# Serikali yatenga Sh6.1b kwa uzinduzi mpya wa Mamlaka ya Afya ya Jamii

NA JOSEPH NG'ANG'A (KNA)

Serikali imetenga Sh6.1 bilioni kwa Mamlaka ya Afya ya Jamii (SHA), ambayo inatarajiwa kuzinduliwa Oktoba 1, 2024.

Katibu wa Baraza la Mawaziri la Afya Dkt. Deborah Barasa alisema kuwa SHA, ambayo itachukua nafasi ya Hazina ya Kitaifa ya Bima ya Hospitali (NHIF), inalenga kutoa huduma za afya zinazopatikana kwa bei nafuu, zinazoweza kufikiwa na bora kwa Wak-enya wote.

Akizungumza jijini Nairobi wakati wa mkutano wa kiamsha kinywa na wanahabari, Dkt. Barasa alitaja kuwa mpango wa manufaa wa SHA ume-kamilika, ingawa ufadhili wa sasa wa serikali unashughulikia asilimia nne pekee ya kiasi kinachohitajika.

Dk Barasa pia alibainisha kuwa wakati Sh6.1 bilioni zimetengwa kwa ajili ya SHA, hii ni sehemu tu ya Sh168 bilioni zina-

Waziri wa Afya Dkt Deborah Barasa

zohitajika kwa utekelezaji wake kamili.

“Kenya inatazamiwa kufanya maendeleo makubwa katika kufikia Huduma ya Afya kwa Wote (UHC) kwa kuzinduliwa rasmi kwa SHA. Ninataka kutoa hakikisho kwamba mamlaka mpya ya afya itaendelea kuboreka mfumo unapoendelea na ufadhili wa ziada kupatikana,” CS alisema. Alisema pamoja na kuzindua SHA, serikali inashirikiana na Safari-com kuweka huduma za afya kidijitali jambo ambalo litaimarisha ufanisi

na usimamizi wa data.

Dkt. Barasa alitambua uwepo wa changamoto za ufadhili lakini akasisitiza dhamira ya serikali ya kupunguza gharama za mfukoni na kuboresha huduma za afya.

Waziri huyo alisisitiza kwamba Kenya ina mafanikio chanya katika sekta ya afya katika mwaka wa hivi majuzi na kuongezeka kwa umri wa kuishi na viashirio vingine vya afya kama ushahidi.

Mkurugenzi Mkuu wa Afya Dkt. Patrick Amoth alisema SHA inajumuisha manufaa mengi kwa kuwa inatoa Wakenya wote kupata huduma za afya ya msingi na dharura, na inasisitiza huduma za kinga na ukuzaji. Dk. Amoth alisema kuwa SHA inatoa huduma mbalimbali kwa wagonjwa wa nje ikiwa ni pamoja na uchunguzi muhimu wa maabara kwa ugonjwa wa kisukari, shinikizo la damu, seli mundu na pumu miongoni mwa mengine.

# Bima mpya ya afya yatoa matumaini kwa wagonjwa 1m wa kansa

NA MUOKI CHARLES (KNA)

Mpango mpya wa Bima ya Afya utaghar- amia kikamilifu matibu ya saratani, na kutoa matumaini kwa zaidi ya Wakenya milioni moja wanaougua saratani.

Mkurugenzi Mkuu wa Afya Dk. Patrick Amoth alisema kuwa muundo wa huduma mpya ya matibabu umeboreshwa ili kuhakikisha kuwa maagizo yote kutoka kwa madaktari yanapatana na miongozo iliyotolewa na Mpango wa Kitaifa wa Kudhibiti Saratani. Wagonjwa watapokea matibabu ya kina bila kulipia gharama zozote za ziada za nje ya mfuko kwa familia zao. Aki- zungumza wakati wa uzinduzi wa Mwezi wa Kitaifa wa Kuwaelimisha Watoto kuhusu Saratani katika Hospitali ya Kufundisha, Utafiti na Ru- faa ya Chuo Kikuu cha Kenyatta (KUTRRH), ambapo pia aliagiza wodi ya watoto wanaougua saratani, Dkt. Amoth al- iwahimiza Wakenya ku-

jisajili na Mamlaka mpya ya Afya ya Kijamii (SHA) ili kupata huduma hiyo. bima mpya ya matibabu kabla ya kuchapishwa rasmi tarehe 1 Oktoba 2024. “Kama nchi, kila mwaka, Wakenya mil- ionni moja wako katika hatari ya kuwa maskini kutokana na gharama za matibabu ya kiafya, mo- jawapo ikiwa ni matibu- abu ya saratani. Mpango huu mpya utapunguza mzigo huu wa kifedha,” Amoth alisema. DG alisema takriban wag- onjwa wapya 3,000 wa saratani ya utotoni huri- potiwa kila mwaka huku kiwango cha uhai kikiwa ni asilimia 20 ikilingan- ishwa na asilimia 80 ka- tika nchi zilizoendelea, hali ambayo, alisema in- ahitaji kushughulikiwa.

Kuhusu hatua ili- yofikiwa na KUTRRH ka- tika kusimamia huduma za matibabu ya saratani kwa watoto na watu wa- zima, DG wa afya alisema hospitali hiyo imefa- nya kazi ya kupigiwa mfano kupitia vifaa vy-

ake vya kisasa na wafa- nyikazi wenye uwezo. Mwenyekiti wa Bodi ya Hospitali hiyo Prof Ol- ive Mugenda alimtaka Mkurugenzi Mkuu ku- harakisha ukamilishaji wa kitengo cha watoto katika hospitali hiyo.

Alisema kituo hicho chenye vitanda 300 ambacho kimekuwa kikijengwa kwa mi- aka sita iliyopita, ki- litengewa Sh500 milioni na fedha zaidi zinahita- jika ili kukamilisha. Prof Mugenda pia alifichua kuwa hospitali hiyo kwa ushirikiano na Chuo Kikuu cha Manchester imeanzisha utafiti ku- husu saratani ya umio, mradi ambao alisema unaendelea kwa sasa. “Sasa tunatoa PET-Scan, huduma ambayo hai- kuwa ikipatikana nchini hadi hivi majuzi. Tunafa- nya uchunguzi kati ya 40 na 50 kwa siku, unaweza kufikiria athari ambayo hospitali inakuwa nayo kwa Wakenya katika ku- pambana na saratani,” Mugenda alisema.

# Kenya kuwekeza Sh440b kwa sekta ya malisho ya mifugo ili kujitegemea

NA MABEL KEYA-SHIKUKU (KNA)

Serikali inakusudia kuwekeza Sh440 bilioni katika kipindi cha miaka 10, kuanzia 2022 hadi 2032, kwa msaada kutoka kwa wafadhili, ili kuifanya sekta ya malisho ya mifugo kuwa endelevu na kustahimili wakati wa majanga.

Mkuu wa Kitengo cha Huduma za Chakula na Lishe kwa Wanyama katika Wizara ya Kilimo na Maendeleo ya Mifugo Dk Stanley Mutua alisema kuwa Wizara ilifanya utafiti katika maeneo kame kuanzia 2018 hadi 2019 na katika maeneo yasiyo kame kuanzia 2019 hadi 2022. Ripoti hiyo imebaini kuwa nchi inakabiliwa na upungufu wa asilimia 60 ya chakula, na kati ya kile kinachozalishwa, asilimia 46 inapotea.

"Kenya inahitaji tani milioni 55 za chakula cha wanyama kavu kila mwaka lakini inazalisha asilimia 40 pekee, na kuacha pengo kubwa la usambazaji wa tani milioni 33. Kwa bahati mbaya, pengo hili lazima lijazwe kupitia uagizaji bidhaa kutoka nje, na kua-

cha sekta hii muhimu katika hali ya hatari sana," Dkt Mutua alisema.

Alibainisha kuwa Wizara imeunda Sera ya Kitaifa ya Chakula ili kukabiliana na matokeo kwamba sekta ya mifugo ya Kenya inakabiliwa na kiwango cha asilimia 26 ya utapiamlo, ambao umesababisha kudumaa na kuathiri vibaya uzalishaji.

Dkt. Mutua alikuwa akizungumza mjini Naivasha wakati wa warsha ya siku tano iliyohudhuriwa na wawakilishi kutoka nchi sita za Afrika wanaofanya majaribio ya mpango wa Resilient African Feed and

Fodder Systems (RAFFS). Warsha hiyo iliyoandaliwa na Taasisi ya Umoja wa Afrika-InterAfrican Bureau for Animal Resources (AU-IBAR), ililenga kushughulikia masuala yanayokabili hesabu ya malisho na uwiano barani Afrika, kuweka hadhi ya sasa ya sekta ya chakula, na kukubaliana juu ya mbinu ya pamoja ya bara. Dkt Mutua alisema kutokana na ripoti ya utafiti huo iliyofanywa kwa awamu mbili, Wizara ya Kilimo na Maendeleo ya Mifugo imekuja na afua mbalimbali ambazo ni pamoja na kukuza na

kuweka kipaumbele cha mnyororo wa thamani wa malisho 10 ili kuzalisha malisho yanayohitajika nchini.

Alibainisha kuwa mkakati wa serikali wa taifa wa malisho utasaidia kukabiliana na upungufu wa vyakula vya mifugo na uhaba wa maji kwa mifugo na ubora wa malisho kwa kuangalia vyanzo vya nishati kama vile mahindi na mtama na vyanzo vyenye protini nyingi kama vile soya, alizeti na mbegu za pamba na protini ya wanyama.

## KEPROBA na AFA zatia saina kukuza kahawa ya Kenya kote ulimwenguni

Wakala wa Kukuza Mauzo na Chapa ya Kenya (KEPROBA) na Mamlaka ya Kilimo na Chakula (AFA) - Idara ya Kahawa wametia saina makubaliano ya ushirikiano ili kuratibu juhudi za uuzaji za Kenya katika masoko yanayoibukia na yaliyoanzishwa kimataifa. Muungano huu wa kimkakati unalenga kutatua changamoto ndani ya sekta, ikiwa ni pamoja na kupungua kwa tija kutokana na hali ya hewa isiyotabarika na gharama kubwa za uzalishaji. Kulingana na AFA, mauzo ya kahawa nchini Kenya yamebadilikabadihika tangu 2016 kutokana na kupungua kwa maeneo yanayolima kahawa na kugegemea kupita kiasi kwa masoko ya kitamaduni. Kwa sasa, asilimia 97 ya kahawa ya Kenya inauzwa nje ya nchi kama maharagwe mabichi, jambo ambalo linapungua uwezo wa nchi kuingeza mapato yanayotokana na uzalishaji wa kahawa. Ili kukabiliana na changamoto hizo na kufufua sekta hiyo, serikali imeanza kutekeleza mageuzi ya kahawa, hatua ambayo tayari imeonyesha dalili chanya ya ukuaji, ambapo uzalishaji wa kahawa ul-

iongezeka kutoka tani 34,511 mwaka 2020/21 hadi tani 51,853 mwaka 2021/22.

Nchi hiyo pia imepata maendeleo katika kubadilisha maeneo yake ya kuuza nje, ikiwa ni pamoja na masoko mapya nchini Korea Kusini na Japan.

Afisa Mkuu Mtendaji wa KEPROBA Floice Mubana alisema kuwa ushirikiano huo utashughulikia changamoto nyingi zinazokaribia kulemaza sekta hiyo na kuimarisha zaidi mauzo ya nje ya Kenya na upatikanaji wa masoko ya kimataifa.

Mkurugenzi Mkuu wa AFA Dkt Bruno Linyiru alisisitiza umuhimu wa kutangaza kahawa ya Kenya kimataifa huku pia ikikuza matumizi ya ndani.

Makubaliano hayo pia yanalenga kuandaa mipango ya pamoja ya uuzaji, ikijumuisha maonyesho, maonyesho ya biashara, na mikutano ya wanunuzi na wauzaji.

Maeneo muhimu ya ushirikiano yatazingatia utafiti wa soko na akili, pande zote mbili zikishiriki data ili kusaidia wazalishaji kuunda mikakati madhubuti ya usafirishaji.

NA BERNARD MUNYAO  
(KNA)

Zaidi ya wakulima 57,000 katika Kaunti ya Murang'a wameanza kupokea mbegu za mahindi zilizoidhinishwa na mbolea kutoka kwa utawala wa kaunti ya eneo hilo.

Gavana wa Murang'a Irungu Kang'ata.

Katika mpango unao-fadhiliwa kwa gharama ya Sh88 milioni, kila mkulima amepangiwa kupokea pakiti moja ya kilo mbili ya mbegu na jumla ya kilo 16 za mbolea.

Gavana Irungu Kang'ata alibainisha kuwa wakulima waliosajiliwa na kuthibitishwa pekee ndio watakaofaidika na

mbegu na mbolea hiyo, ambayo itasambazwa katika maeneo mbalimbali ya kaunti hiyo hadi Oktoba 10, kabla ya mvua fupi kunyesha.

Kang'ata alisisitiza kuwa kaunti hiyo ina uwezo wa kuzalisha mahindi kwa madhuni ya kibiashara, huku akitaja ukosefu wa

mbegu bora na mbinu duni za kilimo kuwa kikwazo cha uzalishaji wa juu. Alitaja kuwa kaunti imetuma maafisa waliofunzwa kuwasaidia wakulima katika kufuata mbinu bora za kupanda na kukuza mazao yao.

"Serikali ya kaunti imetoa Sh33 milioni

kuzalisha mbegu za mahindi zilizoidhinishwa na Sh50 milioni nyingine za mbolea. Kila mkulima anatarajiwa kupokea kilo nane za mbolea ya kupandia na kiasi sawa cha mbolea ya juu."

"Tumeshirikiana na kampuni za mbegu za KARLO na Simlaw ambazo ni taasisi za serikali kutupatia mbegu hizo zilizoidhinishwa. Mbolea hiyo hutolewa kutoka Bodi ya Kitaifa ya Nafaka na Mazao (NCPB)," akaongeza.

Zoezi la usambazaji wa mbegu, gavana alibainisha, litaongozwa na wawakilishi wa wakulima wa mahindi kaunti ndogo kutoka wadi zote 35.

# Wakaazi wahimizwa kuongoza juhudi za upanzi wa miti Kisii

**Naibu Katibu Mwandamizi-Utawala katika Idara ya Utangazaji na Mawasiliano Bw. Hezron Nyamberi, akipanda mti wakati wa zoezi hilo lililofanyika kwenye kinamasi cha Nyanturago kaunti ya Kisii.**

NA MISHEBA ALFRED (KNA)

Serikali inawataka wakaazi wa Kisii kutunza na kulinda miche ya miti kufuatia ripoti za kung'oa na kuibiwa kwa miche iliyo-pandwa.

Bw. Hezron Nyamberi, Naibu Katibu Mwandamizi (SDS) wa Utawala katika Idara ya Serikali ya Utangazaji na Mawasiliano, aliongoza zoezi la upandaji miti katika Kinamasi cha Nyanturago.

Alisema mafanikio ya mpango huo wa upandaji miti yanategemea ushirikishwaji wa jamii na kujitolea katika kutunza miche mara inapopandwa.

Katika zoezi hilo ambapo miti 1,500 ili-pandwa, Wizara ya Habari, Mawasiliano na Uchumi wa Kidijitali ilisisitiza ahadi yake ya

kupanda miti milioni 10 mwaka huu, lengo likiwa ni la miti milioni tano katika Kaunti ya Kisii na milioni tano zaidi katika Kaunti ya Nandi. .

Juhudi za Wizara mjini Kisii ni sehemu ya ajenda pana ya uhifadhi wa mazingira inayolenga kushughulikia uharibifu wa ardhi na kurejesha maeneo muhimu ya ikolojia.

Nyanturago Swamp, hifadhi ya serikali ambayo hapo awali ilitumiwa na jamii kwa malisho ya ng'ombe, imetambuliwa kama eneo kuu la kuzingatia kutokana na umuhimu wake wa kimkakati katika usawa wa mazingira wa eneo hilo.

Nyamberi alieleza wasiwasi mkubwa wa serikali kuhusu wizi ambao umekumba juhudi

za awali za upandaji miti huko Nyanturago.

Alibainisha kuwa katika vikao vinne vya awali vya upandaji vilivyofanywa na wizara na washirika wake, miche mingi iling'olewa na wananchi wa eneo hilo, hivyo kukwamisha kwa kiasi kikubwa maendeleo ambayo yanguweza kupatikana.

Alisisitiza kuwa hilo ni tukio la tano kufanyika katika eneo hilo na kuitaka jamii kumiliki miti hiyo na kuhakikisha inaishia.

Mhifadhi wa Misitu Kaunti ya Kisii Safari Opiyo pia alihutubia mkutano huo huku akikariri umuhimu wa zoezi la upandaji miti na kutoa wito kwa wakazi kukumbatia utunzaji wa mazingira.

# Serikali kujenga madarasa 218 kwa ajili ya wanafunzi wa gredi 9

NA WANGARI MWANGI (KNA)

Serikali itatumia Sh218 milioni kujenga jumla ya madarasa 218 ya darasa la 9 katika Kaunti ya Nyeri. Madarasa haya ni sehemu ya vitengo 18,000 ambavyo serikali inajenga ili kutosheleza kundi la waanzilishi wa wanafunzi wa Darasa la 9 chini ya Mtaala unaozingatia Umahiri.

Wanafunzi milioni 1.3 waliopo katika Darasa la 8 kwa sasa wanatarajiwa kukalia madarasa kuanzia Januari 2025, watakapohamia Darasa la 9.

Kulingana na Mkurugenzi wa Elimu Kaunti ya Nyeri Bi Jane Njogu, ujenzi unatekelezwa kwa awamu mbili. Katika awamu ya kwanza, jumla ya madarasa 66 yanajengwa. Katika awamu ya pili, Wizara ya Elimu itajenga madarasa 152 yaliyosalia katika shule 128 za msingi za kaunti. Mjini Nyeri, awamu ya kwanza ya mradi huo unatekelezwa katika shule 37 iko katika asilimia 52 huku CDE ikieleza matumaini kuwa ujenzi utakamilika kabla ya mwisho

wa mwaka huu. “Katika Awamu ya Kwanza, tunafanya vizuri sana; tuko kwa asilimia 52. Kwa mfano, shule kama Shule ya Msingi ya Chaka darasa tayari limezekwa paa. Mengine yote mbali na madarasa manne yapo kwenye hatua ya ukuta. Wanne wako kwenye kiwango cha slab. Kwa kweli, naweza kusema kwa uhakika huu ni mradi ambao tutatoa kabla ya wakati,” Bi Njogu alisema. Kuhusu vigezo vilivyotumika kuchagua shule zinazofaika, CDE ilisema

kuwa uandikishaji shule ndio jambo la kuzingatia. Wizara ilikuwa imeweka idadi ya chini ya wanafunzi hadi 45 kwa shule kusajiliwa kama Shule ya Vijana. Bi. Njogu alisema ingawa shule zenye mkondo mmoja wa Shule ya Vijana zitanufaika na darasa moja, shule zenye mikondo mingi zitatengewa madarasa kulingana na idadi ya wanafunzi. Kwa jumla, serikali itajenga madarasa 18,000 ya ziada katika shule za msingi zilizo chaguliwa ili kuchukua wanafunzi wa darasa la 9.

# PSASB yatoa mafunzo kwa wakaguzi wa kaunti kuhusu viwango vipya vya uwazi

NA RIPOTA WA MYGOV

Bodi ya Viwango vya Uhasibu katika Sekta ya Umma (PSASB) imezindua mpango wa kufuatilia jinsi serikali za kaunti nchini Kenya zinavyotekeleza Viwango vya Ukaguzi wa Ndani. Mpango huo, ambao kwa sasa unatekelezwa katika mikoa mbalimbali, unalenga kuhakikisha kuwa vitengo vilivyogatuliwa vinazingatia kanuni bora za kimataifa katika ukaguzi wa ndani, udhibiti wa hatari na utawala ili kuimarisha uwazi na uwajibikaji katika sekta ya umma.

Akizungumza katika warsha ya wakaguzi wa ndani mjini Mombasa wiki jana, Mkurugenzi wa Viwango vya Ukaguzi wa Ndani wa PSASB Bw Edwin Tito alisisitiza umuhimu wa mpango huo katika kuhakikisha kuwa wakaguzi wa hesabu za serikali ya kaunti wanafuata viwango vina vyofaa. Hafla hiyo ilihudhuriwa na wataalamu wa ukaguzi wa ndani kutoka kaunti za Mombasa, Tana River, Kilifi, Kwale, na Taita Taveta.

“Tunafuatilia kwa karibu jinsi serikali za kaunti zinavyotumia viwango vya ukaguzi wa ndani. Zaidi ya hayo, tunazitayarisha kupitisha Viwango vipya vya Ukaguzi wa Ndani wa Ulimwengu (GIAS), ambavyo vili-

PSASB Director of Audit Edwin Tito confers with county government audit staff during their training in Mombasa

tolewa mapema mwaka huu na vitaanza kutumika Januari 9, 2025,” Bw. Tito alisema. Warsha hiyo pia ilitoa mafunzo juu ya nyanja mbalimbali za ukaguzi, ikiwa ni pamoja na mabadiliko ya GIAS 2024. Wakaguzi wa ndani kutoka eneo la pwani walipokea mwongozo kuhusu mada muhimu, ikiwa ni pamoja na Madhumuni ya Ukaguzi wa Ndani, ambayo ilianzizia jukumu muhimu la kutoa huduma huru, za uhakikisho na ushauri ili kuongeza thamani na kuboresha shughuli za serikali ya kaunti. Zaidi ya hayo, majadiliano yalilenga juu ya maadili na taaluma, Miongozo ya Usimamizi wa Hatari katika Sekta ya Umma, na michakato ya usimamizi wa hatari, ikisisitiza haja ya wakaguzi kuzingatia viwango vya juu vya uadilifu.

Wakaguzi wa ndani

walionyesha baadhi ya changamoto kuu wanaokabiliana nazo katika serikali za kaunti, ikiwa ni pamoja na ukosefu wa bajeti ya kutosha, wafanyikazi wachache, na kutokuwepo kwa mifumo ya kiteknolojia kusaidia kazi zao. Changamoto hizi hufanya iwe vigumu kufanya uhakiki wa kina au kuendana na viwango na mbinu za ukaguzi zinazobadilika.

Zaidi ya hayo, ukosefu wa rasilimali muhimu kama vile magari na mafuta huathiri kwa kiasi kikubwa ufanisi na ufanisi wao, na kuathiri uwezo wao wa kufanya uthibitishaji na ukaguzi-vipengele muhimu vya kazi zao. Wakaguzi wa ndani wakati mwingine hupewa jukumu la kugundua ulaghai, lakini wengi hukosa zana, ujuzi na usaidizi muhimu kutoka kwa wasimamizi ili kutimiza majukumu haya.

## NA RICHARD MUHAMBE NA ANTONY MELLY (KNA)

Mamlaka ya Ust-awishaji wa Bonde la Kerio (KVDA) imeanza mpango wa kubore-sha eneo la misitu kati-ka minara ya maji iliyoharibiwa katika maeneo kame ndani ya Kaunti ya Pokot Magharibi. Kupitia us-ambazaji na upandaji wa zaidi ya miche 300,000 ya miti ya aina mbalimbali, mamlaka inakusudia kuimarisha urejeshaji wa mazingira katika maeneo yaliyoainishwa.

Mradi huo unata-rajwa kuwa na athari kubwa kwa bayo-anuwai, kwani kuan-zishwa kwa aina mbalimbali za miti kunaweza kubore-sha ubora wa makazi na kusaidia mfumo mbalimbali ya ikolojia katika kanda.

Mwaka huu, mam-laka hiyo inalenga kushirikisha zaidi ya taasisi 200 za mafunzo na wakulima 1,000 ili kukuza utunzaji wa mazingira na kukuza uelewa kuhusu umu-himu wa upandaji miti na desturi endelevu katika maeneo yenye ukame wa kaunti.

Mkurugenzi Mkuu wa KVDA Sammy Naporos, ambaye al-iongoza uzinduzi wa programu katika Shule ya Msingi ya Nasokol siku ya Jumanne, alisema kuwa mpango huo unalenga kus-hughulikia masuala kadhaa ya dharura, ikiwa ni pamoja na ukame na mabadiliko ya hali ya hewa, huku pia ikikuza maisha. "Mpango huo unalenga

kukuza uanzishwaji wa mashamba ya miti katika kanda ambayo yataimarisha maisha ya wenyeji kwa kutoa chanzo endelevu cha mapato kupitia uuzaji wa mbao na mazao mengine ya misitu," alisema Naporos.

Alibainisha zaidi kuwa mbinu hiyo sio tu itasaidia maendeleo ya kiuchumi lakini pia itachangia katika uen-delevu wa mazingira kwa kuongeza miti, ambayo inaweza kus-aidia kupunguza athari za mabadiliko ya ta-bianchi na kuboresha uwezo wa kustahimili hali ya ukame.

"Tunajitahidi ku-fikia asilimia 10 ya eneo la misitu, hitaji linalolenga kupunguza athari za ongezeko la joto duniani," KVDA MD Naporos alidumi-sha. Alifafanua kuwa Mamlaka itaimarisha upandaji miti katika maeneo bunge yote manne ya Kaunti ya Pokot Magharibi.

Alisema wanalenga kupanda miti milioni 1.5 ya miti katika kaunti sita katika eneo la North Rift, juhudi ambayo alisema itab-oresha maisha huku ikiimarisha mfumo wa ikolojia bora katika eneo hilo.

Bw Naporos alian-gazia thamani ya ku-husika kwa jamii katika mpango huo, na kuwataka wakazi kushiriki kikamil-ifu katika juhudi za upandaji miti. "Kwa kila mti mmoja una-okatwa panda miwili ili kuongeza msitu ili kusaidia kudhibiti mmomonyoko wa udongo," alihimiza.

# Afueni kwa wakazi wa Pokot Magharibi KVDA ikizindua visima viwili

NA ANTONY MELLY NA RICHARD MUHAMBE (KNA)

Takriban wakazi 6,000 wa Kaunti ya Pokot Magharibi watafaidika na visima viwili kwa hisani ya Mam-laka ya Ustawishaji wa Bonde la Kerio (KVDA).

Kulingana na Mkurugenzi Mkuu Bw. Sammy Naporos, mojawapo ya majukumu ya KVDA ni kukuza upatikanaji wa maji miongoni mwa jamii kame na nusu kame kutokana na ukame wa mara kwa mara unaokumba kaunti hiyo ambapo watu wengi wanakabiliwa na uhaba mkubwa wa maji.

Alisema mradi huo utasaidia kuongeza idadi ya mifugo katika mpaka wa Uganda na Kenya, huku akiwataka wafugaji hao kutumia fursa ya visima vya Natira na Loktadel.

Akizungumza wakati wa kukabidhi miradi hiyo kwa Idara ya Maji na Maliasili i Kapenguria, Naporos alisema visima hivyo havitanufaisha kaya pekee bali pia mifugo 30,000 kwenye mpaka wa Uganda na Kenya.

Alisema kuwa mradi huo utahimiza kuishi pamoja na amani miongoni mwa wenyeji akisema kwamba wakati mwingine wanakabiliwa na wizi mwingi wa ng'ombe na harakati.

"Nadhani mipango ya miradi ya maji kwa kiasi kikubwa itakuza kuishi pamoja na kujenga am-

**Jamii ina furaha sana, na tunaamini kwamba watoto wanaozunguka eneo hili watakuwa na afya njema kutokana na mradi huu mzuri wa maji," - David Alkulem.**

Zaidi ya hayo, alisema, mpango huo umechangia katika ubunifu miongoni mwa jamii ambapo kaya kadhaa zinafanya kilimo cha kujikimu.

Mwenyekiti wa KVDA Mark Chesegon alisema serikali itatekeleza mipango ya kukabiliana na ukame kupitia utoaji wa maji katika maeneo kame na nusu kame.

Alisema KVDA ilizindua visima viwili katika eneo bunge la Kapenguria ikisema kuwa ni kati ya visima 71 ambavyo bado havijakamilika.

Mkurugenzi huyo alisema jimbo hilo kwa sasa litazalisha maji kwa ajili ya matumizi ya majumbani na mifugo mkoani humo, huku akifafanua kuwa eneo hilo linajulikana kwa jina la 'water scarcity zone'.

Mwanachama wa bodi ya KVDA Simon Kalekem alibainisha kuwa eneo hilo bado linahitaji visima zaidi

ili kuimarisha usalama wa chakula miongoni mwa jamii kame na nusu kame kote kaunti hiyo.

Alisema watakaposhirikiana na serikali ya kaunti pamoja na watu wengine wenye mapenzi mema kama vile NGOs, KVDA itaweza kubadilisha maisha ya watu wengi katika eneo hilo.

Aliitaka jamii kuitunza vyema miradi ya maji na kuhakikisha wanatumia maji hayo kwa ajili ya ustawi wao huku akibainisha kuwa wanatakiwa kujihesabu miongoni mwa jamii zilizobahatika.

Mbunge wa Wadi ya Riwo David Alukulem alisema mradi wa maji utasaidia shule zinazozunguka eneo hilo kwani eneo hilo linahitaji maji na watu wanaozunguka husafiri kwa umbali mrefu kutafuta rasilimali hiyo muhimu.

"Jamii ina furaha sana, na tunaamini kwamba watoto kuzunguka eneo hili watakuwa na afya njema kutokana na mradi huu mzuri wa maji," MCA alisema.

Alisema mradi huo utasaidia upandaji miti kwa vile tatizo kuu ni uhaba wa maji. Mwalimu Mkuu wa Shule ya Msingi ya Natirira, Joseph Kemoi aliitaka KVDA kuendelea kufanya kazi katika eneo hilo, akisema mahitaji bado ni makubwa kwani shule nyingi bado zina changamoto ya kupata maji.

# Serikali yaongeza juhudi za kukabiliana na ukatili na unyanyasaji kazini

NA JULIUS NDEGWA (PCO)

Serikali itaimarisha ukaguzi katika mae-neo ya kazi ili kukabiliana na aina zote za ukatili na unyanyasaji na kuhakikisha hakuna ubaguzi na usawa mahali pa kazi nchi nzima.

Kupitia Wizara ya Kazi na Ulinzi wa Jamii, serikali tayari imeanzisha ushirikishwaji wa wananchi katika mikoa minane yenye ramani ili kuongeza uelewa na kuhamasisha umma kuhusu kuridhiwa kwa Mkataba wa 190 wa Shirika la Kazi Duniani (ILO) kuhusu ukatili na unyanyasaji, pamoja na Pendekezo lake. Nambari 206.

Kulingana na Katibu Mkuu wa Idara ya Serikali ya Maendeleo ya Kazi na Ujuzi, Shadrack Mwadime, mikoa inayolengwa ni Pwani, Nairobi, Bonde la Ufa, Nyanza, Magharibi, Kaskazini Mashariki, Mashariki na Kati.

“Katika siku za hivi ka-

ribuni, Wizara ya Kazi na Ulinzi wa Jamii imejika katika kushughulikia udhaifu wa wafanyakazi wote, ikiwa ni pamoja na wafanyakazi wahamiaji - hasa wanawake - ambao wana tabia ya kunyonya, dhuluma, na ubaguzi, ndani na kimataifa,” alisema PS.

Mwadime alisema haya alipokuwa akifunga Kongamano na Maonesho ya pili ya Mwaka ya Ajira na Mahusiano ya Kazi (Elrase II), ambayo yalifanyika katika Chuo Kikuu cha Nairobi.

Kongamano hilo liliwakutanisha wadau wa Mahakama ya Ajira na Mahusiano Kazini chini ya kaulimbiu “Wajibu wa Mahakama ya Ajira na Mahusiano Kazini katika Kukuza Haki ya Ulimwengu wa Kazi Usio na Unyanyasaji na Unyanyasaji, Ukiwemo Ukatili na Unyanyasaji wa Kijinsia,” pamoja na mada ndogo ya “Kujumuisha Mkataba wa ILO Na. 190

na Pendekezo 206.”

Waziri Mkuu alieleza mkutano kuwa Wizara imeandaa mpango kabambe, unaozingatia wakati, kupitia mashauriano na wadau, ili kuongoza mchakato wa kuridhiwa Mkataba wa 190 wa vurugu na unyanyasaji.

Alishukuru kwa mkutano huo, na kusema kuwa unaendana vyema na matarajio ya seri-

kali kuhusu mchakato wa kuridhiwa mkataba huo.

“Kwa hakika, kongamano hilo litasaidia Wizara katika kupiga hatua kubwa kuelekea kuunda jamii yenye usawa zaidi, jumuishi, na yenye ustawi kwa wananchi wake wote.” Kwa mujibu wa taarifa iliyotolewa mwishoni mwa mkutano huo wa siku mbili, wadau walikubaliana miongoni mwa wengine, juu ya haja ya kuridhiwa Mkataba wa

190 ili kufikia ulimwengu usio na unyanyasaji na unyanyasaji na pia haja ya “idhini iliyojumuishwa na ya kijinsia. kuzuia na kuondoa unyanyasaji na ukatili”. Kongamano hilo lilitaka Wizara ya Kazi na Hifadhi ya Jamii kuanzisha mchakato wa marekebisho ya Kifungu cha 6(2) cha Sheria ya Ajira ya mwaka 2007 ili kutaka kuundwa kwa sera ya unyanyasaji wa kijinsia kwa watu wasiozidi

20 mahali pa kazi. kuin-gizwa kwa kifungu cha adhabu cha Sheria ya Ajira dhidi ya waajiri ambao watashindwa kuzingatia.

Miongoni mwa waliohutubia Kongamano hilo ni Jaji Mkuu na Rais wa Mahakama ya Juu, Katibu wa Wizara ya Kazi na Ulinzi wa Jamii, wawakilishi wa COTU, FKE, LSK, Mahakama na watumiaji wa Mahakama katika utofauti wao kutoka kote katika jamhuri.

## Sony sugar embarks on a Sh400m maintenance to restore full production capacity

BY GEOFFREY MAKOKHA AND GEORGE AGIMBA (KNA)

The South Nyanza (Sony) Sugar Company is set for a major maintenance operation to restore the plant's ability to mill at full capacity.

The maintenance, scheduled to start in mid-October to late November this year, will require at least Sh400 million to boost the factory's ability to mill cane beyond 1,500 tonnes per day.

According to the managing director Martin Dima, the company has already started to acquire the necessary tools and spares both locally and abroad.

The plant has a capacity to crush up to 3,000 tonnes if the fatigued machine is properly maintained or replaced.

The 1979 installed machine has been working for over 45 years and it is worn and torn.

Since Dima was appointed three months ago, there has been an

improvement in the operation of the machine allowing it to crush between 1,700 to 2,200 tonnes of cane per day as compared to the previous 800 tonnes.

The Sh865-million worth semi-autonomous company has not had a substantive managing director for close to eight years, and the appointment of Dima three months ago has breathed life into the factory putting it on the right path of restoring its lost glory.

The frequent breakdown of the plant has however reduced its effectiveness in maximizing its full potential of crushing at least 3,000 tonnes of cane per day.

The old machines have also reduced the sugar production, which under normal circumstances is one tonne of sugar per 10 tonnes of cane. These frequent breakdowns have however led to the plant crushing only 12 tonnes of cane to produce one tonne of sugar.

Dima has overseen the transformation of the

mill's ability to produce 1,500 tonnes of sugar weekly from the previous 700 tonnes of bagged sugar, doubling the company's final output.

Despite these challenges, he acknowledged that the company has restored farmers' confidence by boosting operational frameworks through the efforts that have been effectively put in place.

The resolved payment delays to farmers and prompt payment to 1,500 direct employees and other 3,000 indirectly employed staff has greatly elevated the morale of farmers and the workforce, he said.

The MD disclosed that the company has been able to reduce the five-month delay period of paying farmers to within a month which has seen an increase in cane deliveries to the factory.

“When I was appointed a substantive managing director, I found a lapse of five months of non-payment to farmers. Currently, we are paying

farmers that delivered their canes this August,” Dima said.

Dima explained that going forward Sony Sugar wants to reduce the payment window to within a week to further improve the economic status of cane farmers who play a crucial role in ensuring the factory operates optimally.

The revival of the com-

pany will also require increased acreage of cane to fully utilise the company's capacity to crush 3,000 tonnes of cane per day.

The factory has 2,400 hectares of nuclear under cane with an additional 6,000 hectares from contracted farmers.

Currently, Sony Sugar has more than 25,000 contracted farmers from the counties of Narok,

Homabay, Kisii and Migori.

Dima emphasized the need to increase cane acreage to continuously provide raw materials to the company.

In the recent past, many cane farmers in South Nyanza diversified their cane farming to other crops after years of disappointments over delayed payments.

# Mpango wa Makueni wa kutoa nishati nafuu na ya kutegemewa

NA PATRICK NYAKUNDI (KNA)

Serikali ya Kaunti ya Makueni inanuia kutoa nishati safi, ya kutegemewa na ya bei nafuu kwa wakazi wake ili kukuza uzalishaji wa chakula na kubuni nafasi za kazi hasa kwa vijana.

Gavana Mutula Kilonzo Jr alisema upatikanaji wa nishati safi, endelevu, wa kutegemewa na wa bei nafuu kwa kaya, vituo vya afya, shule na uongezaji wa thamani katika uzalishaji wa kilimo utarekebishwa hali ya nishati katika kaunti.

Mutula alisema Makueni inaongoza kwa uzalishaji wa matunda kama maembe na piksi na kuongeza thamani ya mazao hayo kutaziua hasara baada ya kuvuna na kuhakikisha bei ya juu itahitaji nishati ya uhakika.

“Kaunti inapojitahidi kukuza uzalishaji wa chakula na kupunguza kuegemea kupita kiasi kwa kilimo cha kutegemea mvua, tunahitaji nishati ya uhakika ili kutoa maji kwa ajili ya umwagiliaji. Uingiliaji kati katika mae-

Gavana wa Makueni Mutula Kilonzo (katikati) Naibu Kamishna Mkuu wa Uingereza Dkt. Ed Barnett (kushoto) wakati wa uzinduzi wa Mpango wa Nishati mjini Wote.

neo haya utachangia pakubwa katika usalama wa chakula na kubuni nafasi za kazi kwa watu wetu,” Mutula alisema. “Mpango ambao tumezindua leo una uwezo wa kuunda upya mazingira yetu ya nishati ya siku zijazo. Sio tu kwamba inahakikisha upatikanaji wa nishati kwa kaya katika kata, lakini pia umeme wa shule na vituo vya afya, kuongeza thamani kwa mazao ya kilimo. “Kuweka umeme kwa matumizi ya nyumbani na kilimo na miundombinu ya mnyororo

baridi kutaongeza maisha ya rafu ya mazao yetu,” aliongeza, wakati wa uzinduzi wa Mpango wa Nishati wa Kaunti ya Makueni 2023-2032 katika Kituo cha Uwezeshaji Kiufundi cha Makueni katika mji wa Wote. Mutula alisema kuwa mpango huo ambao una matarajio ya uwekezaji utasukuma kaunti kuelekea mustakabali wa upatikanaji wa nishati endelevu ambao utapelekea ukuaji wa uchumi hivyo basi kuboresha maisha ya watu.

# Nakuru kuzindua vifaa vya kuangalia ubora wa hewa ili kudhibiti uchafuzi

NA ESTHER MWANGI (KNA)

Serikali ya Kaunti ya Nakuru itaweka vifaa vya kuangalia ubora wa hewa ili kutoa data kwa wakati ili kuhughulikia kuongezeka kwa uchafuzi wa hewa na kusaidia jiji kukabiliana na athari za mabadiliko ya hali ya hewa.

Meneja wa Jiji Gitau Thabanja alisema kuwa vifaa hivyo vitafungwa katika maeneo mbalimbali jijini. Watatumia akili bandia ya ubora wa juu na kufanya data ipatikane kwa umma kupitia programu ya simu mahiri na dashibodi ya dijitali. Thabanja aliongeza kuwa, kama sehemu ya mpango huo, kaunti inashirikiana na timu kutoka Respira kufanya utafiti wa kutathmini

ubora wa hewa kote jijini. Hii ni pamoja na kuchora ramani za maeneo ya mtandao-hewa ambayo huchangia kwa kiasi kikubwa uchafuzi wa mazingira, kama vile njia nyingi za trafiki, vitongoji vilivyo na watu wengi, tovuti ya kutupa taka ya Giotto na maeneo ya viwanda. Kulingana na Bw. Thabanja, mpango huo, unaofadhiliwa na Flemish International Climate Action Programme (FICAP), utajumuisha zana ya AI ili kuboresha usahihi wa utabiri wa ubora wa hewa.

Pia itaanzisha kituo kikuu cha data kwa ufuatiliaji endelevu wa ubora wa hewa, kulingana na dhamira ya jiji kwa uendelevu wa mazingira na ulinzi wa afya ya umma.

Alifafanua kuwa Res-

pira ni mfumo wa usimamizi wa hali ya joto, uingizaji hewa, na hali ya hewa (HVAC) ambayo hutumia akili ya bandia ili kuboresha ufanisi wa nishati, faraja ya joto na ubora wa hewa katika majengo na miundombinu.

Akizungumza wakati wa mkutano wa mashauriano na timu kutoka Respira, meneja wa jiji alibainisha kuwa ukosefu wa data na ufahamu unaoweza kutekeleza umefanya iwe vigumu kufuatilia mwenendo wa uchafuzi wa mazingira, akisema kwa kutoa data sahihi na ya wakati halisi juu ya ubora wa hewa, tovuti za ufuatiliaji zitakuwa kama msingi ambao jiji linaweza kujenga sera bora na uingiliaji kati juu yake.

# Bomet, Posta kuimarisha ukusanyaji wa mapato kaunti ikilenga Sh550m

NA LAMECH WILLY  
(K N A)

Katika azma ya kufikia lengo la kukusanya mapato ya Sh550 milioni kwa mwaka huu wa kifedha, Serikali ya Kaunti ya Bomet imeshirikiana na Shirika la Posta la Kenya (PCK) kutekeleza ukusanyaji wa mapato yasiyokuwa na pesa taslimu.

Ushirikiano huu ulirasilimishwa kwa kutiwa saini Mkataba wa Maelewano (MoU) kati ya Gavana wa Bomet Hillary Barchok na Postamasta Mkuu na Mkurugenzi Mkuu Mtendaji wa PCK, John Tonui, katika makao makuu ya kaunti.

Kando na ukusanyaji wa mapato, ushirikiano

huo unalenga kuboresha utendakazi, uwajibikaji, na kurahisisha utendakazi katika idara mbalimbali za serikali za kaunti.

Gavana Barchok alibainisha kuwa Posta itasaidia kukabiliana na mapungufu ambayo yamezuia kaunti hiyo kufikia malengo yake ya mapato.

“Tutaunga mkono Shirika kikamilifu ili liweze kutimiza wajibu wake,” alisema Barchok.

Alisisitiza kuwa lengo ni kuondoa ubadhirifu wa pesa katika huduma za kaunti na kupitisha mifumo isiyo na pesa ili kuzuia upotezaji wa mapato unaosababishwa na ufisadi.

“Hili ndilo suluhu la changamoto zetu, hasa

upotevu wa fedha wakati mapato yanashughulikiwa kwa fedha taslimu. Mapato yanayokusanywa sasa yatumwa moja kwa moja kwenye akaunti yetu,” alieleza.

Barchok alionyesha imani kuwa kaunti itafikia lengo lake la mapato, kwa kuzingatia uboreshaji wa mifumo yake ya kukusanya mapato. Kwa sasa, kaunti inakusanya Sh300 milioni kila mwaka.

Gavana huyo aliongeza kuwa PostaPay, huduma inayotolewa na PCK, ita-

**Kiasi cha pesa ambacho serikali ya kaunti ya Bomet hukusanya kama mapato kila mwaka**

rahisisha malipo kwa wafanyakazi wa kawaida na kurahisisha miamala mingine ya kifedha. “Kwa kulipa ada, Posta itatusaidia katika kufuatilia ukusanyaji wa mapato, na hivyo kuziba mianya iliyosababisha upotevu wa mapato,” Barchok alisema.

Kwa upande wake, Tonui alisema kuwa Shirika lina uwezo wa kusaidia kaunti kufikia malengo yake ya mapato na kufanya malipo kwa

niaba yake bila shida. Aliwahakikishia wakazi wa Kaunti ya Bomet utoaji wa huduma za uhakika za mwisho, zikisaidiwa na nguvu kazi iliyoimarishwa. “Kufuatia mpango huu, tutaongeza nguvu kazi yetu ili kukidhi mahitaji, kuunda nafasi mpya za kazi kwa vijana,” Tonui alisema. Aliongeza kuwa ushirikiano huo unalingana na ajenda ya mageuzi ya mkabala wa Bottom-Up wa Kenya Kwanza. Mkurugenzi

Mtendaji huyo pia alibainisha kuwa tangu ashike uongozi wa Shirika, ameanzisha mipango inayolenga kuliwezesha kujiendesha na kuhakikisha linakua. Posta Masta Mkuu alisisitiza dhamira ya Shirika katika kutekeleza majukumu yake na kuwahakikishia wateja, pamoja na umma kwa ujumla, uwezo wa Posta wa kutoa masuluhisho ya mwisho kwa watu binafsi, mashirika na taasisi za kiserikali.

# Msitu wa Maasai Mau wajengewa ua kuzuia uvamizi wa wanyamapori

NA RIPOTA WA MYGOV

Shirika la Kenya Towers Agency limekamili-isha ujenzi wa ua wa Umeme katika msitu wa Maasai Mau ili kupunguza mizozo kati ya binadamu na wanyamapori katika Kaunti ya Narok.

Kulingana na Shirika la Kenya Water Towers, uzio huo utadumishwa ili kuhakikisha kuwa Mnara wa Maji wa Maasai Mau unalindwa dhidi ya kuvamiwa, ukataji miti ovyo na uzalishaji wa makaa.

Mwenyekiti wa Bodi ya Wakala huo Bw.Rashid Echesa alisema kuwa uzio huo unaotumia nishati ya jua pia unalenga kupunguza migogoro ya binadamu na wanyamapori na kuruhusu kuzaliwa upya kwa mnara huo wa maji.

Echesa, ambaye alizindua mradi huo, alitaja wahandisi kutoka Idara ya Utendaji ya Serikali, waliifanya tathmini ya mradi huo na kutoa

hati za kutokuwa na dosari kwa mkandarasi wa Top Choice Surveillance Limited, ambaye alikuwa kwenye eneo hilo kwa miaka mitatu iliyopita.

Echesa aliongeza kuwa Shirika la Kenya Water Towers limeajiri maskauti 30 kutoka kwa jamii ya eneo hilo kufuatilia na kudumisha ua huo kwa muda ambao haujabainishwa.

Kulingana na Echesa, maskauti hawa wanakamilisha juhudi za Kitengo cha Pamoja cha

Utekelezaji, ambacho kinajumuisha maafisa kutoka Huduma ya Misitu ya Kenya, Huduma ya Wanyamapori ya Kenya, Kitengo cha Usambazaji Haraka, na Serikali ya Kaunti ya Narok.

“Tumeanzia uhusiano mzuri wa kufanya kazi na jamii na kuajiri angalau vijana thelathini kama maskauti wa mradi,” Echesa alisema.

Pia alibainisha kuwa jamii ilishirikiana vyema na Wakala na mkandarasi katika kipindi cha ujenzi. “Jamii itaendelea kupata nyasi kwa wanyama wao katika sehemu iliyozungushiwa uzio hadi miti itakopokuwa kamili. Nyasi zitakatwa na kubebwa na jamii, na hakuna mifugo itakayoruhusiwa ndani ya mnara wa maji,”

alisema Mkurugenzi Mtendaji, Prof. Julius Tanui. Mnamo 2020, Kenya ilipokea habari kutoka kwa Serikali ya Uingereza kwamba Mnara wa Maji wa Mau Forest Complex umeingizwa kwenye Jumba la Jumuiya ya Madola (QCC).

Kiingilio hicho kiliimaanisha kuwa mnara mkubwa zaidi wa maji katika Afrika Mashariki ungekuwa sehemu ya misitu iliyohifadhiwa sana kama vile Msitu wa Great Bear nchini Kanada, Arboretum ya Ruhande

nchini Rwanda, Hifadhi ya Misitu ya Kawari nchini Nigeria, Mbuga ya Kitaifa ya Liwonde nchini Malawi, Mt Elgon nchini Uganda miongoni mwa mingineyo. katika nchi 53 za Jumuiya ya Madola.

Kwa kuunga mkono Mnara wa Maji wa Mau Complex chini ya Ufalme wa Jumuiya ya Madola ya Malkia, Kenya inatarajia kuharukisha ufufuaji wa mfumo mpana zaidi wa ikolojia na mnara muhimu zaidi wa maji unaofunika takriban hekta 455,000 za ardhi. Mnamo 2018 na 2019, Kenya ilipiga hatua kubwa katika kurejesha hekta 3,500 na hekta 17,101 mtawalia katika Mnara wa Maji wa Maasai Mau ambao kwa jumla unachukua eneo la takriban hekta 46,000. Mnara wa Maji wa Mau Forest Complex ndio Mnara wa Maji muhimu zaidi nchini Kenya na unasaidia mamilioni ya maisha kitaifa, kikanda na kimataifa.

Inajumuisha maeneo 22 ya misitu yanayoenea katika kaunti sita ambazo ni: Baringo, Bomet, Kericho, Nakuru, Narok na Uasin Gishu. Mnara wa Maji ni kitovu kikuu cha mito 13 mikuu ambayo ni Amalo, Ewaso-Ng'iro, Makalia, Mara, Molo, Mumberes, Naishi, Nderit, Njoro, Nzoia, Nyando, Sondu na Yala. Mito hiyo huhisha maziwa makuu matano nchini Kenya na kuvuka mipaka. Hizi ni: Ziwa Baringo, Ziwa Nakuru, Ziwa Natron, Ziwa Turkana na Ziwa Victoria. Mnara huo wa maji pia ni chanzo cha Mto Nile.

# Sensa yafanywa kwa wanyamapori mbuga ya Kitaifa ya Ruma, Homa Bay

NA DAVIS LANGAT(KNA

Serikali imefanya sensa ya kina ya wanyama katika Hifadhi ya Kitaifa ya Ruma, Kaunti ya Homa Bay ili kuimarisha juhudi za uhifadhi na utalii endelevu katika Hifadhi hiyo. Mwanasayansi wa Usimamizi wa Maliasili katika Wizara ya Utalii na Wanyamapori Joseph Gathua alisema kuwa Hifadhi ya Kitaifa ya Ruma ndiyo mbuga pe-

kee nchini Kenya yenye jamii ya swala adimu. Gathua alisema kando na swala aina ya roan, kuna wanyama wengine wa aina mbalimbali katika hifadhi hiyo, lakini idadi halisi ya wanyama hao haijathibitishwa hivyo kusababisha kutokuwepo kwa ufanisi katika usimamizi na uhifadhi. Tasisi ya Utafiti na Mafunzo ya Wanyamapori (WRTI) inaendesha sensa hiyo

kwa ushirikiano na Wizara ya Utalii na Wanyamapori, na Huduma ya Wanyamapori ya Kenya (KWS). Bw Gathua alishirikiana na Mwanasayansi wa Utafiti wa WRTI Vasco Nyaga na Mkurugenzi Msaidizi Mwandamizi wa KWS anayesimamia Hifadhi ya Magharibi Munguni Chongwa wakiongoza zoezi la sensa ya siku mbili.

# Government to implement ICT Sector Working Group recommendations for digital transformation

BY EVALYNEGITHINJI (PCO)

The Ministry of ICT and the Digital Economy will adopt a multi-stakeholder project coordination and delivery unit and high-level project governance framework to guide the implementation of recommendations by the ICT Sector Working Group (SWG).

The ICT SWG was tasked with reviewing the current ICT policies, legislative frameworks, and institutional capacities, and propose actionable reforms that will propel Kenya into a vibrant digital economy over the next 15 to 20 years.

The SWG was to assess and advise the MICDE on the necessary reforms to enable it to fulfill its mandate and meet expectations in a fast-changing operational environment and draft relevant bills, policies and strategy documents.

The MICDE Cabinet Secretary, Dr Margaret Ndung'u (pictured), accompanied by ICT and Digital Economy Principal Secretary Eng. John Tanui and the Principal Secretary for Broadcasting and Telecommunications Prof Edward Kisiang'ani received the SWG Final Report which has impactful recommendations across ten ICT thematic areas.

In his presentation, the SWG Chairperson Prof Timothy Waema said the SWG Final Report has

given several recommendations which include developing a National AI and Emerging Technology Policy, revising the National ICT Policy, 2019 to align to industry trends, formulating the National Data Policy and enacting Kenya's Data Act and developing a National Cybersecurity Policy, amongst others.

In her address, the CS noted that to keep track of the implementation progress of the SWG Report recommendations, the Government will establish a multi-stakeholder project coordination and delivery unit that will be based within the Ministry.

The delivery unit, along with a project delivery committee composed of industry experts, development partners, academia, media and civil society will bring together experts to guide the implementation process.

In addition, the ministry will adopt a high-level project governance framework that will include a change & transformation management office (CTMO) chaired by the CS, with PSs and CEOs of the critical SAGAs as members and members from the private sector and the civil society.

The CS, who appreciated the SWG for formulating the well detailed report, reiterated that successful implementation of the recommendations will unlock new levels of innovation, increase access to digital services, and position Kenya as a leader in the global digital economy.

"We have the opportunity to foster a generation of digital entrepreneurs, to strengthen our infrastructure, and ensure that every Kenyan benefits from this digital transformation," the CS said.

The CS said the SWG's recommendations align well with the ministry's priority areas which include accelerating broadband access and connectivity, fast-tracking digital skilling and job creation, promoting the development, adoption and usage of emerging technologies for social economic and gender de-

velopment, promoting multi-stakeholder and inclusive approach to digital projects planning and implementation amongst others.

To ensure the successful execution of the recommendations outlined in the Report, the SWG has also provided detailed strategies for enhancing successful implementation.

CS Ndung'u stated that MICDE will collaborate with other key agencies to develop a National Portfolio Programme and Project Management Policy to ease the management of ICT projects and ensure that all ICT initiatives at both national and county levels are not duplicated and are aligned with the national goals.

# Jinsi majiko ya kisasa yanavyobadilisha maisha katika kampeni kukabiliana na uchafuzi unaotokana na upishi

NA ROBERT OJWANG (KNA)

Kuenea kwa matumizi ya makaa na kuni kwa kupikia miongoni mwa jamii za vijijini katika ukanda wa Ziwa Victoria kunaleta madhara makubwa kwa mazingira na afya ya jamii. Kwa kuwa mafuriko na ukame uweongezeka mara kwa mara na kukithiri, na kuathiri maisha, jumuiya za mitaa zinahimiza kubadili vyanzo vya nishati safi kama hatua ya kukabiliana na mabadiliko ya hali ya hewa, uchafuzi wa hewa na hatari za afya.

Mbinu za jadi za kupikia kwa kutumia majiko yasiyofaa hutoa masizi (kaboni nyeusi) na vichafuzi vingine hatari kwenye angahewa, na kuchangia kwa kiasi kikubwa kuzorota kwa mazingira. Kulingana na Muungano wa Kupikia Safi (CCA), takriban tani bilioni moja za metriki za kaboni dioksidi (CO<sub>2</sub>) sawa huzalishwa kila mwaka kutokana na uhomaji wa nishati ya kuni, ambayo ni sawa na asilimia mbili ya uzalishaji wa CO<sub>2</sub> duniani.

Ulimwengu kote, karibu watu bilioni 2.3 bado wanategemea mafuta ya taa, kuni, na makaa kupikia, na hivyo kuchangia pakubwa katika uchafuzi wa mazingira. Upikaji wa kaya, upashaji joto, na mwangaza hujawajibika kwa hadi asilimia 25 ya hewa chafu ya kaboni nyeusi, na katika

nchi kama Kenya, kupikia pekee huchangia asilimia 60 hadi 80 ya uzalishaji huu. Athari za kiafya za kutumia njia za kupikia asili ni kali, haswa kwa wanawake na watoto. CCA inakadiria kuwa karibu nusu milioni ya vifo vya mapema hutokea kila mwaka barani Afrika kutokana na uchafuzi wa hewa wa kaya.

Kuhamishia majiko na mafuta safi kunaweza kupunguza matumizi ya nishati safi kama hatua ya nishati kwa asilimia 30 hadi 60, na hivyo kupunguza uzalishaji unaodhuru hali ya hewa, kulingana na CCA. Ili kushughulikia hili, Nyalore Impact Enterprise, iliyoko katika Kaunti ya Homa Bay, inatoa suluhu za nishati safi

**“Kuta za jikoni yangu zilifunikwa na masizi, na moshi wa kuni ulisababisha kikohozi cha mara kwa mara na maumivu ya kifua kwa familia yangu,” Akinyi**

kama vile jiko la shinikizo la umeme (Quooker Digi) na jiko la kisasa la biomasi. Ubunifu huu unasaidia kupunguza ukataji miti na hewa ukaa katika ukanda wa Ziwa Victoria.

Tangu kuanzishwa kwake mwaka wa 2016, Nyalore Impact imekuwa mstari wa mbele kutetea suluhu za upishi safi kwa wakazi wa mashambani, ikiwiana na malengo madhubuti ya Kenya ya kuzalisha asilimia 100 ya nishati yake ya umeme kutoka vyanzo vya nishati safi ifikapo 2030 na kufikia asilimia 100 ya upishi safi ifikapo 2028.

Benter Akinyi, mwenye umri wa miaka 37, mkazi wa kijiji cha Abouro huko Ndhiwa, Kaunti ya Homa Bay, amepata maboresho makubwa katika maisha yake tangu atumie kifaa cha Quooker Digi mwaka wa 2021. Hapo awali, Akinyi alitegemea makaa na kuni, ambazo hazikumuhatarisha tu. Afya ya familia lakini pia ilichangia uharibifu wa mazingira.

“Kuta za jikoni yangu zilifunikwa na masizi, na moshi wa kuni ulisababisha kikohozi cha mara kwa mara na maumivu ya kifua kwa familia yangu,” Akinyi alikumbuka. Tangu kugeukia chaguo la kupikia safi zaidi, ustawi wa familia ya Akinyi umeboreka huku pia ukipunguza kwa kiasi kikubwa gharama za nishati ya kaya. Hapo awali, alitumia takriban Sh7,400

kila wiki kununua makaa. Sasa, akiwa na jiko hilo lisilotumia nishati, yeye huhifadhi hadi asilimia 70 ya kiasi hicho, na hivyo kutoa pesa kwa ajili ya mahitaji mengine ya familia.

Vile vile, Mary Ouma, mama wa watoto watano mwenye umri wa miaka 43 kutoka Kijiji cha Thuon Gweno huko Ndhiwa, Kaunti ya Homa Bay, alitupilia mbali mahali pa moto la jadi la mawe matatu mnamo 2018 kwa ajili ya jiko la kupikia

biomasi ambalo hutumia briketi za makaa na pellets. Gharama kubwa ya nishati asilia na maswala ya kiafya yalisukuma familia yake kutafuta njia mbadala, huku briketi za makaa zikionekana kuwa chanzo cha gharama nafuu na safi cha nishati.

“Tunanunua briketi kutoka kwa wasambazaji wa Nyalore Impact, na ni nafuu,” Ouma alieleza. Mlo wa kiasili wa mahindi na maharagwe kwa kaya ya watu watano sasa unagharimu takriban Sh13 kwa kutumia briketi, ambayo ni nafuu mara tisa kuliko kupika mlo huo huo kwa kutumia makaa wa kuni au mafuta ya taa ambayo gharama yake ni Sh85 na 125 mtawalia.

Dorothy Otieno, mwanzilishi na Mkurugenzi Mtendaji wa Nyalore Impact, alishiriki kwamba wameuza zaidi ya uniti 500 za jiko la shinikizo la umeme na uniti 5,000 za jiko la biomasi kwa jamii zisizo na uwezo, na kupunguza uzalishaji wa kaboni kwa zaidi ya tani 1,000 kila mwaka. Kwa sasa, majiko hayo yanapatikana kwa reja reja kwa gharama ya kuanzia Sh2,500 hadi Sh11,000. Hata hivyo, ili kufanya vifaa kuwa vya bei nafuu, Nyalore Impact inatoa chaguo za malipo ya awamu ili kuwezesha kaya za kipato cha chini na wa-

fanyabiashara wadogo kushinda kikwazo cha gharama ya awali.

Suluhu za kupikia safi ni sehemu muhimu ya Mpango wa Mpito wa Nishati na Uwekezaji wa Kenya (2023-2050), unaolenga kukomesha mbinu za jadi za kupika na kukuza majiko na vifaa vyenye ufanisi kwa wakazi wote wa mashambani ifikapo 2030. Dk. Fatih Birol, Mkurugenzi Mtendaji wa Shirika la Kimataifa la Nishati (IEA), lilisitiza udharuru wa juhudi hizi katika Kongamano la 9 la Kila Mwaka la IEA kuhusu Ufanisi wa Nishati jijini Nairobi.

Dkt. Birol aliwasihi watunga sera na serikali za dunia kuharakisha upitishaji wa sera zinazotumia nishati vizuri kama ilivyobainishwa katika Zana mpya ya Sera ya Ufanisi wa Nishati ya IEA 2024. Sera hii inalenga kuongeza maradufu maendeleo ya ufanisi wa nishati duniani ifikapo mwaka wa 2030. “Licha ya matarajio yaliyoonyeshwa kwenye COP28, na maendeleo mazuri katika nchi na kanda nyingi, bado hatuoni maendeleo muhimu ya ufanisi wa nishati duniani kote. Serikali lazima ziharakishe hatua, na sekta ya kibinafsi pia inapaswa kutekeleza jukumu lake. Tumeona maendeleo makubwa, ikiwa ni pamoja na kutoka nchi kama Kenya,” Dk. Birol alisema.

Muonekano wa kiwanda cha Base Titanium katika Kaunti ya Kwale. Kampuni ya uchimbaji madini imepangwa kukamilisha shughuli zake mnamo Desemba 2024.

## Base Titanium yatoa ziara ya kufahamu wa mgodi wa Kwale ikikaribia kufungwa

NA FATMA SAID (KNA)

Hivi majuzi, kampuni ya Base Titanium ili-wakaribisha wawakilishi wa vyombo vya habari kwenye tovuti yao ya Kwale Mine kwa ziara ya kina, ikitoa maarifa ya kina kuhusu shughuli zao ili kuboresha uelewa wa michakato, changamoto na mafanikio ya kampuni huku mgodi huo ukikabiliwa na kufungwa kwa sababu ya kuharibika kwa rasilimali za madini.

Ziara hiyo ililenga kutoa fursa ya uwazi na kutafakari juu ya athari za mradi unapokaribia awamu yake ya mwisho.

Ziara hiyo ilionyesha vipengele kadhaa muhimu vya shughuli za Base Titanium, kuanzia na kitalu chao cha miti asilia, ambacho kinaangazia dhamira yao ya upandaji miti upya na uendelevu wa mazingira. Mgodi wa Kwale wa Base Titanium ulianza kufanya kazi mwaka wa 2011, na uchimbaji uchimbaji ukianza kwenye Mlima wa Kati mnamo Oktoba 2013. Ni mradi wa kwanza wa uchimbaji mkubwa wa madini nchini Kenya na unachangia asilimia 65 ya sekta ya madini nchini.

Wawakilishi wa vyombo vya habari walipewa uchunguzi wa kina wa shughuli za uchimbaji madini za kampuni na maeneo yaliyokarabatiwa, wakionyesha juhudi kubwa za baada ya

uchimbaji madini zilizo-fanywa kurejesha ardhi katika hali yake ya asili.

Akizungumza na wawakilishi wa vyombo vya habari, Meneja Mkuu wa Mambo ya Nje wa Base Titanium, Simon Wall, alisisitiza kuwa ingawa shughuli za uchimbaji madini zinatarajiwa kukamilika Desemba, uwepo wa kampuni hiyo hautaishia hapo. Alifhamisha kuwa usindikaji na usafirishaji wa madini utaendelea, pamoja na juhudi kubwa za ukarabati wa mazingira ambazo bado zinahitaji kushughulikiwa.

Shughuli hizi za baada ya uchimbaji madini, alisisitiza, zinahakikisha

kuwa kampuni inaendelea kujishughulisha katika eneo hilo, kwa kuzingatia kutimiza ahadi zake za mazingira na utendaji. Titanium juu ya utambuzi wa programu ya awali ya kujifunza. Alibainisha kuwa hii ni fursa ambapo wengi wa wafanyakazi wao walifanya kazi katika eneo la mgodi na hawakuwahi kuwa na mafunzo rasmi na vyeti.

Simon Wall pia alianzia wajibu wa Base Titanium wa kulipa mrabaha moja kwa moja kwa Serikali ya Kitaifa kupitia Wizara ya Madini ambayo walifanya kila mwezi. Kati ya jumla ya mirahaba, asilimia 70 huhifadhiwa

na Serikali ya Kitaifa, asilimia 20 hutengewa Serikali ya Kaunti, na asilimia 10 inaelekezwa kwa jamii ya eneo hilo.

Alisema bado wanaendelea na mazungumzo na Serikali kuhusu fidia ya miundombinu ya kudumu kama njia za umeme, mabwawa na vituo vidogo. Ujenzi wa mgodi huo uligharimu bilioni 26 katika uwekezaji, 9 kati yake zilitumika kwa maudhui ya ndani, 3.7 iliwekeza katika miundombinu ya kijamii, uboreshaji wa maisha, afya na elimu.

“Ingawa uchimbaji wa Madini unavyoisha mwezi Desemba, bado tunahitaji mwaka mmoja au miwili

ili kukamilisha mchakato wetu wa ukarabati,” Wall alisema.

Kuhusu kupunguzwa kazi kwa wafanyikazi, alibainisha kuwa ingawa sio wafanyikazi wengi ambao wameathiriwa katika hatua hii, mchakato utaanza kwa dhati mwishoni mwa Desemba. Upungufu huo utafanyika katika awamu 2-3, na awamu kuu ya kwanza itafanyika mwishoni mwa Desemba, ikifuatiwa na nyingine mwezi Machi, na awamu ya mwisho mwezi Juni.

Base Titanium imeunda zaidi ya kazi 1600 za moja kwa moja, kazi 1430 zisizo za moja kwa moja katika

mnyororo wa usambazaji na ajira 1380 zilizosababishwa kupitia matumizi ya watumiaji.

Meneja wa Mazingira wa Base Titanium, Nick Okello, alisema kuwa wanafanya kazi kwa bidii katika juhudi za ukarabati huku wakifuatilia kwa karibu mambo muhimu ya kimazingira. Hizi ni pamoja na ubora wa hewa na maji, viwango vya mionzi, na udhibiti wa taka, kuhakikisha kwamba vipengele vyote vinakidhi viwango vinavyohitajika. Alisema kuwa wamekarabati zaidi ya hekta 500 katika eneo la kusini mwa dune, 250 katika dune ya kati na 250 katika Dune ya Kaskazini.

Okello alisisitiza kuwa kampuni hiyo hutumia mbinu mbili za urekebishaji. Kwanza hufanya uundaji wa ardhi ili kuhakikisha mifereji ya maji inayofaa ambayo inalingana na mdiririko wa maji asilia kuelekea jamii inayozunguka.

“Baada ya kuchagiza, tunaweka udongo wa juu na kutathmini ni virutubisho gani vinakosekana kwenye udongo ili kubaini nyongeza inayofaa. Mchakato wa ukarabati huanza kwa kupanda nyasi kama spishi ya kwanza, ikifuatiwa na vichaka na miti,” Okello alisema.

Alihakikisha kuwa katika kipindi cha miaka 5 hadi 10, juhudi hizi zinatarajiwa kurejesha ardhi katika hali inayolingana na bioanuwai iliyo karibu kama walivyofanya kwenye eneo la kati.

Ziara hiyo pia ilijumlisha kutembelea miradi kadhaa ya jamii ambayo Base Titanium imetekeleza kwa ushirikiano na Kamati za CDAC.

# Nakuru yazindua baiskeli za umeme za bei nafuu kwa wana boda boda

NA ANNE MWALE (KNA)

Serikali ya Kaunti ya Nakuru imezindua pikipiki za umeme kama sehemu ya mpito wake wa uhamaji wa umeme, unaolenga kupunguza alama za kaboni. Utawala wa kitengo cha ugatuzi umeashiria kujitolea kwake kuunga mkono mpango wa serikali ya kitaifa wa kukomesha zaidi ya pikipiki milioni mbili zinazotumia mafuta huku Kenya ikianzisha enzi ya e-mobility.

Waziri wa Kaunti (CECM) anayesimamia Barabara, Uchukuzi, na Kazi za Umma Mhandisi Michael Kamau alifichua kuwa, pamoja na vituo vinane vya kutoza malipo vinavyofanya kazi na vingine viwili vikiendelea kujengwa, Nakuru iko katika njia thabiti ya kukumbatia uhamaji unaozingatia mazingira. "Ili Kenya kufikia utoaji wa hewa ya chini ya kaboni, tunahitaji teknolojia bora katika sekta ya uchukuzi. Pikipiki hizo za umeme zitaisaidia kupunguza utovu wa nidhamu na kuboresha usalama katika mfumo wa usafiri kwani zina vikomo vya mwendo kasi," Mhandisi Kamau alisema. Aliongeza, "Hii e-boda boda haiwezi kuzidi kilomita 90 kwa saa. Hii ni kuwahibiti madereva wazembe na kuokoa misha."

Mhandisi Kamau pia al-

itaja kuwa kaunti imeshirikiana na washikadau mbalimbali kuunda sera kuhusu e-mobility, na kuimarisha kujitolea kwa Nakuru kwa ufumbuzi endelevu wa usafiri. Waziri aliyeandamana na Meneja wa Jiji, Gitau Thabanja, Maafisa Wakuu Samwel Ndegwa (Miundombinu), Benard Sang (Biashara), na Msemaji wa Chama cha Boda Boda Nakuru, Stephen Mwanda, walieleza kuwa pikipiki hizo hazitezi kuibiwa kwa sababu zinaweza kufuatiliwa kutoka eneo la mbali. inaweza kuzimwa kwa mbali ikiwa imeibiwa. "Sekta ya e-mobility tunayoanzisha Nakuru itakuwa na ufuatiliaji. Mtu akijaribu kuiba pikipiki hii inaweza kuzimwa," alisema. Mhandisi Kamau alibainisha kuwa baiskeli hizo za e-mobility zitakuwa nafuu kwa waendeshaji boda boda, huku kila baiskeli ikigharimu takriban Sh160,000. Alieleza kuwa waendeshaji bodaboda wamekuwa wakikabiliwa na gharama kubwa siku za nyuma, huku wengine wakilipa hadi Sh300,000 kwa pikipiki zinazotumia mafuta. CECM ilisisitiza zaidi kwamba waendeshaji wataokoa gharama za mafuta, kwani gharama za kutoza hazitakuwa kubwa kama zile za mafuta.

Alisema kuwa, licha ya kuwa chaguo kuu la usafirishaji wa maili ya

mwisho kwa mizigo na watu, sekta hiyo imejaa vifo zaidi ya 3,000 kila mwaka. Pikipiki hizo za e-mobility zitakuwa na vidhibiti mwendo na kam-era za dashi ili kufuatilia na kudhibiti mwendo kasi. "Sekta ya bodaboda ina kiwango kikubwa cha ajali, ikirekodi vifo 3,000 kila mwaka. Tutadhibiti mwendo kasi ili kuhakikisha usalama wa wasafiri na abiria wao," aliongeza.

Pikipiki hizo zimetengenezwa na ARC Ride, kampuni ya kutengeneza pikipiki za umeme zinazopatikana Rwanda, Uganda, Tanzania na sasa Kenya. Kulingana na ARC Ride, e-boda boda zinahitaji malipo moja tu usiku. Baiskeli hizo zinaweza kufikia kasi ya juu ya kilomita 90 kwa saa, kubeba mizigo ya hadi kilo 250, na kusafiri umbali wa kilomita 90. Waendeshaji pia wataruhusiwa kubadilisha betri zao ambazo zimeisha kwa zile zenye chaji kika-milifu katika vituo vya kubadilishana betri vya baiskeli ya umeme vya ARC Ride.

Kulingana na Meneja wa Jiji Thabanja, mpango huo unalenga kuharakisha kupitishwa kwa e-mobility, kuwawezesha vijana, na kupunguza gharama za uendeshaji katika sekta ya boda boda. Wahudumu wa bodaboda wamekuwa wakilalamikia gharama ya mafuta inayoongezeka kila mara. Thabanja

Nakuru yazindua pikipiki za umeme ili kupunguza utoaji wa kaboni - KNA

alisema kuwa pikipiki hizi mpya zitaokoa tasnia ya bodaboda kutoka kwa bei ya juu ya mafuta, akisisitiza mchango mkubwa wa uhamaji wa kielektroniki katika uhifadhi wa mazingira. Aliongeza kuwa pikipiki za umeme zitapunguza kwa kiasi kikubwa uchafuzi wa kelele huku zikiimarisha kujitolea kwa Nakuru kwa mazoea rafiki kwa mazingira.

Utafiti wa hivi

**Mchanganyiko wa nishati nchini Kenya unafaa sana kusaidia uhamaji wa kielektroniki, na karibu asilimia 90 ya nishati nchini inatoka kwa vifaa mbadala," - Hurst-Croft**

majuzi wa e-mobility wa Chuo Kikuu cha Strathmore unaonyesha kuwa baiskeli moja ya petroli hutoa tani 4.2 za gesi ya kaboni kila mwaka, kumaanisha kuwa sekta ya bodaboda milioni mbili, ambayo inachangia Sh1 bilioni katika uchumi wa Kenya, inamonyoa mapato haya kwa kuzalisha angalau milioni 8.4. tani za kaboni. Kwa ujumla, sekta ya uchukuzi inachangia kwa kiasi kikubwa asilimia 20 ya jumla ya uzalishaji wa hewa ukaa nchini.

Thabanja alionyesha kuwa idadi ya magari ya umeme na pikipiki zilizosajiliwa nchini Kenya iliongezeka kwa zaidi ya mara tano mwaka jana huku mashirika zaidi na watu binafsi wakihama kwenda kufanya usafi. Data kutoka kwa Mamlaka ya Udhhibiti wa Nishati na Petroli (EPRA) inaonyesha kuwa Mamlaka ya Kitaifa ya Uchukuzi na

Usalama (NTSA) ilisajili magari 2,694 ya umeme (EVs) mnamo 2023, na hivyo kuashiria ongezeko kubwa kutoka vitengo 475 mwaka uliopita. Idadi hii inazidi jumla ya idadi ya EVs ambazo zilikuwa zimesajiliwa hapo awali nchini Kenya, na kufanya jumla ya EVs zilizosajiliwa kufikia 2023 hadi 3,753.

Afisa Mkuu Mtendaji wa ARC Ride, Joseph Hurst-Croft, alisema kuwa Kenya ni mojawapo ya nchi barani Afrika zenye soko kubwa zaidi la pikipiki za umeme, hali inayovutia makampuni ya kimataifa kuanzisha mitambo ya kuunganisha mashinani, na hivyo kutengeneza fursa za ajira. na kuboresha Pato la Taifa la nchi. "Mchanganyiko wa nishati nchini Kenya unafaa sana kusaidia uhamaji wa kielektroniki, na karibu asilimia 90 ya nishati nchini inatoka kwa vifaa mbadala," Bw. Hurst-Croft alisema.

## Mfumo mpya wa maji taka, mtambo wa kusafisha maji kubadilisha pakubwa sura ya mji wa Kapsowar

NA RENNISH OKONG'O (KNA)

Mipango inaendelea ya kujenga mfumo wa maji taka na mtambo mpya wa kusafisha maji katika mji wa Kapsowar ili kuboresha upatikanaji wa maji na usafi wa mazingira katika eneo hilo.

Mradi huo ni wa ushirikiano kati ya Wakala wa Maendeleo ya Maji ya Ziwa Victoria Kaskazini (LVNWWDA), Wakala wa Maendeleo ya Ujenzi wa Maji ya Ufa Kaskazini [NRWWDA], na Kampuni ya Majisafi na Usafi wa Mazingira ya Cherangany Marakwet (CHEMAWASCO).

Kulingana na David Kimutai, Mkurugenzi wa CHEMAWASCO, mtambo wa sasa wa kusafisha maji umekuwa duni katika kuhudumia wakazi wanaoongezeka wa mji huo.

"Kiwanda cha sasa hakiwezi kukidhi mahitaji ya wakazi

wengi kutokana na mgao wa maji. Mara tu kiwanda kipya kitakapojengwa, kiwango cha maji kinachopatikana kwa kila mita ya ujazo kitaongezeka, na kuhakikisha kuwa wakazi wanapata maji saa 24 kwa siku," Kimutai alisema.

Masuala ya mazingira pia yametolewa kama sehemu ya upangaji wa mradi. Cloud Lumumba, mwanamazingira katika LVNWWDA alieleza hitaji la maji wa ziada ya mita za ujazo 2,500 za maji kila siku. "Ili hili liwezekane, ni lazima tujenge mfumo wa majitaka unaotegemewa ili kushughulikia utokaji. Takriban asilimia 80 ya maji yanarudishwa kwa mazingira, kwa hivyo udhibiti sahihi wa maji ni muhimu," Lumumba alisema wakati wa kongamano la ushiriki wa umma katika mji wa Kapsowar.

"Wakati pendekezo la kiwanda kikubwa zaidi cha matibabu lilipowasilishwa, swali liliibuka kuhusu kudhibiti taka. Mfumo wa mifereji ya maji taka ukawa sehemu muhimu ya mpango huo, na tumetambua Ng'orong'oro huko Kapsowar kama eneo kuu la kutibu taka," aliongeza.

Vincent Otieno, mhandisi katika LVNWWDA, alitoa mwanga juu ya vipengele vya kiufundi vya mfumo wa maji taka, akielezea kuwa usafi wa mazingira unahusisha hatua mbili muhimu: usafishaji katika eneo na nje ya eneo.

Alisema, "Tulizingatia kwa makini ardhi na mteremko wa eneo hilo, huku mji ukielekea maeneo mawili mashuhuri. Maeneo matatu yalizingatiwa kwa mfumo wa maji taka, Kapsowar, Kipsaiya, na Kap-

samai. Laini kuu ya maji taka itapita kando ya bonde, na Ng'orong'oro kama kituo kikuu cha matibabu.

Otieno aliangazia kuwa Kapsowar imekuwa ikikabiliwa na magonjwa yanayosababishwa na maji kutokana na ukosefu wa mfumo wa maji taka. "Bila ya usafi wa mazingira, magonjwa yanayotokana na maji yamekuwa wasiwasi. Mfumo wa maji taka utakuwa muhimu katika kushughulikia suala hili".

Pia alitaja kuwa ingawa Ar-ror ilizingatiwa kama eneo linalowezekana la usimamizi wa taka, ilionekana kuwa haiwezi kutumika kwa sababu ya wasiwasi wa usalama na eneo lake lenye mwinuko.

"Msimamo wa Ar-ror ni mzuri kwa usambazaji wa maji lakini si kwa usimamizi wa maji taka," Otieno alibainisha, akiongeza

kuwa mipango ya kuboresha usambazaji wa maji ya Ar-ror bado itaendelea, ikiwa ni pamoja na ufungaji wa tank kubwa la maji taka baadaye baada ya kuboresha usambazaji wake wa maji.

Katika maeneo ya vijijini ambako mfumo wa maji taka unaweza usifikie kama vile Lawich na Sisiya, vitalu vya udhu vyenye vyoo na bafu vitajengwa. "Vitalu hivi vya udhu vitahudumia maeneo ambayo hayajafunikwa na njia kuu za maji taka," Otieno alielezea.

Msimamizi wa Wadi ya Kaunti Ndogo ya Marakwet Magharibi, Patrick Maiyo, aliwataka wakazi kuunga mkono kikamilifu mradi huo, akisisitiza manufaa ambayo utaleta katika mji huo.

"Ikiwa tutakumbatia mfumo wa maji taka na mtambo wa kusafisha maji, Kapsowar itaboreshwa," alisema. Maiyo.

# Wanasayansi wa Kenya wahimiza udhibiti wa utupaji taka za madini

NA PHILIP ONYANGO (KNA)

Huenda Kenya inapo-teza mamilioni ya shilingi kutokana na shughuli zisizodhibitiwa za uchimbaji madini, huku wachimbaji wakichimba madini ya thamani na kutupa udongo wenye madini ya pili lakini yenye thamani kwa uzembe.

Kulingana na wanasayansi wa Kenya, ukosefu wa udhibiti mkali wa utupaji wa taka za madini unaathiri umma, na kuwaweka kwenye magonjwa kupitia utumiaji wa moja kwa moja na usio wa moja kwa moja wa kemikali hatari.

Wakizungumza katika Kongamano la 11 la Kimataifa la Chama cha Kemikali nchini (KCS) lililofanyika katika Chuo Kikuu cha Sayansi na Teknolojia cha Jaramogi Oginga Odinga huko Bondo, Kaunti ya Siaya, wanasayansi hao walisisitiza kuwa ni wakati mwafaka kwa serikali kuchukua hatua madhubuti kuleta utulivu katika sekta hiyo.

Wanachama wa KCS, akiwemo profesa wa Chuo Kikuu cha Maseno Chrispine Kowenje, walionesha utayari wa jamii kuunga mkono serikali katika kukuza mbinu bora katika uchimbaji madini. Kowenje alisisitiza kuwa sekta hiyo inapaswa kudhibitiwa ili kuhakikisha utupaji taka ufao.

Profesa Kowenje pia alibainisha haja ya kutathmini upya njia zote za uchimbaji na utupaji taka za madini ili kulinda mazingira bora.

**“Nina hakika kemikali hizi huingizwa hata kwenye mimea ambayo wanyama hulisha baadaye na baada ya muda mrefu, binadamu hula mimea na wanyama,” - Dkt Orwa.**

Oginga Odinga. Alisema ukosefu wa maarifa ya kiufundi miongoni mwa wachimba migodi wengi umewaweka wazi kwa kemikali hatari kama vile zebaki na sianidi.

“Katika mchakato huo, mbali na uchafuzi wa mazingira, pia huvuta moshi kutoka kwa kemikali hizi,” Dkt. Orwa alisema.

Alisema utafiti alioufanya hivi karibuni katika maeneo ya migodi ulibaini kuwa watu wengi

walikuwa wakilalamika kuumwa na kichwa hasa nyakati za jioni na kifua.

“Kulikuwa na kundi hili la wanawake ambao walizungumza kuhusu kuharibika kwa mimba mara kwa mara miongoni mwa madhara mengine,” Dk. Orwa alisema.

Alisema utupaji taka usiofaa unasababisha viumbe vya kemikali vilivyooshwa na maji kupita kwenye vyanzo vya maji.

“Nina uhakika kemikali hizi zimeingizwa hata kwenye mimea ambayo wanyama hulisha baadaye na baada ya muda mrefu, binadamu hula mimea na wanyama,” alisema.

Mbali na changamoto za utupaji taka za madini, wanasayansi hao pia walitoa wito wa kuzingatia kwa haraka kwa usimamizi wa taka za plastiki.

Kulingana na Dkt. Christine Betty Nagawa wa Chuo Kikuu cha Makerere, mabadiliko ya halijoto husababisha kuharibika kwa plastiki hadi plastiki ndogo ambayo huathiri afya ya binadamu na wanyama.

“Tunaishi katika enzi ya plastiki ambapo karibu kila kitu tunachotumia kime-tengenezwa kwa plastiki,” Dkt. Nagawa alisema na kuongeza, “Chembe za plastiki zisizozidi milimita tano zina athari kwa afya ya binadamu, wanyama na mazingira.”

Kwa mfano wa uharibifu wa mazingira, Dkt. Nagawa alisema tafiti za hivi karibuni zimeonyesha kuwa samaki katika ukanda huo hawazaliani tena kwa kiwango kinachotarajiwa kwa sababu plastiki ndogo hujilimbikiza kwenye utumbo na viungo vyao vya uzazi.

# Trans Nzoia kuendeleza uwekaji wa huduma za afya kidijitali

**Gavana wa Trans Nzoia George Natembeya (kati-kati) akiwa katika picha ya pamoja na USAID Ampath Uzima wawakilishi wa eneo la Kenya katika Makao Makuu ya Kaunti.**

NA ISIAH NAYIKA (KNA)

Serikali ya Trans Nzoia inapanga kutoka huduma kwa njia ya kidijitali katika vituo vyote vya afya katika eneo hilo.

Akizungumza baada ya kufanya mkutano wa mashauriano na wawakilishi wa USAID Ampath Uzima katika makao makuu ya kaunti, Gavana George Natembeya alisema uwekaji wa huduma za afya katika vituo vyote vya afya katika kidijitali ni eneo la kipaumbele kwa serikali yake.

Alieleza kuwa pindi itakapotekelezwa, utoaji wa huduma utaimarishwa katika ngazi ya vituo kando na kuimarisha mifumo ya afya ya jamii.

“Hivi karibuni tunazindua mpango wa majaribio wa mpango huu katika Kaunti Ndogo ya Endebes tukiwa na matumaini kamili ambayo pindi tu yatakapotekelezwa yatakuza uwezo wa kaunti yetu katika kujitegemea katika huduma ya afya katika njia ifaayo,” akasema.

Akipongeza USAID Ampath Uzima kwa mchango mkubwa ambao shirika hilo limepiga katika sekta ya afya, Gavana Natembeya alisema uhusiano wa karibu wa kufanya kazi na washirika wa maendeleo ni sehemu muhimu ya kutimiza ndoto za maendeleo ya kaunti zaidi katika sekta ya afya.

Katika mwaka uliopita wa kifedha wa Ampath, Gavana Natembeya alifichua kuwa kaunti ilipokea takriban Sh213 milioni kutoka kwa shirika hilo ili kuboresha shughuli za afya.

Afya ya uzazi, afya ya mama na mtoto ilipata mgao mkubwa zaidi wa Sh137 milioni, Mpango wa HIV ulitengewa Sh64 milioni huku yatima na Watoto wanaoishi katika mazingira magumu (OVC) wakipata Sh12 milioni.

Katika mjadala ulioweka kipaumbele kuanisha shughuli zijazo za Ampath katika mwaka mpya wa kifedha na maeneo ya kipaumbele ya serikali ya kaunti katika sekta ya afya, Gavana Natembeya alisema uwepo wa Ampath katika eneo hilo haulinganishwi katika sekta ya afya.

“Juhudi na dhamira ambayo Ampath imeweka katika kuboresha huduma za afya katika kaunti yetu haiwezi kulinganishwa. Tukiendelea mbele, tunaahidi kuendelea kukuza mahusiano hayo ambayo yana manufaa makubwa kwa watu wetu,” alisema na kuongeza kuwa rasilimali ambazo shirika limetenga kwa ajili ya kuendelea kusaidia zitasaidia kuendeleza huduma muhimu za afya.

## Wakulima 4,000 wanufaika na mbegu za alizeti zilizoidhinishwa Nakuru

NA ESTHER MWANGI NA MEGGY NJOKI (KNA)

Takriban wakulima 4,000 walipokea mbegu za alizeti zilizoidhinishwa kutoka kwa Serikali ya Kaunti ya Nakuru katika hatua iliyo- lenga kuimarisha uzalishaji wa alizeti katika eneo hilo ili kupunguza bili za uagizaji wa mafuta ya kula na bei ya chini ya mafuta ya kupikia nchini.

Afisa wa Mazao wa Kaunti hiyo Bi Lilian Samoei alisema kuwa kilo 15,000 za mbegu zilizoidhinishwa zilisambazwa kwa wakulima waliosajiliwa ili kupandwa kwenye ardhi ya ekari 5,000 kote kaunti hiyo.

Alibainisha kuwa kaunti inalenga kuongeza ekari inayotolewa kwa kilimo cha alizeti hadi zaidi ya ekari 15,000 katika muda wa miaka mitatu ijayo katika kaunti ndogo kumi na moja.

Akiangazia kwamba Kenya hutumia angalau Sh160 bilioni kila mwaka kuagiza mafuta ya kula, hasa kutoka nchi za Kusini-mashariki mwa Asia, afisa huyo wa mazao alisema kuwa utawala wa Gavana Kihika umeanzia mradi wa kukuza alizeti ili kuongeza uzalishaji wa ndani wa zao la mafuta

na kusaidia kukabiliana na kupanda kwa gharama za mafuta ya kula. nchini.

Afisa mazao alieleza kuwa mpango wa alizeti ulikuwa unaratibu usambazaji wa nyenzo za upanzi zilizoidhinishwa kwa wakulima, mbolea ya ru-zuku, kutoa uhusiano wa soko na kuongeza thamani ili kukuza kipato cha wakulima.

Afisa huyo aliongeza kuwa serikali ya kaunti imedhamiria kuwawezesha wakulima kupata mbegu bora za alizeti na kuimarisha huduma za kilimo kwa wakulima ili kuongeza bidhaa za mafuta ya kula.

“Tunakuza uzalishaji wa alizeti ili kuweka pesa mikononi mwa watu wetu,” Bi Samoei aliongeza.

Afisa mazao alisema aina mbili kuu za alizeti ambazo ni aina ya mseto na aina ya uchavushaji wazi (OPV) kwa sasa zinakuzwa katika maeneo mengi ya kaunti pamoja na zingine zikiwemo sunbeam, mammoth, autumn beauty, teddy bear na Kenya Fedha. Mazao hukomaa ndani ya miezi mitatu hadi minne. Akizungumza wakati wa baraza la uhamasishaji wa alizeti katika Wadi ya Nyota katika

Kaunti Ndogo ya Kuresoi Kaskazini Afisa wa Mazao wa Kaunti hiyo alisema kupitia ushirikiano wa sekta ya umma na binafsi utawala wa Gavana Kihika ulikuwa unawawezesha wakulima kupata huduma kama vile kulima ardhi, usimamizi na huduma za ugani wakati wa uenezi.

Afisa huyo alisema kaunti imejitolea kusaidia wakulima ili kuhakikisha wanalima alizeti kwa njia ya kuridhisha, na kuongeza kuwa siku za usoni kaunti ina nia ya kuwasaidia kwa mashine za kuwawezesha kuzalisha mafuta yao ya kupikia kwa ajili ya kuuza katika masoko ya humu nchini. Alikuwa na matu-

maini kwamba uzalishaji wa mafuta ya kula utasaidia kuondoa umaskini katika eneo hilo na aliwambia wakulima kuchukua hatua hiyo kwa umakini ili kuhakikisha wanavuna kiasi kilicholengwa cha alizeti kwa kutumia kanuni bora za kilimo.

Bi Samoei alisema serikali ya kaunti inahimiza kilimo cha mazao ya mafuta ili kupunguza bili za kuagiza mafuta ya kula na kupunguza bei ya mafuta ya kupikia nchini Kenya.

Alisema ingawa alizeti inastahimili ukame na inaweza kuendana na maeneo mengi ya kiikolojia, Kenya kwa sasa inazalisha chini ya asilimia 50 ya mahitaji yake.

## Serikali mbioni kutii kanuni za EU kuhusu kahawa kabla ya tarehe ya mwisho

NA JOSEPH WANGUI (DPCS)

Serikali imeongeza juhudi za kufuata Kanuni za Umoja wa Ulaya za Kupunguza Uharibifu wa Misitu (EUDR) katika biashara ya kahawa.

Kanuni hizo zinataka kampuni zinazofanya biashara ya kahawa kufanya uangalizi wa kina kuhusu mnyororo wa thamani ili kuhakikisha kuwa uzalishaji wa zao hilo hautokani na ardhi iliyokatwa miti. Naibu Rais Rigathi Gachagua alisema kuwa serikali imekusanya rasilimali ili kuhakikisha kwamba sheria zinafuatwa kabla ya tarehe ya mwisho ya Desemba 30, 2024, kuzuia kahawa ya Kenya kufungwa nje ya soko la Umoja wa Ulaya.

“Hii itatuwezesha kuhifadhi soko la faida la Umoja wa Ulaya, ambalo lina- chukua zaidi ya asilimia

55 ya kahawa yetu,” Bw. Gachagua alisema. Alizungumza wakati wa ufunguzi wa Maonyesho ya Kitaifa ya Kilimo ya Kenya ya Kati 2024 katika uwanja wa Kabiru-ini katika Kaunti ya Nyeri. Umoja wa Ulaya, muungano mkuu wa kiuchumi duniani, ulianzisha kanuni ili kupunguza athari za soko

Wakulima wa kahawa

lake kwenye uharibifu wa misitu na upotevu wa bayoanuwai na kukuza bidhaa zisizo na ukataji miti.

Bw Gachagua, ambaye alitwikwa jukumu la Rais William Ruto kuongoza mageuzi katika Sekta Ndogo ya Kahawa, alisema hatua zinachukuliwa kuhakikisha sekta ya kahawa inawiana

na kanuni za Ulaya dhidi ya ukataji miti.

Wakati huo huo, Naibu Rais alivitaka vyama vya ushirika vya Kahawa kuchapisha na kutoa maelezo ya kina kuhusu gharama zao za kifedha na makato kwa wanachama wao.

Hii inakuja huku kukiwa na juhudi kubwa za kuimarisha usimamizi bora wa fedha katika harakati za ushirika kupitia marekebisho ya sheria, udhibiti na sera pamoja na sekta ndogo ya kahawa.

Bw Gachagua aliwataka maafisa wa usimamizi wa Sacco kufichua kikamilifu gharama za kifedha.

Alieleza kuwa jambo hilo litawawezesha wakulima kuhoji gharama zozote wanazoziona ni za kutiliwa shaka, hivyo kuchangia katika utawala bora na uwajibikaji wa jamii.
