah Malonza (C) flanked by Mombasa Governor Abdulwamad Nassir (L) cut the ceremonial ribbon during MV Logos Hope call at the port of Mombasa. PHOTO: ANDREW HINGA/KNA

from the MV World Odyssey, signaling our rising status as a prime tourist hub," Malonza said.

In the recent cruise tourism circuit season that ended in April this year, the Port of Mombasa received four vessel calls carrying over 4,000 passengers.

The next cruise tourism circuit kicks off in September.

The CS noted that the global impact of the cruise industry is awe-inspiring adding that before Covid-19 pandemic, cruise ship business generated over Sh2.2 trillion and catered to nearly 30 million passengers worldwide.

She said the country is now ready to meet the new demand for cruise tourism with the construction of the multi-million cruise terminal at the Port of Mombasa.

She said the inauguration of Mombasa's cruise terminal is Kenya's bold step into this lucrative market.

Kenya Ports Authority Managing Director Captain William Ruto said they have worked closely with cruise tourism stakeholders in the region under the leadership of the Cruise Africa Association and Port Management of Eastern and South Africa (PMESA) to market the Indian Ocean realm as a cruise destination of choice.

State set to build a Sh750 million milk processing plant in Narok

BY ANN SALATON (KNA)

The State through the New Kenya Cooperative Creameries (KCC) is set to build a Sh750 million milk processing plant in Narok County to boost milk productivity and farmers' income.

Cabinet Secretary in charge of Cooperative and Micro, Small and Medium Enterprise, Simon Chelugui, made the announcement during a farmers' meeting held in Narok and attended by Narok County Governor Patrick Ntutu and County Commissioner Isaac Masinde.

He said the State aims at wiping out middlemen who exploit farmers by buying their produce at a very low cost and later sold the milk at almost a double price causing farmers to incur huge losses.

In this regard, the CS directed the New KCC Chairman Mr. David Maina and Chief Executive Officer (CEO) Nixon Sigey to oversee the sale of milk in the county, even before the processing plant is built, so that farmers are no longer

exploited.

"By building the factories, we will be eliminating hawking of milk where farmers sell a litre of milk as low as Sh30. The standard buying price will not be less than Sh50," he said.

Other areas that will benefit from the second phase programme include Mogotio and Kabianga where similar milk factories will be built.

"We target to increase our daily milk production as a country from 1.5 million litres to 4.5 million litres, by empowering farmers to do more production," he reiterated.

Chelugui said the initiative follows an instruction from President Dr. William Ruto that directed his ministry to implement a milk factory in the county, adding that the President would be launching the construction of the factory in a few days' time.

He expressed confidence that Narok County has the potential of producing over 100, 000 litres of milk daily, owing to the favourable climatic condition and big parcels of land.

Apart from building the

factory, the CS announced that the State will build a model dairy farm, adjacent to the processing farm, that will act as a training ground for the farmers.

"We want to empower Narok farmers in all ways so that they can lead in milk production in the country. The milk from Narok is known to be of high quality, which is recommended in the international markets," he said.

Governor Ntutu underscored that the county government had set up 30 acres of land to put up the factory saying it would be a game changer for the residents as the farmers would have a market for their milk as well as many job opportunities being created.

"200 people will be employed directly while another 1, 000 will be employed indirectly. This will reduce the rate of joblessness in our county as almost all these people will come from our county," he said.

The governor wondered why milk sells at a cheaper price than water in the county yet water was more easily available than milk.

Kwale launches community libraries to boost learning and reading culture

BY HUSSEIN ABDULLAHI

As part of efforts to boost learning, research and reading culture, Kwale County Government is operationalizing community libraries and ICT centers across the sub counties.

Area Governor, Fatuma Achani, says that the initiative was aimed at promoting learning and reading culture as well as the acquisition of literacy and digital skills, especially among youths.

Achani says the community libraries are aimed at promoting literacy, education, and lifelong learning among the citizenry.

The Governor has urged residents to take advantage of the new community libraries to broaden their knowledge.

She says as gateways to information, knowledge and culture, libraries could play a fundamental role in the coastal county.

She also emphasized the importance of reading in fostering critical thinking, creativity, and personal growth, and urged the public to take advantage of the library's

Kwale Governor Fatuma Achani (wearing red scarf) during the commissioning of the Kwale public library. Achani says the community libraries are aimed at promoting literacy, education, and lifelong learning among the citizenry.

resources and services to further empower their capabilities.

Achani was speaking at the commissioning of a new public library at the Kwale cultural centre in Kwale town.

She says the library, which is equipped with state-of-the-art facilities and a vast collection of books, was expected to serve as a hub for learning, research, and community engagement.

The County Boss says the community libraries which are funded by the county

government through the Department of Social Services and Talent Management features a spacious reading room, a children's section and a technology center.

"Inculcating a culture of reading amongst our children, youths and Kwale residents at large is crucial to improving literacy and the quality of life in our community," she said.

She went further "this library project is among other community library projects that are aimed at growing

a competent society that can effectively contribute to the county's development agenda".

The opening of the libraries were warmly received by the public, who expressed their gratitude to the governor and other stakeholders for their vision and commitment to improving the quality of life in the community.

Many residents noted that the libraries would provide a safe and welcoming space for people of all ages and backgrounds to access knowledge, explore new ideas, and connect with others who share their interests.

Achani was accompanied by the County Executive for Social Services and Talent Management Mrs. Francisca Kilonzo.

The Governor said the department of social services has built five libraries so far in the six sub-counties of Kwale.

She says that the facilities at the community libraries were equipped with ICT services which provided unlimited access to information and knowledge.

BRIEFS

KIE to establish offices in counties to spur growth

The Kenya Industrial Estates (KIE) will soon establish offices in every county in order to spur industrialization at the grassroots.

According to the Principal Secretary for Micro Small and Medium Enterprises (MS-MEs) Development Ms Susan Mang'eni, the proposed KIE offices will avail expertise and credit services to both small and medium investors so as to set up industries at the county level.

KIE, Ms Mangeni noted has been domiciled only in Nairobi since its inception and taking its services to the counties will see a marked improvement of the micro and macro economy and create employment opportunities for Kenyan youth, besides expanding investment opportunities for local entrepreneurs.

Speaking in Gatanga, Murang'a county, Ms Mangeni stated that KIE has the capacity to give loans amounting to millions of shillings to help industrialists establish processing firms, especially those targeting value addition of agricultural produce throughout the country.

The PS further observed that the proposed industrial parks to be established in counties will benefit greatly from the

KIE offices.

"KIE has a mandate to promote small and medium industries with focus on rural industrialization and by establishing offices in every county, it will see prospective investors access finances, workspace, business development services and promotion of subcontracting linkages to micro, small and medium industries," said the PS.

She also noted that the presence of KIE services at grassroots will pave way for the flourishing of both small scale business and small industries to flourish. "By offering both financial support and expert guidance, KIE will support growth of business at the grassroots and change the economic landscape of rural areas besides stemming rural urban migration given that jobs will be available at the village level," she added.

Gatanga MP Edward Muriu said he will support women and youths from his constituency to form groups in order to access funds from various kitties.

Muriu said he will ensure two women and youth groups in each of the six wards in Gatanga are formed

By Bernard Munyao (KNA) and Bernadette Owade (PCO)

Free soil testing initiative to benefit 7,000 farmers in Kisumu as they target high yields

BY CHRIS MANDARA (KNA)

Over 7,000 farmers in Kisumu County will benefit from a free rapid soil testing campaign to enable them take remedial measures to boost food production in the area.

The exercise, spearheaded by the Kenya Crops and Dairy Market Systems (KCDMS), aims to equip farmers with the right information about soil nutrition so as to make informed decisions regarding soil fertility and crop selection.

This comes after results of soil samples taken from different parts of the county revealed that it was acidic resulting to poor yields.

KCDMS Technical Director Mr. Seth Yake said the campaign targets to sensitize farmers on the importance of soil testing to understand what is required to get optimum yields.

He said even though the uptake of fertilizers in the

KCDMS Technical Director Seth Yake addressing the media during the launch

area was commendable, farmers lacked the information on the right type of fertilizers for their soils to maximize yields.

"We have seen from the tests that have been done in this region that the soils are very acidic. This means that farmers must make very deliberate steps to amend this by improving the pH to the required level to increase productivity," he said.

Speaking during the launch of the campaign in Kisumu, Yake said the exercise which runs up to 14th September 2023 would help the farmers understand the limitations of their soil and make efforts to bridge the gaps.

Besides Kisumu, he said, the testing was also being carried out in Kisii, Kakamega, Busia, Bungoma, Vihiga and Siaya counties.

The culmination of the campaign, he said, will involve setting up soil testing clinics in all the seven counties. Manned by qualified technicians and agronomists, the clinics, he said, will provide farmers with immediate, personalized soil reports and recommendations. He divulged that the campaign targets to test at least 200 samples per ward in Kisumu and issue comprehensive results to farmers. Kisumu County Chief Officer in charge of Agriculture Erick Omondi said the campaign is expected to traverse the 35 wards in the devolved unit sensitizing and training farmers on soil testing. Farmers apply fertilizer without knowing the state of their soil in terms of nutrient availability. This exercise will create a knowledge base for our farmers on what their soil lacks and what is required to correct the anomaly," he said.

Iconic Thwake Dam to be complete on time - official

The Government will ensure the construction of the 80.5 Metre high of Thwake Multipurpose dam is completed by 6th February 2024.

Water Secretary in the Ministry Water, Sanitation and Irrigation Eng. Samuel Alima says, the government is closely monitoring and fast-tracking the construction of the dam to ensure food security of the lower Eastern region.

"So far, there is good progress, we are at 84.4 % and the dam is expected to be completed by 6th February 2024," noted Alima while addressing the media during a monitoring progress tour at the site.

"We are closely monitoring this project and every month we hold a physical meeting at the site and on Thursdays we also have online meetings to check what has been achieved in ensuring the dam is completed on time," he observed.

Consequently, the Water Secretary said they have instructed the contractor China Ghezoubha Group of Companies (CCCG) to complete the construction of the dam as a scheduled. "We have instructed the contractor to

ensure that the dam must be completed on time," noted Alima.

However, Alima noted that filling the 11 million meter cubic materials to the massive embankment which is a challenge as it requires about 3 months to fill rocks and large stones that require another two months to settle.

"This is a concrete phased dam and the embankment is massive, 11 million meter cubic of materials being put there up to the top and they have to be given two months to settle and put the concrete phase," he said. The dam is now filled with 8 million meter cubic of rocks and large stones and the remaining 3 million of material will be completed by November 2023.

He was accompanied by the Project Implementation team, Eng. David Onyango, SMEC consultants led by Nicholas Rowe and contractor Manager Li Shan.

On completion, the water will be treated and distributed up to 150,000 cubic metres of water per day.

By Patrick Nyakundi and Ronald Rono (KNA)
