## KNEC kufanyia mageuzi mfumo wa kuwapa alama watahiniwa wa KCSE

**Kulingana na mkuu wa KNEC, kanuni zitaandaliwa kutoa alama za mwisho za mtahiniwa kwa kutumia Hesabu, somo la lugha moja -Kiswahili au Kiingereza na masomo mengine matano ambayo mwanafunzi**

**NA SANDRA OMONDI (MYGOV)**

Baraza la Mitihani ya Kitaifa nchini (KNEC) hivi karibuni litatengeneza mfumo mpya wa uutoaji wa alama kwa mfumo wa wa elimu wa 8-4-4 ambao utawapa watahiniwa wa Kidato cha Nne nafasi nzuri ya kuboresha alama zao za mwisho.

Afisa Mkuu Mtendaji wa KNEC, David Njegere alisema mfumo wa

sasa haufaidi baadhi ya wanafunzi ambao masomo yao bora hayazingatiwi ikiwa hayamo katika kundi linalohitajika kwa mtu kuchagua shahada.

Bw Njegere alisema pendekezo jipya la kurekebisha mfumo wa upangaji wa Mtihani wa Kidato cha Nne (KCSE) ni sehemu ya mapendekezo yaliyotolewa na Kikundi Kazi cha Rais kuhusu Mageuzi ya

Elimu (PWPER) ambayo yameidhinishwa na Rais. Afisa huyo mkuu alieleza kuwa kwa sasa, KNEC inapanga alama za mwisho za mtahiniwa kulingana na masomo matano ya lazima, ambayo ni Hisabati, Kiingereza, Kiswahili, na masomo mawili kutoka kwa Baiolojia, Kemia na Fizikia, na masomo mawili mengine aliyofanya vizuri kutoka katika mas-

omo ya sanaa kama Dini, Masomo ya Biashara, na masomo ya kiu-fundi. Katika mapendekezo yake, kikosi cha mageuzi, kwa mujibu wa Njegere, kilipendekeza kuwa mwongozo wa kuweka alama za mwisho za mtahiniwa uandaliwe kwa kutumia Hisabati, lugha moja iwe Kiingereza au Kiswahili, na

## Huduma Kenya yazindua mfumo raia kuchagua siku ya kuhudumiwa

**NA MUTISO MBITHI (MYGOV)**

Wasimamizi wa Huduma Kenya wamezindua mfumo wa mtandaoni unaoitwa "Service By Appointment and Track My Service" ambao utawawezesha wa-

teja kuweka miadi ya huduma kwa njia ya kidijitali na kuhudumiwa siku na wakati wanaotaka.

Afisa Mkuu Mtendaji wa Huduma Kenya, Bw Ben Kai Chilumo, alisema mfumo wa ubunifu wa Ser-

vice By Appointment (SBA) na Track My Service (TMS) unalingana na Ajenda ya Uchumi ya Kenya Kwanza ya Chini Juu (BETA) ambayo inapewa kipaumbele ya kutoa huduma zote za serikali kwa njia ya kidiji-

tali. Bw Chilumo, ambaye alikuwa akizungumza na MyGov katika mahojiano ya kipekee, alisema mfumo wa SBA na TMS unawapanga wateja na kuwapa fursa ya kuchagua muda

wao wa kutumikiwa kati tika vituo vyake 52 nchini kote na kuwahimiza kujibu maswali wakiondoka ambao unaorodhesha ubora wa huduma wanazopokea.

masomo mengine matano yaliyofanya vizuri zaidi kwa mtahiniwa.

Kwa mujibu wa PWPER, ikiwa mabadiliko haya yafanywa ndani ya mwaka mmoja, watahiniwa wa mwaka 2023 watakuwa kundi la kwanza kunufaika na pendekezo jipya ambalo litawasaidia watahiniwa kupata alama za juu kwa vikundi vyao.

Katika juhudi za kusaidia pendekezo hilo, Bw Njegere alisema watahiniwa wengi wamezuiliwa kujiunga na taasisi wanazotamani na

kuchukua kozi wanazotaka kutokana na mfumo wa sasa wa upangaji wa alama. Akizungumza wakati wa mkutano wa 39 wa Chama cha Tathmini ya Elimu Barani Afrika (AEAA) ulioongozwa na Mkuu wa Mawaziri Musalia Mudavadi, afisa mtendaji mkuu huyo alibainisha kuwa, pendekezo hilo litarekebisha mfumo wa upangaji wa alama na kuufanya uwe nyeti kwa manufa ya kazi ambayo kila mwanafunzi anaazimiza kufanya baadaye. Bw Njegere aliongeza kuwa, mfumo mpya pia utahakikisha KCSE inatimiza majukumu yake mawili, yaani, ku-

hakiki mafanikio ya wanafunzi kwa kipindi cha miaka minne shuleni na pia kufanya uamuzi wa iwapo mwanafunzi anaendelea na chuo cha kadiri au chuo kikuu. "Tunaadhibu wanafunzi kupitia mtaala kwa njia nyingi kwa kuwazuia kusonga mbele kutokana na kushindwa kufaulu katika somo fulani au masomo wakati wanaweza kuwa wamefaulu katika masomo mengine," alisema. Kulingana na Njegere, mabadiliko makubwa haya yanaweza kuongeza nafasi za mafanikio kwa mamilioni ya wanafunzi wa mfumo wa 8-4-4.

Kupitia mfumo huu, Chilumo aliongeza, wateja wanaweza kufuatilia nyaraka na kupokea ujumbe mfupi wa maandishi (SMS) kuwaomba kwenda kuchukua stakabadhi zao.

"Tafadhali kumbuka kwamba, utafiti wa awali uliofanywa baada ya kuanzishwa kwa mfumo huu wa kipekee ulionyesha kuridhika kwa wateja kwa huduma hii ni asilimia 95," alisema Afisa Mtendaji Mkuu.

Afisa Mtendaji Mkuu alisema zaidi, "roho yetu ya ubunifu pia imekuja na mfano unaoitwa Business Process Outsourcing kupitia Huduma Kenya Agent mmoja anayeitwa BETA Agent amefundishwa na kuwezesha kutoa huduma kwa Wizara, Idara na Mashirika (MDAs) ambayo hayawezi kuajiri wafanyakazi kwenye vituo vyetu kutokana na vizuizi vya ajira, uhaba wa wafanyakazi, na dharura

nyingine. "BETA Agent, alisema Chilumo, ni wakala wa kawaida anayesimamia dawati katika vituo vyetu na amefundishwa kuhusu huduma mbalimbali zinazotolewa na MDAs tofauti, na anaweza kutoa huduma nyingi izezekanavyo ambayo imewezesha kupunguza msongamano katika vituo vyetu na kupunguza gharama za ajira kwa mashirika yanayohusika.

"Mtindo wa BETA Agent unafanyiwa majaribio katika vituo vyetu ili kutoa huduma kwa Mamlaka ya Mali Zisizochukuliwa (UFAA) na Mpango wa Nyumba Yangu ambao bado

hawajapeleka wafanyakazi kwenye Huduma Kenya kuhudumia wateja wao," alisema afisa huyo.

Huduma Kenya, alisema Bw Chilumo, pia inashauriana na MDAs zingine ambazo hazina wafanyakazi kwenye Huduma Kenya ili kuziingiza huduma zao kwenye majukwaa yake ili kupunguza gharama za mishahara, kodi za ofisi na gharama za utawala.

"Tumebuni pia maelezo ya dhana ya kuwasilisha 'Huduma kwa Magurudumu' na tunatafuta fedha za kununua gari lenye teknolojia ya kidijitali kupeleka huduma vijijini."

# Shirika la raslimali za maji latenga chemchemi za maji kuwa maeneo ya kiusalama

NA YOBESH ONWONG'A  
(MYGOV)

Mamlaka ya Rasilimali za Maji (WRA) imeorodhesha vyanzo vya maji na maeneo ya uhifadhi wa maji ya chini ardhi kama maeneo ya kulindwa.

Hii inalenga kuzuia shughuli za kibinadamu na uvamizi ambao unaweza kuwa na athari mbaya kwa rasilimali hizi muhimu za maji.

Bw Mohamed Shurie, Mkurugenzi Mtendaji wa WRA alisema shirika hilo kama Shirika la Serikali Kuu linalohusika na udhibiti wa usimamizi na matumizi ya rasilimali za maji nchini, linajitahidi kuhakikisha maeneo ya kukusanya maji yanahifadhiwa vizuri kupitia hatua za kisheria zinazohitajika.

Akiongea na MyGov jijini Nairobi, Shurie alisema Mamlaka hiyo inaendelea kampeni ya ufahamu wa umma ili kuongeza

uelewa kuhusu rasilimali za maji nchini kwa lengo la kubadilisha mtazamo wa jamii.

"WRA inavumisha dhana ya 'maji yanatoka kwenye eneo la chemchemi, si bombani' ili kuhakikisha watu wanathamini umuhimu wa maeneo ya kukusanya maji na maeneo ya uhifadhi kwa kuzingatia upatikanaji endelevu wa rasilimali za maji," alisema Mkurugenzi Mtendaji.

Shurie alisema umuhimu wa maeneo ya kukusanya maji yenye afya hauwezi kupuuzwa ikizingatiwa mabadiliko ya hali ya hewa na ongezeko la idadi ya watu. "Bila upatikanaji wa maji ya ubora na

**WRA inavumisha dhana maji hutoka kwenye chemchemi si mfereji-Shurie**

kiasi cha kutosha, ajenda ya maendeleo ya kiuchumi ya serikali, kama ilivyoinishwa katika Ajenda ya Uchumi ya Kuboresha Chini-Kwenda-Juu (BETA), haitatimizwa," alisema Mkurugenzi Mtendaji.

Shurie alifichua kuwa, shirika hilo linatekeleza hatua mbalimbali ikiwa ni pamoja na kugawa na kufunga mipaka ya maeneo ya uhifadhi na ulinzi wa eneo la maji ya chini na ardhi.

Aidha, Mkurugenzi Mtendaji alisema uelewa juu ya athari mbaya za kupanda aina za miti za kigeni, hasa Eucalyptus - Blue gum katika maeneo ya kukusanya maji na maeneo ya uhifadhi, na upandaji wa miti katika maeneo hayo utaongezeka.

"WRA inashirikiana na wadau kwa usimamizi endelevu kutunza rasilimali hii muhimu," alisema. wa maeneo ya kukusanya maji," alisema Mkurugenzi

Mtendaji.

John Kinyanjui, Meneja wa Tathmini ya Rasilimali za Maji alisema kuwa, eneo la kukusanya maji lenye afya, linaloweza kutekeleza kazi yake ya asili, linahitaji kifuniko cha mimea kilicho sawa au mwavuli ambao utavunja nguvu na kasi ya mvua inayonyesha na kutoa mazingira yanayofaa kwa uchujaji kutokea.

"Kukusanya maji ni eneo ambalo maji ya mvua hu-teremka kuelekea mto, ziwa au bahari, au kuingia katika mfumo wa maji chini ya ardhi," alisema Kinyanjui.

Alisema maeneo ya kukusanya maji yanatambuliwa kwa kiasi kikubwa kama kitengo cha usimamizi cha ufanisi zaidi kwa ulinzi wa rasilimali za maji, iwe ni ubora au wingi wa maji.

Baada ya kutungwa kwa Sheria ya Maji ya 2002 (iliyotafsiriwa na Sheria ya Maji ya 2016), Kenya ilikubali kanuni ya Usimamizi wa Rasilimali za Maji kwa Pamoja (IWRM) ya usimamizi wa rasilimali za maji kulingana na bonde la mto.

Meneja huyo alisema kuwa, hii inahitaji kuwa mito inayosimamiwa kama kitengo kimoja kwa urefu wake wote.

# Wakazi wapongeza KPA kwa kuboresha huduma katika kivukio cha feri Likoni

NA SADIK HASSAN (KNA)

Wakazi wa Mombasa wamepongeza Mamlaka ya Bandari ya Kenya (KPA) kwa kusimamia vyema shughuli katika eneo la Kuvukisha Feri ya Likoni, tangu Huduma ya Feri ya Kenya ilipojumuishwa na KPA.

Kulingana na Mkurugenzi Mtendaji wa KPA, William Ruto, huduma ya feri inayofanya kazi saa 24 inaongeza huduma za usafiri wa barabarani.

"Huduma ya feri inawezesha usafiri wenye faida kwa takribani watembea kwa miguu milioni 126,000,000 na waendeshaji wa magari 2,560,000 kila mwaka katika eneo la Likoni," alisema.

"Utoaji wa huduma bora za feri unaendelea kuwa sehemu muhimu katika kuhamisha watu na bidhaa kati

Abiria washuka kwenye feri ya MV Safari katika Likoni Crossing, Mombasa majira ya asubuhi.

ya kisiwa cha Mombasa na Pwani kusini, kukuza ukuraji wa kijamii na kiuchumi katika sekta za kilimo, utalii, uzalishaji, na huduma," alisema Ruto. Eneo la kuvukisha feri linatumika na zaidi ya abiria 300,000 na magari 6,000 kila siku, kusababisha msongamano mkubwa, haswa wakati wa

masaa ya asubuhi na jioni.

Barabara ya Upande wa Dongo Kundu inayojengwa inatarajiwa kuboresha hali, kwa kuwa itaunganisha barabara kuu tatu za usafirishaji: barabara ya Mombasa-Nairobi, barabara ya Mombasa-Malindi, na barabara ya Mombasa-Lunga, lakini pia kupunguza

msongamano katika Kivukio cha Feri ya Likoni. Licha ya kufungwa kwa muda usiojulikana kwa Daraja la Liwatoni kwa ukarabati wa kawaida na kusitishwa kwa huduma kwenye Feri ya Mtongwe, eneo la Likoni limepata ongezeko kubwa la abiria wakati wa asubuhi na jioni, hata hivyo, abiria wamekuwa wakivuka bila kikwazo.

Tangu KPA ilipotwaa usimamizi, imechukua hatua kadhaa kupunguza msongamano na kuziba mianya ya kuvuja kwa mapato. Miongoni mwa mabadiliko yanayoonekana ni mfumo wa malipo kwa njia ya mitambo, milango ya kujifungua, na barabara zilizo-pambwa vizuri. Wakati wa masaa ya msongamano, feritano zinakuwa kazini. Uongozi umehamisha taratibu

Magari ya kubeba mafuta yashuka kutoka feri ya MV Harambee katika kuvukio cha Likoni.

za ukarabati wa kawaida kwa masaa yasiyokuwa ya kilele na hata usiku, ili kupunguza usumbufu unaweza kusababishwa kwa watumiaji wa feri.

"Ukusanyaji wa mapato kila mwezi umeongezeka kwa kiasi kikubwa, kutoka Shilingi milioni 30 hadi

Shilingi milioni 56 baada ya mfumo wa malipo kwa kutumia kadi kuanzishwa. Kila siku, magari takribani 7,000 yanavuka. Magari yenye uzito wa chini ya tani 3.5, pikipiki, na mabasi hulipa kati ya Sh 120 na Sh 600 kwa safari," alifichua Mkurugenzi Mtendaji wa KPA.

# Kenya yalenga kuongeza mapato yake ya avokado ikishirikiana na Israeli

**NA ERASTUS GICHOHI (KNA)**

Mpango wa serikali wa kuongeza mapato yake ya mauzo ya parachichi maradufu katika miaka mitano ijayo umepigwa jeki pakubwa baada ya kampuni ya Israeli kuwekeza kwe-

nye shamba la ekari 1,000 (400ha) eneo la Naivasha kwa kilimo cha parachichi kwa ajili ya soko la nje.

Shamba kubwa la Granot International chini ya mradi wa Evergreen linakusudia kupanda miti 300,000 ya parachichi katika eneo la Ndabibi, Naivasha, ambapo zao hilo litauzwa katika soko la kimataifa.

Shamba hilo lililo-tayarishwa kupitia uwekezaji wa awali wa zaidi ya Sh bilioni moja litaiweka Kenya katika ramani ya dunia katika uzalishaji wa parachichi, na kuongeza mapato ya nchi na kuunda zaidi ya ajira 1,000 kwa wenyeji.

Hatua hii inakuja baada ya maafisa wa Wizara ya Kilimo kutembelea Israel kwa mafunzo mapema mwaka huu kuhusu njia bora za kilimo na matumizi ya teknolojia ya kisasa katika kumimarisha uzalishaji wa parachichi wa ndani kwa ajili ya kuuza nje.

Granot International, ambayo inazalisha thuluthi moja ya mavuno yote ya parachichi ya Israel, inaleta utaalum wake wa miaka 70 na teknolojia ya kisasa katika kilimo cha parachichi wakati nchi inataka kuongeza mapato yake kutoka Sh 15 bilioni za sasa hadi Sh 30 bilioni kwa mwaka ndani ya miaka mitano ijayo.

Kulingana na Afisa Mtendaji Mkuu wa shamba hilo, Giyora Merom, wamewekeza mamilioni ya fedha katika kuchangamsha uwezo wa ndani huku wakinufaika

na gharama ya uzalishaji nchini ambayo ni ya chini ikilinganishwa na maeneo mengine kama Chile, Peru, na Uhispania.

"Gharama za uzalishaji nchini Kenya ni ndogo ikilinganishwa na nchi nyingine ambazo kwa kiasi kikubwa zimeathiriwa na mabadiliko ya hali ya hewa na bei kubwa ya mafuta duniani," alisema Merom.

Merom alisema shamba hilo lenye hali nzuri ya kilimo limetumia teknolojia ya hivi karibuni katika kilimo na zaidi ya miche 300,000 linatarajiwa kuongeza mavuno kwa mahitaji ya matunda kwenye soko la kimataifa.

Balozi wa Israel nchini Kenya, Michael Lotem, alisema ushirikiano na serikali ya Kaunti ya Nak-

**Mpango huu umeund nafasi 1,000 za ajira kwa wenyeji na wengine 3,000 wataajiriwa**

uru umewezesha uwekezaji wa mamilioni ya fedha ambao unatarajiwa kubadili mustakabali wa jamii za eneo hilo na wahusika wengine katika sekta hiyo.

"Mpango huu umeunda ajira 1,000 kwa wenyeji na itaajiri wengine 3,000 katika miaka ijayo wakati shamba litakapofikia uzalishaji wa kiwango cha juu," alisema balozi huyo.

Alisema serikali ya Israel itashirikiana na Kaunti ya Nakuru kuongeza eneo la uzalishaji na kuwafundisha wakulima katika eneo hilo kuhusu teknolojia ya hivi karibuni katika kilimo ili kuongeza mavuno, uzalishaji, na mapato yao.

**PUBLIC NOTICE**

**CALL FOR COMMENTS FOR THE DEVELOPMENT OF  
THE NATIONAL ELECTRIC MOBILITY POLICY**

The Cabinet Secretary, Ministry of Roads and Transport on 4th August 2023, through Gazette Notice Number 10132 of 2023 established the Taskforce on the Development of National Electric Mobility Policy, Strategy, Legislations and Regulations (the e-Mobility Taskforce).

Increasing levels of pollutant emissions are of global concern. Promotion of e-mobility is one of the strategies being adopted worldwide to combat Green House Gas (GHG) emissions and resultant climate change. At present, Kenya's Transport Sector is heavily reliant on fossil fuel and following the Paris Climate Agreement of 2015, Kenya made a commitment to reduce emissions by 32% by 2030. This target can be achieved if Kenya transitions to zero emission vehicles (electric vehicles, motor cycles, and vessels) in Kenya.

The overall objective of the e-Mobility Taskforce is to develop a National Electric Mobility Policy (the e-Mobility Policy) covering all modes of transport (road, air, rail, and maritime) to create an enabling environment for the development, growth and adoption of electric vehicles in Kenya. The following are the key objectives of the e-Mobility Policy to:

- Steer Kenya's economy to a desired low carbon climate resilient development pathway and guide the development of e-Mobility in the country;
- Provide strategic direction in order to create an enabling environment that will enhance uptake of electric vehicles and related e-Mobility infrastructure in the country;
- Provide policy guidance to the county governments on how to promote e-Mobility in their devolved functions;
- Recommend transitional measures for the adoption of electric vehicles;
- Recommend fiscal and non-fiscal incentives for the e-Mobility sector including importation, local manufacture, assembly and e-mobility infrastructure;
- Provide a framework for the end of life and disposal of electric vehicles and accessories in line with Sustainable Waste Management Act, 2022;
- Provide a framework for the development of carbon credits emanating from the e-mobility sector;
- Provide a framework for initiation, development and implementation of standards and best practice in respect of the e-mobility value chain; and
- Provide a framework for monitoring the impact of this policy implementation economically and environmentally.

Guided by Article 10 of the Constitution of Kenya that enshrines public participation as a national value, including in the development and formulation of national policies, the e-Mobility Taskforce hereby invites stakeholders, members of the public and all interested parties to provide:

i) suggestion(s)/issues to be addressed; ii) views and inputs; and iii) recommendation with justification on the policy that the e-Mobility Taskforce should take into consideration when developing the e-Mobility Policy.

Written submissions should be clearly marked "Submission of Memoranda for the Development of the National e-Mobility Policy" and submitted no later than **29th September 2023** through the email address [emobilitytaskforce@transport.go.ke](mailto:emobilitytaskforce@transport.go.ke) or hand-delivered to the following address:

# Wakopeshaji 21m wapigwa jeki na Hustler Fund kwa mikopo ya Sh 31b

NA ROSELYNE KAVOO (KNA)

Hustler Fund imetoa mikopo ya Sh35 bilioni kwa Wakenya milioni 21 tangu kuanzishwa kwake.

Mwenyekiti wa Bodi ya Mamlaka ya Wajasiriamali wa Biashara Ndogo na za Kati (MSEA), James Mureu, alisema kati ya Sh35 bilioni zilizokopwa, Sh25 bilioni zimerudishwa, na Wakenya milioni 7.5 wamekopa mara zaidi ya moja.

"Idadi ya wakopaji wa mara kwa mara inaonyesha jinsi mfuko huu ulivyo maarufu kwa Wakenya kutokana na kiwango cha riba cha chini. Pia inaonyesha kuwa, mfuko huo ni chanzo chenye thamani cha mikopo kwa wakopaji," alisema.

Mwenyekiti huyo wa bodi alibainisha kuwa kupitia Hustler Fund, Wakenya wengi ambao hawakuweza kupata mikopo kutokana

**Mwenyekiti wa Bodi ya MSEA James Mureu akiongea wakati wa maonyesho ya ubunifu katika Machakos University.**

na masharti makali kama dhamana sasa wanaweza kukopa kulingana na hadhi yao ya mkopo.

"Tunawafanya wasio na benki kuwa na benki kwa kusitisha suala la wakopaji kuombwa dhamana na kuzingatia hadhi yao ya kuchukua mkopo," Mureu aliongeza.

Alisema kauli mbiu ya Hustler Fund inategemea

azma ya wakopaji kulipa deni.

"Wito wetu ni lipa deni lako ili kuboresha alama yako ya mkopo na kupata mkopo zaidi," alisema mwenyekiti huyo wa bodi.

Mureu alisema hayo wakati wa Maonyesho ya Biashara na Ubunifu wa Chuo Kikuu cha Machakos 2023 na kutuliza hofu ya kutulipa kwa mfuko huo, akisema Wakenya wengi hulipa pesa wanazokopa.

Alitaka vyuo vikuu vya Kenya kubadilisha mtaala wao ili kutoa wahitimu wenye ujuzi unaohitajika katika masoko ya ndani na kimataifa.

"Kwa muda mrefu, Kenya imekuwa ikiuza bidhaa kama chai na kahawa, lakini wakati umefika wa sisi kuanza kuuza rasilimali ya ujuzi wa watu wetu," alisema mwenyekiti huyo.

# Wizara kuendesha kampeni ya chanjo ya polio kaunti 10 hatarini ya maambukizi

NA JOSEPH NG'ANG'A (KNA)

Wizara ya Afya itazindua kampeni ya chanjo dhidi ya polio katika kaunti kumi zenye hatari kubwa ya maambukizi ya polio nchini.

Katibu wa Afya wa Umma na Viwango vya Wataalamu Bi. Mary Muthoni Muriuki alisema, hatua hiyo inafuatia visa sita vya polio vilivyogunduliwa miongoni mwa watoto katika Kambi ya Wakimbizi ya Hagadera

Kaunti ya Garissa.

Bi. Muriuki, aliyekuwa akizungumza wakati wa mkutano wa wadau wa kitaifa kuhusu kampeni ya dharura ya chanjo dhidi ya polio, alisema kupitia shughuli za uchunguzi wa kawaida kwa umakini, wafanyakazi wa afya walibaini visa hivyo kwa kuchambua sampuli za kinyesi zilizo chukuliwa kutoka kwa watoto walioathirika na

kuzituma kwa Taasisi ya Utafiti wa Tiba ya Kenya (KEMRI).

"Sampuli zilipimwa na kuonyesha uwepo wa virusi vya polio. Uchunguzi zaidi uliofanywa huko Atlanta, Amerika, ulithibitisha kufanana kwa virusi na aina inayosababisha mlipuko katika nchi jirani," Bi. Muriuki alisema.

Katibu alisema, ili kujibu changamoto hizi mpya,

Wizara ya Afya imechukua hatua za haraka na kubainisha kaunti kumi zenye hatari kubwa ya kuenea kwa polio, yaani Nairobi, Kiambu, Kajiado, Garissa, Kitui, Machakos, Tana River, Lamu, Wajir, na Mandera kama vitovu vya kampeni ya dharura ya chanjo dhidi ya polio.

"Kampeni hii ya raundi tatu ambayo inalenga kufikia watoto milioni 7.4

**Katibu wa Afya n Viwango vya Kitaaluma Bi Mary Muthoni Muriuki akihutubu Nairobi wakati wa mkutano wa kitaifa wa wadau kwenye kampeni ya dharura ya chanjo dhidi ya Polio. Picha na Joseph Ng'ang'a/KNA.**

walio chini ya umri wa miaka mitano katika raundi

tatu itazinduliwa katika Hospitali ya Ruiru Level 4, Kaunti ya Kiambu," alisema.

Bi. Muriuki aliongeza kuwa, raundi ya kwanza ya kampeni ilipangwa kufanyika kuanzia Agosti 24 hadi Agosti 28, 2023, ikilenga awali Kaunti za Kiambu, Nairobi, Kajiado, na Garissa, "ambapo tunalenga kuwachanja watoto takribani milioni 1.8."

"Baadaye, raundi ya pili na ya tatu italenga watoto milioni 2.8 kila moja. Zita-fanyika kati ya Septemba na Oktoba 2023 katika kaunti kumi."

# Serikali kupeleka wataalamu kunoa wachimba migodi kutumia vilipuzi

NA WAGEMA MWANGI(KNA)

Kuwa mchimbaji wa madini ya vito katika maeneo ya Taita-Taveta County ni kuishi katika mazingira ya hatari.

Kwa miaka kadhaa, ahadi ya utajiri mkubwa uliofichwa chini ya ardhi hii ngumu imechochea moto wa milele unaowaka kwa nguvu katika kila moyo wa mchimbaji.

Kwenye mapambazuko ya asubuhi, majeshi ya wachimbaji wa madini waliovaa mavazi yaliyochakaa huzinduka ili kuchimba kwa kina ndani ya utumbo wa ardhi katika utafutaji usio na mwisho wa utajiri mkubwa ulioko kwenye ganda la ardhi.

Mara nyingine, wakati ardhi inapokubali, wachimbaji wachache wenye bahati wanakuwa mamilionea mara moja. Walakini, hatari zinazohusika katika kutafuta madini haya ni kubwa.

Kazi ngumu chini ya mazingira magumu katika eneo lenye changamoto, wachimbaji lazima pia wapambane na joto kali kutoka kwa jua na upepo mkali. Msitu karibu na migodi inajaa tembo wa porini, wakati ardhi ina nyoka wenye sumu na nge wanaoweza kuwa na sumu hatari.

Wanapokuwa chini ya ardhi, wachimbaji wanakabiliwa na hatari ya kubomoka kwa vituo vya kuchimbika na kuteseka kutokana na masaa marefu ya kufanya

Wachimba migodi waingia ndani ya mgodi katika kaunti ndogo ya Mwatate.

Wachimba migodi katika eneo la Chawia, Mwatate watumia nyundo kupasua jabali wakitafta vito madini.

kawaida. Wengine wamejeruhiwa vibaya na milipuko mikubwa, wakati wengine wenye bahati hawakufa lakini wanabakia na majeraha yanayohatarisha maisha.

"Kumekuwa na ajali na majeraha. Maisha yamepotea," anakiri Bw. David Zowe, Mwenyekiti wa Kaunti wa Chama cha Wachimbaji Madini ya Taita-Taveta.

Data sahihi kuhusu vifo

kazi katika mashimo madogo yasiyo na mwanga yaliyo mamia ya futi chini ya uso wa ardhi.

Walakini, matumizi ya vilipuzi bado yanaweza kutajwa kuwa ni hatari

kubwa zaidi. Matumizi ya vilipuzi ni suala lenye utata katika migodi, na hadithi za kutisha na za kusikiti-sha za wachimbaji kufa kutokana na vilipuzi visivyofanya kazi vizuri ni za

vinavyosababishwa na utunzaji mbaya wa vilipuzi ni ngumu kupatikana. Wachimbaji wanakataa kuzungumzia wenzao walioiokufa, na vifo kutokana na majanga kama hayo hurekodiwa kimya kimya kama ajali za kawaida za uchim-baji madini.

Hii inaepuka uchunguzi na maswali yanayoweza kuwa magumu kutoka kwa mamlaka.

Kutokana na kuwa ni kitu chenye kudhibitiwa kwa kiasi kikubwa, matumizi ya vilipuzi katika migodi ni haramu. Maafisa wa madini wanatoa mfano wa hatari kubwa inayohusiana na watu wasio na mafunzo kushughulikia vifaa hivyo hatari.

Kwa sasa, hakuna wataalamu wa vilipuzi waliosajiliwa au waburuzaji wenye leseni katika eneo hilo. Walakini, matumizi ya vilipuzi na wachimbaji wenye shida yanaendelea bila kikomo.

Makombora yanatawaliwa na wachimbaji wachache waliyojifunza wenyewe ambao, ingawa hawana leseni, wamepata utaalam fulani katika sanaa ya kutumia vilipuzi. Uzoefu wao unatokana na muda uliotumika kutazama wengine wakitumia vilipuzi, na hivyo wanakuwa ndio wenye mahitaji zaidi na wanatoza ada kubwa.

**Kumekuwa na ajali na majeraha. Watu wamepoteza maisha yao-Zowe**

Licha ya hatari kubwa kama hizo, wachimbaji wa madini wanajitolea kutumia vilipuzi.

Kwa sababu hawana vifaa vya kisasa vya kuvunja miamba mikubwa, wanauchukulia vilipuzi kama mwokozi pekee anayeweza kuwasaidia kupita kwenye vizuizi vigumu ambavyo havina utulivu dhidi ya mashambulizi ya marungu madogo na visu.

"Mawe haya ni magumu sana. Hawana vifaa vizito vya kuvunja vizuizi kama hivyo. Wanakutana na chaguo lisilowezekeka la kuhatarisha matumizi ya vilipuzi au kutoka na kurudi nyumbani bila chochote. Ikiwa unatumia miaka kadhaa kuchimba na kisha kukutana na mwamba mkubwa unaokujiua kwenye handaki lako, unagundua kuwa kuacha sio chaguo," anasema Bw. Zowe, akielezea hali ya kukata tamaa ya wachimbaji.

Wachimbaji walio na habari kuhusu utumiaji wa vilipuzi wanasema, vilipuzi vinavyotumiwa sana ni amonium nitrate, mara nyingi vinapatikana kwa njia haramu kutoka Tanzania.

Ingawa vimekusanywa kwa ubabaishaji, kifaa hicho kina ufanisi na mara nyingi kinawafanyia kazi wachimbaji. Wanapobomoa, wachimbaji wanarudi kwenye eneo salama nje ya eneo la mlipuko ili kuepuka majeraha yanayosababishwa na vipande vya risasi vinavyoruka na vifusi vina-vyoanguka. Maafa hutokea ikiwa mchimbaji anatumia kamba fupi inayowaka haraka sana kabla ya kufika kwenye eneo salama.

## Serikali yaanzisha kampeni ya kutoa chanjo ya polio katika kaunti nne hatarini kuathiriwa

NA MUOKI CHARLES (KNA)

Serikali imezindua kampeni ya chanjo ya polio katika kaunti nne za Kiambu, Nairobi, Garissa, na Kajiado baada ya mlipuko wa ugonjwa huo kuripotiwa sehemu fulani za nchi.

Kampeni ya siku tano iliyoanzishwa katika Hospitali ya Ruiru Level 4, Kaunti ya Kiambu, itatekelezwa katika awamu tatu, na awamu ya kwanza itawalenga zaidi ya watoto milioni 1.8 walio chini ya miaka 5.

Waziri wa Afya Susan Nakhumicha alisema, hatua hiyo inakuja baada ya kuripotiwa kwa visa sita katika Kaunti ya Garissa, ambavyo vyote vina uhusiano na virusi vilivyogunduliwa katika nchi jirani. Alisema awamu ya pili

Mtoto apokea chanjo ya polio katika Ruiru Level 4 Hospital wakati wa uzinduzi wa kampeni ya kitaifa ya chanjo dhidi ya ugonjwa huo.

na ya tatu itatekelezwa Septemba na Oktoba 2023, ikilenga zaidi ya watoto milioni 5.6 katika kaunti hizi nne na nyingine sita za Lamu, Tana River, Wajir, Mandera, Kitui, na Machakos. Dkt. Nakhumicha alisema vikosi vya chanjo vitatembea nyumba hadi nyumba, kuwachanja watoto wote walio chini ya miaka 5 bila kujali hali yao

ya chanjo ya sasa.

Aidha, kwa kuongezea mkakati huu, alisema watoto wote wanaotafuta matibabu katika vituo vya afya kwa hali nyingine za ugonjwa watapewa chanjo.

"Baadhi ya makundi ya kutoa chanjo yatapelekwa moja kwa moja kwenye vituo vya muda kama shule na makanisa, vituo vya

usafiri, na majengo marefu katika maeneo ya mijini ili kuhakikisha hakuna mtoto anayestahiki anayechwa," alisema.

Waziri wa Afya alihakikishia kuwa chanjo zinazotumiwa wakati wa chanjo zimejaribiwa na kupitishwa na Shirika la Afya Duniani (WHO), Bodi ya Dawa na Sumu (PPB), na Maabara ya Udhambi wa Ubora wa Kitaifa (NQCL).

Alisema ni chanjo ile ile inayotumiwa ulimwenguni, na ni salama na yenye ufanisi. "Kwa hiyo, nawasilihi wazazi wote, walezi, mashirika ya kiraia, na jamii wanaoishi katika maeneo ambayo kampeni itafanyika, kusaidia jithada zetu na kuhakikisha kuwa watoto wote walio chini ya miaka 5 wanapata chanjo ya polio," alisema.

# Mipango mahususi ya kuvutia watalii kupitia meli za kifahari

NA CHARI SUCHE (KNA)

Serikali inafanya kila iwezano kuboresha huduma za safari za meli za kifahari za kitalii kwa wageni wa kimataifa.

Akizungumza wakati wa ziara ya MV Logos Hope katika Bandari ya Mombasa, Waziri wa Utalii, Wanyama wa Porini, na Utamaduni Bi. Peninah Malonza alisema kuwa, mikakati hiyo ni sehemu ya mipango kubwa ya miundombinu ambayo inajumuisha viwanja vya ndege vilivyoboreshwa na mtandao wa barabara, yote ikiwa imeundwa ili kuongeza ladha kwa ziara za watalii Kenya.

Bi. Malonza alisema kuongezeka kwa mashua za kitalii kama MV Logos Hope kunadhihirisha mvuto wa Kenya, hivyo kuna haja ya kupanua vivutio vya utalii wa kitalii na Mombasa kutambua hadhi yake muhimu. "Ardhi yetu inajivunia vivutio mbalimbali - safari za wanyama porini, michezo ya majini, utajiri wa tamaduni, na fukwe zenye utulivu. Vivutio hivi vya kipekee tayari vime-

sababisha wageni kurudi, kama ilivyokuwa mwaka jana na MV World Odyssey, ikionyesha hadhi yetu inayooongezeka kama kitovu cha utalii," Malonza alisema. Katika msimu wa hivi karibuni wa utalii wa mei za kifahari ulioisha mwezi Aprili mwaka huu, Bandari ya Mombasa ilipokea meli nne za kifahari zikiwa na zaidi ya abiria 4,000.

Msimu ujao wa utalii wa kitalii wa meli za kifahari unaanza Septemba.

Waziri alibainisha kuwa safari za meli za kifahari za kitalii ni za kuvutia sana na kuongeza kuwa kabla ya janga la Covid-19, biashara ya meli hizo za kitalii ilizalisha zaidi ya Sh 2.2 trilioni na kuwahudumia karibu abiria milioni 30 ulimwenguni kote.

Alisema nchi sasa iko tayari kukidhi mahitaji mapya ya utalii kutokana na na ujenzi wa kituo cha kitalii cha mamilioni ya pesa katika Bandari ya

**Meli ya kifahari ya MV. Westerdam**

Mombasa.

Alisema uzinduzi wa kituo cha kitalii cha Mombasa ni hatua kubwa ya Kenya katika soko hili la kuvutia.

Mkurugenzi Mkuu wa Mamlaka ya Bandari ya Kenya Kapteni William Ruto alisema wamefanya kazi kwa karibu na wadau wa utalii katika eneo hilo chini ya uongozi wa Chama cha Cruise Africa na Usimamizi wa Bandari ya Afrika ya Mashariki na Kusini

(PMESA) ili kuimarisha Bahari ya Hindi kama kivutio cha meli za kitalii.

Edward David Whonis, mkurugenzi wa MV Logos Hope, alisema wito wao ni kuleta tofauti katika ulimwengu na kwamba, mradi huo ni kukuza ustawi wa watu kila mahali wanapokwenda. MV Logos Hope, maktaba kubwa inayosafiri duniani inayojulikana kama 'maktaba inayosafiri,' ilifunga nanga Mombasa Jumanne na inatarajiwa ku-

wepo katika eneo hilo kwa siku 45. Meli hii imefungua milango yake kwa umma kuchagua vitabu vyenye aina mbalimbali zaidi ya 5,000 ikiwa ni pamoja na sayansi, michezo, shughuli za burudani, lugha, imani, upishi, sanaa na tiba.

Kwa kipindi cha mwezi mmoja na nusu, Wakenya watapata fursa ya kutembelea meli kubwa na kuchunguza huduma nyingine kwa kiingilio cha Shilingi 50.

Jukumu kuu la shirika hili ni, "Kutoa mazingira yafaayo kwa utunzaji endelevu, ukiwemo uhifadhi na matumizi bora ya rasimali za misitu kwa ustawi wa kijamii na kiuchumi wa nchi na malengo sawa na hayo."

KFS iliendesha Tathmini ya Athari ya Kijamii na Kimazingira (ESIAs) kwa Mradi wa Usimamizi wa Misitu mikubwa ya Serikali katika maeneo tisa ya msitu ikiwa ni pamoja na Mt. Kenya, Aberdares, Mau, Cherangany, Kakamega, Mt. Elgon, Machakos, Makueni na Kitui kati ya 2014 na 2016.

Ripoti kutoka kwa ESIAs ziliwasilishwa kwa NEMA kwa uchunguzi na leseni kupeanwa. Shughuli zote za usimamizi wa misitu mkubwa katika kila eneo misitu zilianza katika muda uliowekwa kwa leseni za EIA. Kama sehemu ya masharti ya leseni za EIA, KFS ilianzisha ukaguzi wa kimazingira (EAs) katika usimamizi wa misitu mikubwa katika maeneo husika ya misitu.

# Mpango wa kuboresha msitu wa Maragoli Hills wasaidia kuinua hali ya maisha ya wanakijiji

NA ROBERT OJWANG(KNA)

Uhifadhi wa Msitu wa Maragoli Hills na Wizara ya Nishati utatekeleza jukumu muhimu katika kubadilisha maisha ya wakazi pamoja na kuongeza kiasi cha miti katika vilima vilivyokuwa vimiharibika, vyenye ardhi chache na miamba.

Katibu wa Nishati Mbadala katika Wizara ya Nishati, Isaac Kiva, wakati wa ziara yake msituni, alisifu maendeleo ya mpango huo.

Alisema Wizara ya Nishati, kupitia Mfuko wa Mpango wa Sekta ya Nishati ya Kenya kwa Mazingira na Jukumu la Kijamii (KEEP), inatekeleza miradi ya urekebishaji katika minara ya maji mbalimbali nchini kuelekea kufikia lengo la serikali la angalau 30% ya ardhi kuwa misitu ifi-

kapo 2032.

Alisema Idara ya Nishati kwa kushirikiana na washirika wengine wa maendeleo walichukua hekta 150 za msitu mkubwa wa Maragoli Hills Forest katika Kaunti ya Vihiga kwa ajili ya kupanda na kutunza miti na kuhifadhi chemichemi za maji.

Zoezi hili, alisisitiza, limeleta fursa za ajira moja kwa moja kwa zaidi ya watu 800, wanaume na wanawake wakifanya kazi kama vibarua na vijana kama walinzi. Wote wanafanya kazi katika maeneo 14 ya uhifadhi yanayozunguka vilima vya Maragoli.

Hii, aliongeza, imechangia sana kupunguza umaskini na kuboresha ubora wa maisha kwa wanajamii wenye kipato cha chini. Kiva aliongeza kuwa, walivutiwa na nia ya jamii kushiriki katika mpango wa kurudisha eneo kubwa la ukamataji maji lililokuwa hapo awali.

"Wakazi wanaoishi karibu na eneo la ukamataji maji wamekuwa sehemu muhimu ya mipango ya kurejesha msitu.

Katibu wa Kawi Safi katika Wizara ya Kawi Mha Isaac Kiva apanda mti katika msitu wa Maragoli Hills hivi majuzi Picha na Robert Ojwang'

Tumeamua kufanya kazi na Chama cha Msitu cha Jamii (CFA) ili kusaidia kulinda msitu dhidi ya uharibifu zaidi na uvamizi kwa ajili ya kudumisha mpango huu," alisema Kiva.

Mpaka sasa, aliongeza, CFA imepanda miche ya

miti ya asili 222,800 kwenye hekta 138 kati ya hekta 150 zilizochukuliwa katika awamu ya kwanza ya mradi huo. Esther Kadi, mkazi wa kijiji kilicho jirani na Msitu wa Maragoli Hill, ni mmoja wa vibarua walioajiriwa kupanda miche ya miti ka-

tika eneo la uhifadhi.

Mama huyu mwenye nguvu na watoto sita anathamini mpango wa urejesho na kuiita kuwa mwokozi wa maisha yake na wakazi wengine kwa fursa ya kupata kipato wakati huu wa changamoto za kiuchumi.

"Napongeza serikali kwa kuleta mpango unaomsaidia moja kwa moja mwananchi wa kawaida. Nimefaidika sana kufanya kazi katika eneo hilo, nimepata pesa ambazo zimesaidia kununua chakula kwa familia yangu na kulipa ada za shule za watoto wangu," alisema Kadi kwa furaha. Kwa upande wake, George Aimo, Meneja wa Kituo cha Msitu wa Maragoli Hills, alielezea athari za hatua za kubadilisha za Wizara ya Nishati.

Alisema, "Kabla ya kuhusika kwa Wizara ya Nishati, vilima hivyo vilikuwa kero. Awali, vilikuwa bila miti na vilima vilionekana vikiwa na miamba inayoonekana. Hata hivyo, miti na mimea imekua vizuri kwenye sehemu iliyo-chukuliwa.

## Wizara ya EAC, KVDA kupanda miti

NA EKWAM SILVESTER(KNA)

Wizara ya Jumuiya ya Afrika Mashariki (EAC), Maendeleo ya Maeneo Kame, na Mamlaka ya Maendeleo ya Bonde la Kerio (KVDA) wameshirikiana kwa pamoja katika kupanda miti katika sehemu mbalimbali za kaunti 23 zenye ardhi kame ili kufanikisha mpango wa Rais wa kupanda miti bilioni 15 ifikapo 2032.

Akizungumza alipokuwa akihudhuria kampeni ya upandaji miti katika Shule ya Msingi ya Oasis, Kata ya Race Course, Wilaya ya Kes- ses, Kaunti ya Uasin Gishu, Waziri wa EAC, Rebecca Miano, alisema uhifadhi wa mazingira ni muhimu na watu wanapaswa kulinda na kuhifadhi mazingira ili kuhakikisha mahali pazuri pa kuishi pamoja na kupunguza athari za mabadiliko ya hali ya hewa.

Miano alibainisha kuwa kupitia Idara ya Uhifadhi wa Mazingira ya KVDA, wizara ina mpango wa kupanda miti milioni sita kuanzia Julai 2023 hadi Juni 30, 2024.

Napongeza serikali kwa mpango huu unaokweza wenyeji mashinani

## Serikali yatoa tani 17 za mbegu za pamba ya BT kuinua sekta ya nguo

NA WANGARI  
NDIRANGU(KNA)

Serikali imepeleka tani 17 za mbegu za pamba za BT kwa Kaunti ya Busia ili kukuza uzalishaji wa pamba na kufufua sekta ya nguo katika eneo la Magharibi mwa Kenya.

Kulingana na Shirika la Utafiti wa Kilimo na Mifugo la Kenya (KALRO), Mradi wa Pamba wa Busia utatumika kama kigezo katika mpango wa serikali wa kuongeza mavuno na kuimarisha mfumo mzima wa kuboresha ya kilimo nchini.

Shirika la KALRO pia linajitahidi kuweka mfumo wa kwanza kabisa wa mbegu zilizothibitishwa za pamba nchini. "KALRO tayari imetoa jina kwa mbegu ya pamba ambayo imethibitishwa na hivi karibuni itaweza kuwapa wakulima wote wa pamba mbegu hizo," alisema Teresa Okiyo, mtafiti wa mimea anayesimamia Programu ya Utafiti wa Pamba katika kituo cha KALRO KIBOS.

Alielezea kuwa, mnamo 2017, serikali ya Kenya kupi-

Vincent okumu, mkulima kutoka Chama cha Ushirika cha Bwiri, kaunti ya Samia apokea ushauri kuhusu uzalishaji wa pamba kutoka kwa mtafiti wa KALRO shambani mwake

tia Idara ya Mazao ya Nyuzi ya KALRO kwa kushirikiana na Shirika la Brazil na nchi nyingine katika eneo hilo ikiwemo Tanzania na Burundi walishirikia

**KALRO tayari ina mbegu ya pamba iliyodhinishwa yenye nembo yake-Dkt Okiyo**

katika mradi uliopewa jina "Cotton Victoria" uliolenga kuboresha ushindani katika sekta ya pamba, ujenzi wa uwezo, na mafunzo ya jinsi ya kuzalisha mbegu bora. "Kupitia mradi huu, walikuwa na uwezo wa kufanya utafiti wa uwezekano wenye maarifa mengi, na KALRO imeanza kuendeleza aina walizokuwa nazo, kama vile aina za KSA 81M na Hart 89M zinazofaa kwa maeneo ya ikolojia ya Magharibi na

Mashariki mwa Kenya mta-walia," alisema.

Mwaka huu, ntafiti huyo alisema KALRO imelima ekari 14 za mbegu katika kituo cha Kibos na katika kituo cha Mwea ekari 20 ambazo zitazalisha mbegu ya kizazi cha kwanza chenye ithibati. "Tulianza kufunga mbegu za kizazi cha awali kuelekea uzalishaji wa mbegu zilizothibitishwa na mnamo 2018, tulifanya kizazi cha kwanza na mwaka wa 2019 pia, lakini mwaka huu tulifanikiwa kutoa jina kwa mbegu ya pamba iliyothibitishwa na tunaamini kuwa, kwa wakati tutaweza kutoa mbegu kwa wakulima wote," alisema.

Walakini, alibainisha kuwa, mbegu walizopanda katika vituo vyao zitazidishwa pamoja na wakulima wanaofanya uzid-uaji. "Mradi huu utasimamisha mfumo wa mbegu mzima kwetu, wa kwanza nchini baada ya zaidi ya miaka 100 tangu pamba ianzishwe na nadhani hii ni faida halisi kwetu kushiriki katika mradi huo," alisema Okiyo.

## Wakulima 7,000 kunufaika na mpango wa upimaji udongo Kisumu kuimarisha uzalishaji

NA CHRIS MANDARA (KNA)

Zaidi ya wakulima 7,000 katika Kaunti ya Kisumu watapata faida kutoka kampeni ya bure ya upimaji wa udongo wa haraka ili kuwawezesha kuchukua hatua za kurekebisha ili kuongeza uzalishaji wa chakula katika eneo hilo. Zoezi hili, linaloongozwa na Mradi wa Masoko na Mifumo ya Mazao na Maziwa ya Kenya (KCDMS), lengo lake ni kuwapa wakulima habari sahihi kuhusu lishe ya udongo ili waweze kufanya maamuzi ya busara kuhusu rutuba ya udongo na uchaguzi wa mazao.

Hii inafuatia matokeo ya sampuli za udongo kutoka sehemu mbalimbali za kaunti kugundua kuwa, udongo ulikuwa wa asidi na hivyo kusababisha mavuno mabaya. Mkurugenzi wa Ufundu wa KCDMS, Bw. Seth Yake, alisema kampeni hii inalenga kuwaelimisha wakulima kuhusu

Mkurugenzi wa Kiufundi katika KCDMS Seth Yake ahutubia waandishi habari wakati wa uzinduzi wa mpango huo

umuhimu wa upimaji wa udongo ili kuelewa kina-chohitajika kupata mavuno bora. Alisema ingawa matumizi ya mbolea katika eneo hilo yalipongezwa, wakulima walikosa habari sahihi kuhusu aina sahihi ya mbolea kwa udongo wao ili kuboresha mavuno. "Tumeona kutoka kwa vipimo vilivyofanywa katika eneo hili kuwa udongo una

asidi nyingi. Hii inamaanisha wakulima lazima wachukue hatua madhubuti za kurekebisha hali hii kwa kuboresha pH hadi kiwango kinachohitajika ili kuongeza uzalishaji," alisema.

Akizungumza wakati wa uzinduzi wa kampeni hiyo Kisumu, Yake alisema zoezi hili litakaloendelea hadi Septemba 14, 2023 litawasaidia wakulima kuelewa

vizuri udhaifu wa udongo wao na kuchukua hatua za kurekebisha. Mbali na Kisumu, alisema upimaji huo pia unafanyika katika kaunti za Kisii, Kakamega, Busia, Bungoma, Vihiga, na Siaya.

Mkondo wa kampeni, alisema, utahusisha kuanzisha vituo vya upimaji wa udongo katika kaunti zote saba. Vituo hivyo, alisema, vitasimamiwa na wataalamu wa kilimo na vitatoa ripoti za udongo za papo hapo na mapendekezo kwa wakulima.

Alifichua kuwa, kampeni inalenga kupima angalau sampuli 200 kwa kila kata katika Kisumu na kutoa matokeo kamili kwa wakulima. Afisa Mkuu wa Kaunti ya Kisumu anayehusika na Kilimo, Erick Omondi, alisema kampeni hii inatarajiwa kuzuru kuta zote 35 katika eneo la serikali ya ugatuzi na kuwaelimisha na kuwafundisha wakulima kuhusu upimaji wa udongo.

## KWA UFUPI

### KIE kufungua matawi kaunti kosisimua uchumi

Shirika la Viwanda la Kenya (KIE) litakamilisha ujenzi wa ofisi katika kila kaunti ili kukuza viwanda katika ngazi ya mashinani. Hatua hiyo inalenga kutoa fursa za mikopo na ujuzi wa kiufundi kwa wajasiriamali wadogo na wa kati. Kulingana na Katibu wa Maendeleo ya Biashara Ndogo na za Kati (MSMEs), Bi Susan Mang'eni, ofisi za KIE zilizopendekezwa zitatoa ujuzi na huduma za mikopo kwa wawekezaji wadogo na wa kati ili kuwezesha uanzishaji wa viwanda katika ngazi ya kaunti. Bi Mang'eni alisema KIE, ambayo hadi sasa imekuwa na ofisi Nairobi pekee, itatoa mchango mkubwa katika uchumi na kutoa fursa za ajira kwa vijana wa Kenya pamoja na kupanua fursa za uwekezaji kwa wajasiriamali wa ndani. Akiingia katika eneo la Gataanga, Murang'a, Bi Mang'eni alisema KIE ina uwezo wa kutoa mikopo inayofikia mamilioni ya shilingi kusaidia wazalishaji kuweka viwanda, haswa vile vinavyolenga kuongeza thamani kwenye mazao ya kilimo nchini. Katibu aliongeza kuwa, viwanda vilivyopendekezwa kuanzishwa katika kaunti vita-faidika sana na ofisi za KIE. "KIE ina jukumu la kukuza vi-

wanda vidogo na vya kati na kuzingatia uendelezaji wa viwanda vijijini na kwa kuanzisha ofisi katika kila kaunti, itawezesha wawekezaji watarajiwa kupata fedha, nafasi ya kufanyia kazi, huduma za maendeleo ya biashara na kuhamasisha viungo vya kandarasi kwa viwanda vikubwa ndogo na ya kati," alisema PS. Aliendelea kueleza:

"Kwa kutoa msaada wa kifedha na mwongozo wa wataalamu, KIE itasaidia ukuaji wa biashara katika ngazi ya msingi na kubadilisha eneo la kiuchumi la maeneo ya vijijini na hivyo kupunguza uhamiaji kutoka vijijini kwenda mijini kwa kuwa kutakuwa na ajira za kutosha kijijini," aliongeza. Bi Mang'eni kwa hiyo aliwahimiza wakazi, haswa wale katika maeneo ya vijijini kumbatia fursa zinazotolewa na serikali kwa maendeleo yao binafsi na kusaidia ukuaji wa maeneo ya vijijini.

Kuhusu Hustler Fund, Katibu alisema ni wakati wa wafaidika kuanzisha vikundi na kuomba fedha ili kuanzisha miradi ya pamoja ya maendeleo. Wakati wa hafla hiyo, Sh 4m za Mfuko wa Uwezo zilitolewa kwa vikundi 17 vipya na vikundi 15 kufadhiliwa tena. Na Bernard Munyao (KNA) na Bernadette Owade (PCO)

### Ujenzi wa bwawa Thwake kumalizika kwa wakati

Serikali itahakikisha ujenzi wa Bwawa la Thwake Multipurpose lenye urefu wa mita 80.5 unakamilika ifikapo Februari 6, 2024. Katibu wa Maji katika Wizara ya Maji, Usafi wa Mazingira, na Umwagiliaji, Mha. Samuel Alima, amesema serikali inafuatilia kwa karibu na kuharakisha ujenzi wa bwawa hilo ili kuhakikisha utoshelevu wa chakula katika eneo la Kusini Mashariki. "Hadi sasa, kuna maendeleo mazuri, tupo kwenye 84.4%, na inatarajiwa kwamba bwawa litakamilika ifikapo Februari 6, 2024," alisema Alima wakati akiingia na vyombo vya habari wakati wa ziara ya ufuatiliaji kwenye eneo la ujenzi. "Tunafuatilia kwa karibu mradi huu na kila mwezi tunafanya mkutano wa ana kwa ana kwenye eneo la ujenzi na kila Alhamisi tunafanya mikutano ya mtandaoni kuangalia ni nini kimezimizwa ili kuhakikisha bwawa linakamilika kwa wakati," alisema. Kwa hivyo, Katibu wa Maji alisema wameagiza mkandarasasi China Ghezoubha Group of Companies (CCCG) kuhakikisha ujenzi wa bwawa unaka-

milika kwa wakati uliopangwa. "Tumemwagiza mkandarasasi kuhakikisha kuwa bwawa lazima likamilike kwa wakati," alisema Alima. Hata hivyo, Alima alibainisha kuwa kujaza tani milioni 11 za vifaa kwenye ukingo mkubwa wa bwawa ni changamoto kubwa kwani inahitaji takriban miezi 3 kujaza mawe na mawe makubwa ambayo yanahitaji miezi mingine miwili kuweka. "Hili ni bwawa la kubuni lenye ukingo mkubwa, tani milioni 11 za vifaa zinawekwa kwenye ukingo hadi kilele na wanapaswa kupewa miezi miwili kuweka mawe," alisema. Bwawa sasa limejazwa na tani milioni 8 za mawe na mawe makubwa na tani milioni 3 zilizobaki zitakamilishwa ifikapo Novemba 2023. Alikuwa ameandamana na kikosi cha utekelezaji wa mradi, Mha. David Onyango, washauri wa SMEC wakiongozwa na Nicholas Rowse na Meneja wa mkandarasasi Li Shan. Kukamilika kwa bwawa hili kutawezesha usafishaji wa maji na usambazaji wa hadi mita za ujazo 150,000 ya maji kwa siku. Na Patrick Nyakundi na Ronald Rono(KNA)
